LOSS OF THE HUNGARIAN.

ALL THE CREW AND PASSENGERS SUPPOSE is a large steamship ashore on the west side of Cape Sable. No communication could be had with her."

It is of course impossible to decide at present what vessel this can be. The ste Vigo and Hungarian were advertised to leave Liverpool on the 8th instant, the former for this port and the latter for Portland. The Saxonia was advertised to leave Southampton for New York on the 4th instant.

SECOND DESPATCH-

BARRINGTON, N. S., February 20, 8 P. M. The steamer's lights were seen at four o' clock this morning, and at daylight she was found to be ashore half a mile from the island. The sea was so rough that hoats could not reach her. A vessel is preparing to go to her assistance. The American Consul proceeded at once to the steamer, but has not yet retur-ned. We shall probaly have particulars in

the morning. HALIFAX, N. S., Tuesday, February 21 1860. The brig Cygnet, which has arrived at this port in twelve days from New York, when lyng to in thick weather on Sunday evening, ing to in thick weather on Subury evening, at six o'clock, off Liverpool, Nova Scotia, saw a large screw steamer steaming west-northwest. Hence the steamer ashore at Cape Ledge is probably the steamship Hungarian, Captain Jones, which left Liverpool on the 8th instant for Portland. The agent of the Associated Press has sent a special messenger to the scene f the disaster. He also just received the following:

BARRINGTON, N. S., Tuesday, February 21. -The Consul returned from the island last night, but nothing is yet known as to the wrecked steamship. It is supposed that all on board are lost. A vessel has gone round this morning.

HALIFAX, Feb. 21-P. N.-The following is the only news yet obtained from the scene of the wreck :

The large steamship ashore on the west side of Cape Sable is the steamship Hungarian, which sailed from Queenstown on the 9th inst. for Portland. She is a total wreck, and all her crew and passengers are supposed to be lost. A small portion of her hull is now visible at low water. Nothing like the news de-spatch for the Associated Press can be found; but it is thought it may be in the mail, a small portion of which has been saved in a damaged state. One passenger ticket has been found, with the name of Ellen Sheehan upon it.

The following has been sent from Cape Sa-ble to Messrs. Cunard & Co. :

"A steamer's lights were seen on Monday morning at 3 o'clock; at daybreak the spars' and pipe were seen standing, and at 10 \wedge . M. all had gone by the board. Then the ship set-tled fast. A heavy sen was running, break-A heavy sea was running, breaking mast-high over the ship. Communication with the ship was impossible. All on board must have been lost, unless the boats left the ship before daylight, which is not likely. At low water part of the ship is still visible."

A TERRIBLE TALE.—Lost and frozen to death on the Prairies.—The St. Paul's Minnesotian and Times, 10th inst., extracts from the Nor'wester, published at the Red-river settlements, a sad narrative. A party, including Mr. Mack-enzie, started from Georgotown, at the mouth of the Buffalo river, to cross the prairie to Fort Larry. They started December 23d, taking mules. The latter gave out in three days, dis-tance only half done, and provisions getting short. Here they were helpless, in the heart of a vast, dreary, unknown prairie, in a cold, bleak month, far beyond the reach of all sym-pathy and aid, with starvation staring them in the face.

On Thursday, the 20th, Mr. Meckenzie resolved to reach the Pembina, and send back succor. The engineers accompanied him.--The day was cold and stormy, and a bitter blast from the north drove them back. They all from the north drove them back. They all camped together that night near Pine river, and 50 miles from Pembina. In the morning Mackenzie started again alone. He had a presentiment that he would not get through. He wore but one thin coat, and was lightly and we here they can safely be exported only in the Autumn or early Winter.
