Great Reduction in Prices. STOMAGH BITTERS. The proprietors and manufacturers of HOB-TETTEN'S CELEBRATED STOMACH. BIT-TERS can appeal with perfect confidence to physicians and bitzens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning pullery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfters for the last year amounted to over a half-million bottles, and from its manifest steady increase in three past, it is evident that during; the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent

physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachio derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medleine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved

a Godsend to regions where fever and ague and various other bilious complaints have inted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the storanch, purifies the blood, and imparts renewed vitality to the nervous system, giving it that fone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find n it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonle, and rejuventing generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physi-cians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particu-larly referred above, to wit: sufforers from fever and ague, caused by malaria, diarrheea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's (clebrated Stomach Bitters a trial. CAUTION.--We caution the public against using any of the many imitations or counterof bodily strength. using any of the many imitations or counter-feits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hestetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallie cap covering the cork, and observe that our autograph signature is on the label.~

New Agricultural Settlements. Scrofula, or King's Evil, is a constitutional disease, a corruption of the blobd, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The serofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the dopressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, if seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon TO ALL WANTING FARMS

every section of country abounds in persons pub-licly known, who have been restored from alarming and oven desperate discases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate.
