New Agricultural Settlements. TO ALL WANTING FARMS.

Rare Opportunity that Belightful and Healthy Climate, 25 miles Southers of Philadelphia, on the Uanden and Allantic Builtoud,

en and Attanta AN old state consisting of several thousands of action productive will, has been divided into Farms of various sites to suit the purchaser. A population of the Middle States and New England, have population of symbol stitcen. Hundred, Tron. Various parts of the Middle Stotes and Now England, have settled there the past year, improved their places and raised excellent reps. The price of the land is at the low sum of from \$15° to \$20 per age, the soil is of the best quality for the production of Wheat, Clover Penches, True and Vogotables. IT I CONSIDERED THE BIST FRUIT SOIL IN THE UNION. The place is perfect secure from frosts—the destructive enemy of the farmer.—Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct indements on the formed of the productiveness of the half. The terms are made oney to secure a rapid improvement of the land, which is only sold for actual, improvement. The result has been that within the past year, some three hundred houses have been creeted, two mills, one stoam, four stores, some forty vinyards and peach orchards planted, and a large number of other improvements, making it a desirable and active place of business. irable and active place of business,

THE MARKET, as the reader may perceive from its location, is THE BEST IN THE UNION. Produce bringing double the price brought in becations away from the city, and more than double the price in the West. It is known that the earliest and best fruits and vegitables in this latitude come from Now Jersey, and are annually exported to the exter

of millions.

In locating here the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement and comfort is at hand He can buy every article he wants at the cheapest price, and sell his produce for the article he wants at the cheapest price, and sell his produce for the highest, (in west this is reversed,) he has school for his children, divine services, and will enjoy an open winter and delightful climate, where fevers are utterly unknown. The result of the change upon those terly unknown. The result of the change upon those from the north has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yark opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improve nents can be made cheaper.

The reader will at once be struck with the advantages bero presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these expected to do. They will see land unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt meet persons from their own neighborhood; they will witness the improvements, and can judge the character of the population. If they come with a view to settle, they should come prepared to stay as day or two and be ready to purchase, as locations cann t be held on refusal.

There are two daily trains to Philadelphia and to

all settlers who improve, the Railboad Company Gives a free ticket for six months, and a half-RICE TICKET FOR THREE YEARS.

THE TOWN OF HAMMONTON. In connection with the agricultural settlement, a new and thriving town has naturely arisen, which presents inducements for any kind of business, parpresents inducements for any arms. The shoe busi ness could be carried on in this place and market t good advantage, also cotton business, and manufac-turies of agricultural impliments, or foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent in-crease of busidess. Town lots of a good size, we do not sell small ones ak it would affect the improve-ment of the place, can be had at from \$100 and up-

HOSTETTERS

STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTENES CELEBRATED STOMACH BIT-

TERS can appeal with perfect donfidence to physicians and citizens generally of the United

physicians and citizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of hare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady

increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-

tion, and the sanction of the most prominent

where the article is best known, who not only recommend the Bitters to their patients, but

are ready at all times to give testimonials to its

efficacy in all cases of stomachic derangements

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid

ostimation of an invaluable medicine, which is

destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved

a Godsend to regions where fever and ague and various other bilious complaints have

counted their victims by hundreds. To be able to state confidently that the "Bitters"

are a certain cure for the Dyspepsia and like diseases, is to the propriotors a source of un-alloyed pleasure. It removes all morbid matter

from the stomach, parities the blood, and imparts renewed vitality to the nervous system,

giving it that fone and energy indispensable for the restoration of health. It opecates upon

the stomach, liver, and other digestive organs,

mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find

in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate,

invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women

who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned

all deleterious drugs and fairly tested the merits of this article. A few words to the

gentler sex. There are certain periods when

their cares are so harassing that many of them sink under the trial. The relation of mother

and child is so absorbingly tender, that the mother, especially if she he young, is apt to forget her own health in her extreme anxiety

for her infant. Should the period of maternity arrive during the summer season, the wear of

body and mind is generally aggravated. Here,

then, is a necessity for a stimulant to recuperate the energies of the system, and enable the

mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigora-

tors that receive the endorsement of physicians, because it is agreeable to the taste as

well as certain to give a permanent increase

All those persons, to whom we have particu-

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoa, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION. -- We caution the public against

using any of the many imitations or counterfeits, but ask for Hostetten's Celebrated Stomach Bitters, and see that each bottle has

the words "Dr. J. Hestetter's Stomach Bitters" blown on the side of the bottle, and stamped

on the metallic cap covering the cork, and

From Rev. Jacob Sechler, well known and highly respected throughout the State of Pennsylvania.

HANOVER, PA., Feb. 16, 1859.

Messrs, S. W. FOWLE & Co., BOSTON.—Dear Sirs: Having realized in my family important benefits from the use of your valuable preparation,—Wictar's Balsam of Wild Cherry,—it alfords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefited by it. I would, however, cantion the public against imposition, breases there is a good deal of spurious-Wistar's Balsam of Wild Cherry offect throughout the country.

of Para Sarsaparilla, so combined with other

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous compleints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted follow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS,
ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Ar-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-PECTIONS, MERCHALL DIBEASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBLITY, DYS-PEPSIA AND INDICESTION, ERYSTPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul hamors which fester in the blood at that season of the year. By the timeblood at that season of the year. By the timely expulsion of them many rankling disorders
are nipped in the bud. Multitudes can, by
the aid of this remedy, spare themselves from
the endurance of foul eruptions and ulcerous
sores, through which the system will strive to
rid itself of corruptions, if not assisted to do
this through the natural channels of the body
by an alterative medicine. Cleanse out the
vitiated blood whenever you find its inswritter vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no asting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the

reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to cure.
