is a constitutional disease, a corruption of the plood by which this fluid becomes vitiated, weak, and poor. Beiling in the circulation, if pervades the whole body, and may burst out; in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The search low thint is wartonaly reach its attacks, nor is there one which it may not destroy. The service taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation ;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

Scrotula, or King's Evil,

will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently, vast numbers perish by disorders quently, vast numbers perish by disorders which, although not acrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and, indeed, or an the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood; and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec-tions which arise from it, such as ERUFTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERISIPELAS, FIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATIM, SYPHIBITIO and MERCURAL DIS-RHEUMATISM, SYPHIBITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIAindeed, ALL COMPLAINTS ARISING FROM VITA-TED OR LIMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

HOSTETTER'S STOMACH BITTERS,

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TEBS can appenl with perfect confidence to physicians and oitizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Usertative States and Bit The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in these sections of the country where the article is best known, who not only

recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic deraugements and the diseases resulting therefrom This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destination of an invaluable medicine of

destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilieus complaints have counted their victims by hundreds. To be able to state confidently that the "Bilters" able to state conducting that the "bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, imparts renewed vitally to the nervous system, giving it that tone and energy indispensible for the restoration of health. It optcates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the licalthy discharge

of the functions of nature. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declinit declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuventing generally. We have the evi-dence of thousauds of aged men and women who have experienced the benefit of using this

preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have ahandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the nother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigora-iors that receive the endorsement of physi-

All those persons, to whom we have particu-larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, duranteur, indirection, here of areatite and dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.--We caution the public against using any of the many imitations or counter-feits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTENS, and see that each bottle has the words "Dr. J. disease. So wide is the field of its usefulness and so nu-merous are the cases of its cures, that almost every section of country abounds in persons pub-licly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hositate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrast upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-duced cures too numerous and too remarkable to be forgotten. be forgotten.
