The Red Lion.

What's the matter? what's the fuss? what's loose? what's up? what's up?
What's the cause of this mighty commetion!
(s the Jordan on fice? is the Lehigh dried up?
Have the mountains been set all in motion?

What does Jack vell about? what is got into Brown Why is all the world racing and running?—
It is the Red Lion, he lays himself down
With an air full of comfort and cunning;

He shakes his thick mane as if in great anger But not with intent to devour,

For he merely roars out: where is friend Gange-

And asks him the very same hour: Who says that you had been chased out of Square, 'Cause fifty more rocks had been kicking? t cannot be true, for it would not be fair, Unless through some partisan tricking.

This pleases old Gangwere, and puts him in cheer.
And he sings out: we'll make it all right, sir.
Had I but continued to take some one's heer, I could stay where I was, without doubt, sir.

T oy think that the square is a magnet of might, Surpassing the North Pole's attraction, And draws to its focus, by day and by night The friends of a pure Malt-Decection.

My "Pretzels" have always been splendid, they say, And so was my "Swietzer"—by Jingo! And Segars that I've frequently given away, Are selling at 3 cents in Mingo.

And had I not served up so "bully," indeed, It would be "by golly" no wonder, That no one would follow me over the street, When others do serve over youder.

Now, finally, friends and acquaintances, come And meet at the Red Lion nightly.
Your old daddy Gangewer has plenty of room
You'll find none so clever and sprightly. And should his now cellar take fire, the flame

And should his now centre take are, the analo Could be quenched with delicious lager And the fire in the stomach his lunches will tame,

Then mind and look out for

DR. JAMES B. COLEMAN'S CERTIFICATE.

The Wine Crackers manufactured by A. Exto, of Tronton, N. J. are composed of wheat, flour, sugar, butter, lard, lemon and common salt. The delicacy of taste, lightness and crispness depend altogether upon the purity of material, mixing and baking.—
They are easy of digestion, nutritive, and palatable, are excellent food for the sick as well as those in perfect health. The Water Crackers are equally pure. Their superior quality is owing to the skill with which they are manufactured.
