SPEECH DELIVERED BY HON. WILLIAM L. DAYTON. At a Republican Ratification Meeting, at

A Ruceant Rougher.

Friends and Fellow Citizens :- I have so lately addressed the people of Trenton; they have so often heard my voice in the court room, on the platform, on the horse block, and from the doorstep, that I cannot forbear to think they are as I am, sick of the sound, (cries of "No! no!") and "It's always music.") It begins almost to be time for us, the old campaigners, to plead the excuse of age, and it becomes us to stand aside and permit such as the eloquent young gentleman who has proceded me to take our places, walk up and do duty.

They do it more effectually on the platform

It seems, my friends, that every year brings with it its own public cares and public responsibilities, as well as private cares and private responsibilities. One year it is the Jegs islature election, and this is a crisis. Then there is a Congressional election, and this is a crisis. Then there is a Gubernatorial election, and this a crisis; and then once, at least, in every four years, the whole population of the country is excited, and we have to add to the list of crises the deeper excitement of a Presilential election.

And when the public mind, as I have often said before, is excited and aroused, the public interests, the liberty of the people has never been known to suffer. We have never been injured by too much discussion. In the moral forld and in the political world, as in the philosophical world, the same law prevails.— Disease and prestilence gathers around the staguant marsh and loathsome pool; while the flowing streams and dashing water breatho of

health and happiness. So with the agitation of the public mind by free discussion; it always tends to light and liberty. (Applause.)

But, my friends, at the outset of a great political contest, the only and appropriate feeling and inquiry is, for what are we to contend. This is more important than for whom we are to contend. That is a secondary considera-tion. The great and fundamental discussion s that which tends to indoctrinate and satisfy us with our principles. Be sure that you are right and then go ahead. The man is a secondary consideration entirely—first and always. In other countries, and among other lasses of men it may be different. There they nay look more to men, but here we are more utilitarian; we look more at principal and measures and less at their movers and expo-With such a feeling as the sort I have spoken of in other countries, it may be well to

ave some name to rouse men to action. There is a class that can be roused by in East Allentown on the road leading from Schimpl's Hotel to the Allentown Iron Works. The House is benutifully situated, large and roomy, with first rate stabling and water close at hand.

Being somewhat experienced in keeping a public house, he flutters timed to be able to give full satures, the establishment of which we deem the least thing for the course. We then look best thing for the country. We then look around for a man, not to stand upon the platform that we make, but to stand under that platform. The platform is higher than the man, and his success must be its establishment, or it is but a barren victory at last. The character of the man must exemplify and correspond to the principles of which the creed form; be sure that you are right, and then go in for that man who will best representit, and

elected or have superior claims; but if A. B. question of the supremacy of Empires was to heavenly Shilah.

question of the supremacy of Empires was to heavenly Shilah. and C. D. can bring more soldiers into the campaign. If not, and E. F. can muster a larger army, then let E. F. be your candidate. Applause.) It is a great mistake, under ornary circumstances, to think when certain candidates fail of a nomination, that personal of the supremacy of their personal claims over onsiderations of paramount importance to pary—and the greater probability of the estab-ishment of principles; to say how hardly has producing the result. his man or that man been used; how Mr. eward has been neglected, or some other eminent statesman disregarded. It is very wrong to say that Republicans should be ashamed for or their representative men. Why, their very first object is to assert their principles. Then let them take up the best man towin, and thus them, and afterwards to reward the worthy.— It was upon this ground that Abraham Lincoln and Hamibal Hamlin were made the Chieftains in this campaign. (Applause.) One of these gentleman I know well, and of

the other I have some knowledge, and I hesi-tate not to say that they are both true men, and if elected, they will do honer to their posi-subject. tion. (Applause.) 1 know, full well, my friends, that men of more knowledge and ex-perience in politics than Mr. Lincoln, can be ound and, perhaps, could have been noming ted. But a knowledge of this sort does not always peculiarly well qualify a man for public station. Mr. Buchanan had a large political experience. (Laughter.) Why, he was in stations of public trust from youth to manhood, and from manhood to old age. He had always lived in public, and literally breathed the gir of Courts. the air of Courts. He was known and honored of men as the sun of his career was rising in the political horizon, but as it is going down, it sinks under a cloud. (Laughter.) And we ess noted for the evils that have cursed the administration of James Buchanan. This matter of place and position, is all well enough; ti gives men a start in a political career, butit does not make up for inherent deficiencies.— One is just as well without it. As my young friend, who preceded me, has quoted to you-

Rank is but the guinea s stamp, Aman's a man for a' that"

There is often as much in a mere ham to designate the character of a man, as in whole volumes of history, carrying his memory down the stream of time to remote generations, more faithfully preserved than by the hierarcher's near. Thus we read of Alexander our report. the Great. Peter the Simple, Richard the Lionthe Great, Peter the Simple, Richard the Lionnearted—and why may we not add to the

this connection. Mr. Bell and Mr. Everett one word bearing against these men. I have had them in respect and do still entertain for their position had been such, as to secure the any difficulty in making up my mind to east my vote for them. They are able and conservative, but they are without a distinctive plat-

form of painciples. This kind of conservatism is not mine. Conservatism can and must have well defined, and living principles; it is not a mere negation, as is this of the Convention, that met at Baltimore: and I cannot see what is to be accomplished by a fragment of a party professing nothing, and offering to do nothing. This is their position, and their while cry is "Peace! bo still!" (Applause.)

Now, I have already told you, my friends, I do not mean to say a word in reference to the highly respectable gentleman concerned in this movement, but I cannot forbear to say that I regard this nomination as simply play-ing the game of '56 over again. (Cries of "it can't be done.)" No, my friends, I do not be-lieve it can be done. The nomination of Mr. Fillmore was cortainly equal in point of ex-cellence to that of Mr. Bell, and yet in the face of the fact that but a single State was carried or the ticket upon which he was placed, and vith the many favoring circumstances then existing, that are now lacking, I can see no ground for a reasonable hope for them. I do not mean to attribute to these gentlemen any mproper motives. I prefer to believe, as I do, hat they are honest and well meaning, but that they misapprehend the nature of the issues and the times. But I believe the tenden-

cy of their course, however well intended, is calcuulated only to emharrass and annoy, and and can result only to the advantage of the adversary. It is a llank movement or rear attack, and not to be taken into serious account by those, intent upon the great battle ahead. t is with the great hordes of the Democracy who stand before us face to face, front to from that we have to do. THE DREAM .- I once heard a minister who stated that he preached a number of years in a certain place without any visible benefit to any one. Finally, he concluded it was not right for him to preach, and, in consequence, thought he would give it up. But, while musing on the subject, he fell asleep and dreamed. "I dreamed that I was to work for a certain man for so much, and my business was splitting open a verry large rock with a very small hammer ounding upon the middle of it in order to split t open. "Then," said he, "keep to work—cease your complaints, ann I will take care of the result."
He then left me.

"I thought, I applied my little hammer with more energy, and soon the rock burst open with such a force that it woke me. Then said he, "I consed to complain-I seized my little hammer with new vigor-I hammered upon
