JUNIOR SONS OF AMERICA.-Washington Camp, No. 63, of this Order, was regularly installed, on Tuesday evening last, the 12th inst., in this Borough, by Messrs. W. A. The Camp, of our Borough, promises to be one of the strongest in the State, and all that is needed, is the encouragement of our citizens.

This will give our citizens an opportunity of hearing some of the leading clergyman of the country. Among those named are Dr. Spachman. (late Speaker of the Senate,) who was announced for last Sunday but could not fill the engage ment on account of ill-health, Dr. Stephens, in the Senatakhara, as he certainly did, Rev. PREPARING TO CELEBRATE THE FOURTH.—A meeting of citizens was held at the Court House, on Monday evening last, for the purpose of making preparation for the appropriate celebration of the "Fourth" in our Borough. Elisha Forrest, Esq., was called to the chair, Col. W. W. Hamersly and Samuel McHose appointed Vice Presidents, and Adam Wollever, Esq., appointed Scere-tary. On motion the following Committee tary. On motion the following Committee was appointed with full power to make all the necessary arrangements for the celebration:—John H. Oliver, Esq., Capt. John P. FLORAL FESTIVAL.—The Floral Festival, given by the Sunday School Scholars of the 1st Presbyterian church, of this place, came off on Thursday evening last and proved a gomplete success, the church being crowded to its utmost capacity. The church was beaut fully decorated with flowers and greens, and the work must have required much time and patience. The performances of the children were very satisfactory, while their appearance elicited the admiration of the large audience. We never before looked upon a group of such happy children, adorned, as they all were, in spotless robes of white, with flower wreaths shining on their fair foreheads, and looked almost like angels. It was a sight worth seeing. The most noticable artistic features, on this occasion, were the singing of "Eve's Lamentation," by Miss A. L. Romig, and the performance upon the violin, by Mr. John I. Romin and the feature of the contraction of achievements in the world of music. The Misses Hornbeck and Horn also gained favor with the audience for their efforts. The peo-ple of Catasauqua are entitled to the gratitude of the people of Allentown, for their attendance in such force. They certainly have evinced a vepy generous disposition and deserve the thanks of our people.

THE CATTLE DISEASE.—The "pleuri-pneumonin," or cattle distemper, which orig-inated in Massachusetts, has caused much consternation and alarm among the farmers and cattle breeders in this State. In all the cases examined the ravages were confined to the respiratory organs: in some cases the right and in others the left lung had been the seat of the disease and in every one involving the whole mass of lung with its covering, and extending from it to the lining memberence of the ribs. The appearance of the brochial tubes gave evidence of participation in the disease from extension to them, from the substance of the

Symptoms of the disease.—Loss of appetite, hanging of the head, and as the disease proses, an extension of the head—bright and watery eye, mouth dry, brain hot,-breathing quick, with more or less agitation of the flanks with an occasional cough, always dry: more or less thirst; horns and ears hot. The quick and occasional cough, coupled with great prostration of strength more particularly mark the progress of the disease. The ear applied to the side of the animal readily detects the impediment to a free circulation of air through the lungs from the violent congestion that exists.

MILLERSTOWN, June 14, 1800.

MESSRS. EDITORS: It very frequently happens that I pick up a democratic newspaper and peruse its contents, not that I am an admirer of such "trash," for such it is and nothing short of it, but because it has the effect of exciting my laughables, the exercise of which, in a moderate degree, I believe to be quite as conducive to health, as a morning MILLERSTOWN, June 14, 1860. quite as conducive to health, as a morning walk, or a "sneeze." Whenever a man, (an editor not excepted,) undertakes to sustain a cause, founded on no principle, however much of a rhetorician or logician he may be, he becomes a most ridiculous object, whenever he opens his oral battery to defend it. Like a cannon well supplied with powder, but containing no ball, he may create a dreadful thun-dering, roaring and flashing, but he can produce no effect and hurt nobody, unless he should happen to burst, an accident very unen to burst, an accident very unpended all the property they own and perhaps much more, to keep on "all fours" the party, in which they 'live and move their being." Such is the process and have their being." Such is the precise condition of those, who now advocate the cause of Democracy. Being a broken down unprincipled concern, the Loco-foco Party, with the aid of all the thundering and flashing demagogues, (democratic editors included,) who would make the honest people of the land believe in the Having no principles to advocate. because the Charleston Convention lacked the power or virtue to find any, they must shoot at random and institute mean and worthless young.

The Norristown Register, in a recent issu delivered by them we superinder, that the titled to retain of the Post-office funds ten and of that inflexible, uncompromising democratic one-half cents per year. It is for their interpretation of the publisher, that the for Governor, and Mr. Foster—a contrast in the estimation of its editor, calculated to pre county papers we preserved, since there is no trouble of making collections or keeping accounts thereof, as on papers printed out of the county, the commission on which will not average more than from six to eight cents per date, is at Washington, using his influence to secure the passage of the tariff bill through th United States Senate." "Whilst his compe titor, Col. Curtin, is speaking at Republic

Ratification Meetings" and he says, a little further on, "in behalf of niggerism and niggers." Now, here is something worth looking at. Reader, did you ever enjoy a hearty laugh? If not, reflect upon the contrast and laugh to your heart's content, but, for heaven's ton, trying to pass the tatiff bill through the Senate? Why is it, that Gen. Foster goes to Washington to push the bill through the Senate? Hore are two questions, that should be promptly answered. We shall try to answer them. Col. Curtin finds it unnecessary to go to Washington, on account of the tariff bill, because he knows, that the Republicans are all right on the tariff, and that it is needless to waste breath in urging the measure upon Maise, Strange 3, Paimer and Charles Dunkelberger, a delegation from Camp No. 14, of
Pottsville. This order is spreading over the
Union very fast, and Camps have been established in 17 States, within the last thirteen
years. In December, 1847, Camp, No. 1 was
instituted in the city of Philadelphia, and,
from that time until the present, sixty three
Camps have been expenied in Pennsylvania. plete sacrifice of democratic policy, by the democrats themselves, can effect the object. I would be an amusing sight indeed to see Mr. Curtin, entering the Senate Chamber and talk protection into the minds of democratic Sena-

tors. Wonder, if the editor of the Norristown Register would not like to be a spectator on But why does Gen. Forter go to Washington to press the passage of the tariff bill through the Senate? If the democratic party is so strongly in favor of the system of protection as the democratic editors of Pennsylvania would have us believe, Mr. Foster could not have had any apprehensions with regard to the tariff sary, it is proof positive, that the tariff is pre carious in democratic hands. But is the tar iff really the object of Mr. Foster's going to the Seat of Government? Of course, we are unable to give a positive opinion; perhaps he is in quest of something, that the Covode Investigating Committee should inquire into.

to succeed in nominating candidates for the Presidency and Vice Presidency of the United States. Perhaps he will commit the same sin with which Mr. Curtin is now charged. But Mr. Curtin is charged with speaking in behalf of "niggerism." It is not difficult to understand, what the editor means by the term. It is not difficult to He means opposition to the extension of slavery into the Territories. If this is "niggerism" t is certainly no sin in Curtin to speak in its

behalf. But we find no such definition in our vocabularly. Niggerism is something mean and detestable, and, unless the democrats prove that opposition to the extension of slavery is such, they cannot, with any show of reason, apply the term in the manner they do. If the term is applicable to any principle, relating to the subject of slavery, it surely must be to that, which acknowledges the rightful-ness of slavery per se, and of its extension. We may regard the doctrine of slavery extension, whether in the garb of squatter sovereignty, or Taneyism, as the vilest sort of niggerism because it is in direct antagonism, alike to the established principles of liberty and divine law. If the democrats can find nothing more prejudicial to Mr, Curtin, than contrasts of the sort mentioned by the Norristown editor it would be infinitely better and more honora ble for them, at once, to acknowledge the strength and soundness of our Gubernatorial Candidate and offer no further resistance to

his election.

TERRIBLE RAILROAD ACCIDENT .- As the seven o' clock train from Rahway this morning mig, both of whom added now laurels to their about seven or eight years, were discovered by the engineer walking hand in hand across the track a short distance in advance of the approaching cars. With commendable alacrihe sounded the whistle for breaking up and the utmost efforts were made to stop the train. So suddenly was the speed checked that it seems almost miraculous that some of the passengers were not injured, as they all felt the shock sensibly. The children had just come up an embankment, and attempted to cross the track diagonally just as the loca motive reached them, and notwithstanding th warning given by the engineer, they kept on and were both struck by the cow catcher. One of them was thrown beneath the locome tive and the train passed over her, doing how ever, no apparent injury although when picked up, and when our informant left, she appeared be almost lifeless. The other was throw with great force down the embankment, and was not discovered until some minutes after wards, the passengers supposing that there had been butone victim. This child was struck lung, disorganization of structure being found alone in the lungs and coverings.

Induce of the right temple downwards and was instantly killed. Some of the gentlemen passengers laid the two bodies side by side on the grass. It was an affecting and terrible sight to see the little ones who, but a few moments before, were walking hand in hand in life, now dead and dying upon that sad spot. The parents of the children, attracted by the stopping of the train and the outpouring of the passengers, approached the ground slowly and in entire ignorance of what had happened. When the truth became apparent, it may easily be conceived how terrible were their feelings. The sudden shock of horror was almost too much for their reason, and the wildest excla mations and sobs were uttered by them. The

mother of one of the little ones could hardly be restrained from doing violence to herself. The passengers were unanimous in the opin ion that the engineer could not have prevented the sad catastrophe, as the children appeared upon the track at so short a distance ahead of the train. The brakes were applied at once,

but vainly. A German, said to be a butcher, living in Elizabethtown, made himself quite con-spicous in inciting an ill feeling among some forkmen near the road, by giving an account of the accident wholly at variance with the facts as understood by the passengers. The good sense of the people prevailed however and any unpleasent incident was avoided. The train was detained about twenty minutes. Greater care should be observed by persons liv-ong at East Newark. Many of them allow their children to play or walk in the immediate vicinity of the passenger trains, in almost hourly danger. They are also careless about their cattle, which frequently have to be driv-

COUNTRY POSTMASTERS -should bear comparisons between our nominees and their Address of the People's State Central Committee.

To the People of Pennsylvania: We are about to enter another great national truggle, the issue of which must tell decisively for the weal or woe of our country.

The so- called Democratic party has been in power for nearly eight years, and the fruits of its policy are now felt in a prostrate industry, a paralysed commerce, a bankrupt Treasury, and a large and steadily increasing National

The domestic peace and harmony that witnessed the restoration of the party now in pow-er, have been wantonly exchanged for sectional discord and fraternal strife, and even the sacred landmarks of the constitution have been blotted out, in the systematic effort of the Gov-ernment to spread the blight of Slavery over

Government; and shameless profligacy has given us national bankruptcy at home and national dishonor abroad. The time has come when a thorough reform is unmistakably demanded by the People.
In this great work Pennsylvania must, a ever, be potential. Always loyal in the last degree to the maintenance of the National Union and to the comprises of the Constitution, and faithful to the supremacy of the laws, he people have no warfare to wage upon the rights of sixter States. They will maintain these right invidate with the same fidelity that they de-

Our Free Labor is the basis of all our weal... our presperity, our greatness. It has trusted and appealed in vain to the party in power to protect it. Its confidence has been over betrayed, its interests ever sacrificed. Our untold milions of slumbering wealth and unemployed and unrequited labor are swift witnesses to the suicidal policy that has impoverished

The stulied purpose of the National Administration has been to sectionalize the Government, and give boundless dominion to a system that has distonored and beggared Free Industry whenever its desolating steps have gone.

Against this fatal sectionalism, the friends

of a diversified and prosperous industry have protested without avail. Nothing but a radical change of administration can give reasonable promise of respect for the great industrial in-terests of our State, and redress from the endless train of wils flowing from the faithless ness of the Government.

The Territories of the Great West teem with beauty and richness. There, with free homes, our study sons would rear new ompires to pour firth their boundless wealth and add to the prosperity and true greatness of our boasted Republic. They have escaped the withering bight of servile labor thus far only by defying the whole power of two Democratic Administrations, and leaving a history crimsoned with the blood of our breathren.

Failing to subdue, even by force, the strong arms that are there scattering the rich fruits of peace and enlightened industry, the Constitution itself has been assailed; and its sacred aim perverted, to sectionalise the nation. The startling declaration is now made by the part in power, through is official exponents, tha the Constitution must defeat the wise benefi cent purposes of its authors, and carry service abor under its own broad shield, into every Territory of the Union.

To restore the Government to its origins purity; to redeem it from its fatal hostility to the interests of Free Labor: from the corrup tion, the profligacy, and the sectionalism which have marked the party in power, are the great purposes of the People's organization in Pen sylvania. To this patiotic end, we invoke the aid and cooperation of all who desire to join in a common cause, to inaugurate a liber

al, just and faithful Gojernment.

Our standard-bearergiftly represent the vital issues involved in the stuggle. They command the unbounded confidence of friends, and the respect of foes. Even partizan malice is impo tent to assail them. That Abraham Lincol the nominee for President, is spotless in both public and private life, and that he is "honest Straw, " and capable" is confessed as with one voice by his countrymen. 'His well-earned nationa fame, the olispring of no foluitous circumstan-ces, points to him as the "coming man" who will administer the Government honestly frugally, ane faithfully, and restore the Repub lic to domestic tranquillity, to prosperity, and true honor. True to thest great measures of Reform is Hannibal Hamlin, our candidate for Vice-President, as is shown by his long and consistent public career in the councils of the nation.

nor, has given a life-time of earnest, untiring effort to the interests of Free Labor. He ha advocated in every contest, with all its match-less power, the true principles of government as declared by the Convention that has placed him before the people. Measured by the high-est standard, he is faithful and quantified. He will be in the front of the battle, bearing our standard loft, and defending our cause. We have but to join him in his efforts with a zeal worthy of our principles, and he will lead us

to a decisive victory in October, Whether our opponents will enter the contest united or divided, our duties and dangers will be the same. In any event, the triumpl of the Right will be resisted with the spirit of desperation. Armed with all the power and corrupt appliances of the Government, they will leave no means untried, no effort unemployed, to perpetuate their ascendency. Although rent asunder with intestine feuds, antagonized North and South by irreconcilable differences of principle, and bleeding from wounds inflicted within their own household, yet there is one common bond of union that will rally their discordant forces when all else fails-that is "the cohesive power of public plunder."

Our cause is worthy of an earnest, united effort. Our languishing industry, our home-less laborers, our bankrupt treasury, our national tranquillity and national honor demand it. With early, systematic, and thorough or ganization, by which the truth can be disseminated in every section of the State, we cannot fail to triumph. Let the efforts of our friends be thus directed without delay, and in whatever shape, and under whatever flag, our op ponents may determine to meet us, the voice of the Keystone State will give a decisive tory to our cause, alike in the State and Na-

tional struggles. A. K. McCLURE, Chairman. A. K. McCLURE, Chairman.

What is it? How Cured? Thousands of persons suffer all sorts of annoyance from Catarrh. Most people know what its inconve gionce and results are, yet but few know how it can be cured. It is simply a chronic irritation, and often enlargement of follicles and consequent thickening of the mucous membrane, lining the nasal cavities, frontal sinuses, and sometimes extending into the throat and lungs. From this result tightness and often vertige of the head, obstructed nose, or a profuse flow of mucus, loss of smell, nasal voice, and fton impaired hearing and taste.

The old-school remedies have never been able to do any thing for it. Nasal injections and inhalations are as painful and expensive as they are generally worthlese. Yet Humphroy's Catarrh Specific, a simple Sugar Pill, taken two or three times per day, promptly cures the milder cases; cures at once all olds in the head, and radically cures, by persevering use, the most obstinate cases, as is proved by the experience of hundreds. The OHIO CATAWBA BRANDY not only equals, but even excels the best imported Brandies in purity and flavor. It is in fact the best Brandy known.—

This statement is fully corroborated by the certificate of many of our most distinguished analytical Chemists, some of which accompany this circular.

The want of PURE BRANDY has long been felt in this country and the introduction of an article of such quality as to supercede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded as a great public good. The OATAWBA BRANDY possesses all the good qualities claimed for the best imported Liquor, and is of perfect purity and superior flavor. It is therefore fully entitled to the patronage of the public as the above certificate has shown. We feel confident, that its reception in this State will be as favorable as that which it has met with in the Great West, and that time is not far distant when the superiority of our own Liquors will put an end to their importation from abroad.

For Medical purposes this Brandy has no rival, and has long been needed.
