PROSPECTS OF SUCCESS.

As prospects now are, no man can doubt, for a moment, the election of Lincoln and Hamlin, in November. The distracted and divided condition of the Democracy establishes this beyond a doubt. We believe we could elect Lincoln over a consolidated Democracy, heartily united in support of an unexceptionable candidate, nominated without opposition in the party. We should prefer this plan of defeating the Democracy, and electing Lincoln. The matter, however, is beyond our control, and we must whip the Democracy, as they are. This, we reckon, will be quite an easy task. Some Democratic Editors pretend to think otherwise. Let us look at the field, and examine the reasons for the opinion, we entertain.

The Democracy enter the contest, convinced, that defeat stares them in the face. This is half the battle. The masses will not be so foolish, as to spend their time, their money, and their effort in prosecuting vigorously a campaign, when there are no prospects of success. The Democracy are divided and fighting among themselves. They were never so bitter as Republicans, as they now are at one another. The feud not only divides States, but has reached every county, village, and borough, in the Northern States. A vigorous campaign requires an unwavering, united, and unbroken front, to make it effective.

This division is such, that it will prevent all efforts to form a fusion or common electoral ticket. The friends of Breckenridge oppose fusion, as do those of Douglas. Judge Douglas himself, speaking through his National Executive Committee, opposes all plans of fusion with the "Rebels." As there will be two electoral tickets in the States of New York, New Jersey, Pennsylvania, Ohio, Illinois, Indiana, and Minnesota. We speak, now, only of the Northern States. In what other States, two Democratic electoral tickets will be run, the future must determine. We presume, that, in all the States, there will be two such electoral tickets, where representatives of the two wings can be found. In none of the other Northern States, not mentioned above, excepting California and Oregon, could a united Democracy ever claim the ghost of a chance. In the States, mentioned above, which included what were termed the doubtful States, the divisions of the Democracy render a Democratic victory impossible. It can not be said, by the friends of Douglas, that Breckenridge has no supporters in these States. Among the opponents of Douglas, are included many of the prominent men of the party; Senators Fitch and Bright, of Indiana, Senator Thompson, of New Jersey, Senator Bigler, of Pennsylvania, and others. But what are the prospects in California and Oregon. In Oregon, a Republican Congressman, it would appear, was almost elected at the recent election. Lincoln, it may be put down, can carry the State, in November. In California, we may expect, that the Republicans will triumph, in the quarrels and divisions of the Democracy. The Republican Party, we may conclude, will not carry enough States to elect Lincoln, but will have electoral votes to spare. Let Republicans then hopefully enter the contest. Let not the prospects of success render Republicans indolent in effort. Let the victory be an overwhelming one, such, as will ensure a long continuance of Republican rule, in the councils of the nation.

OPPOSED TO THE FUSION.

In reply to the letter of Mr. Welch, Chairman of the Democratic State Central Committee, Richard Yaux, of Philadelphia, an elector on the ticket framed at the late Reading State Convention, states his determination to disregard the plan of fusion adopted by the Committee and to vote for Douglas and Johnson, as the only Democratic nominees. Mr. Yaux considers that the Executive Committee have nothing to do in the premises and bases his position upon the action of the State Convention, as the only power, that can act in the matter.

MEETING OF THE REPUBLICANS OF THE OLD TENTH LEGION.

A mass meeting of the Republicans of the Old Tenth Legion will be held at Stroudsburg, Monroe county, on the 8th of August, should not the time be changed, owing to conflicting arrangements of the State Central Committee. Col. Curtin will visit this section of the State in the middle of August and possibly the programme may be changed, so as to allow of his presence at the mass meeting at Stroudsburg.

SENATOR BRIGHT FOR BRECKENRIDGE.

Senator Bright, of Indiana, has declared his intention to oppose Douglas, and support Breckenridge, and will start a daily paper, at Indianapolis, the capital of the State, in support of the Seceder's ticket. This will give Indiana to Lincoln and Hamlin.

THE DEMOCRACY OF PENNSYLVANIA, who advocate the election of Stephen A. Douglas for the Presidency, and who at times past have been advocates of the doctrine of protection, should like to address a few friendly questions.

Has Stephen A. Douglas in the course of his political career ever voted with the friends of protection on the tariff question? Has he ever said a word in the halls of Congress in favor of the protective system? Have not his votes uniformly been on the side of those opposed to the protective system? We believe that an answer to these questions must satisfy the voters of Pennsylvania, that he is not the candidate to receive their support. The question of tariff is one of the questions, upon which the coming election should turn, and the voters of Pennsylvania, should see that their own peculiar interests are cared for. If Pennsylvania will not care for herself, no other State, will, except as their own interests are identical with hers. To the supporters of Douglas in vain will Pennsylvania look for assistance in passing a protective tariff. The only party, that can accomplish anything for Pennsylvania is the Republican party.

We copy from the Congressional Globe several extracts, giving some of the votes of Senator Douglas on the tariff question, as it has been presented in times past. From the past we form our conclusions as to the future:

December 11th, 1843.—Mr. Rhet, of South Carolina, moved a suspension of the rules in order to introduce the following resolution: "Resolved, That the Committee of Ways and Means do inquire, as soon as practicable, into the expediency of repealing a bill repealing the tariff act passed the year 1842, and in lieu thereof imposing a tax on duties of July 20 per cent. ad valorem, on imports, discriminating below the maximum in the duties imposed on the principle of producing revenue only." STEPHEN A. DOUGLAS VOTED YE A.

Jan. 3d, 1844.—Mr. Rhet submitted the following resolution, on which he moved the previous question: "Resolved, That the Committee of Ways and Means be instructed to report a bill reducing all the duties on imports over 30 per cent. ad valorem, to that amount, and providing for a final reduction within two years, to 20 per cent. ad valorem, with such discrimination below this maximum as the purposes of revenue shall require." STEPHEN A. DOUGLAS VOTED YE A.

See Cong. Globe, vol. 13, page 44. January 3d, 1844.—Mr. Rhet submitted the following resolution, on which he moved the previous question: "Resolved, That the Committee of Ways and Means be instructed to report a bill reducing all the duties on imports over 30 per cent. ad valorem, to that amount, and providing for a final reduction within two years, to 20 per cent. ad valorem, with such discrimination below this maximum as the purposes of revenue shall require." STEPHEN A. DOUGLAS VOTED YE A.

See Cong. Globe, vol. 13, page 98. The Pennsylvania Elections. From all parts of the State we hear encouraging reports as to the prospects of Curtin's election in October and the success of Lincoln and Hamlin, in the State in November. A meeting of the State Central Committee was held last week at Cresson, which was attended by all the members of the Committee, save three, one of whom was prevented from being present by sickness. Each of the members of the Committee present brought very flattering reports from his section of the State. In the home of Henry D. Foster, Westmoreland county, it is said by the editor of the *Reflector's Journal*, who has been travelling in the western portion of the State, that Curtin will get the full opposition vote. By our exchanges we see, that in the city of Philadelphia, Ward Clubs and associations are organized in every ward in the city. It is said, that the Opposition were never so thoroughly organized and united in the city, as are now the friends of Lincoln, Hamlin and Curtin. The divisions and feuds of the Democracy render a Republican triumph in the two fall elections certain. Still let the victory be a signal one. We wish to see not only a Republican President and Governor elected, but should like to see as many Congressmen as possible of the Opposition, elected from the old Keystone, and in the Philadelphia Press, that all such attempts are disapproved of by Judge Douglas himself. At a meeting of a Douglas club, in Newark, N. J., it was resolved, that a straight Douglas electoral ticket be run in the fall. The Democracy, of New Jersey, will follow the example of their brethren of other States, and divide.

THE UNITED STATES ZOUAVE CADETS.—The United States Zouave Cadets of Chicago, said to be the best drilled military organization of the country, are now on an excursion to the Eastern States. They were received at Union, N. Y., on Wednesday last. They have sent a challenge to all the volunteer organizations of the country to compete with them for the championship in drill in the United States. The challenge has been accepted by several companies. They will meet with splendid receptions at the different large cities of the East.

THE GREAT EASTERN.—The excitement among the people to see the great eastern is constantly on the increase. From five to ten thousand persons visit the ship daily. Admission, 50 cents. The New York papers state, that excursion trains are arriving from all parts, heavily laden with visitors. It is proposed to remove the vessel to Philadelphia for exhibition after she has remained at New York sufficiently long.

PRESIDENT BUCHANAN FOR BRECKENRIDGE.—After a ratification meeting, at Washington on Tuesday evening of last week, President Buchanan was re-elected and in a speech in reply declared his preferences for Breckenridge for the Presidency. The President considered neither nomination regular and that all Democrats were left free to support either Douglas or Breckenridge.

THE SLAVE-TRADE.—It is stated, in the city papers, that a slave arrived in Mobile bay, with 124 slaves on board, and that a steamer immediately took them up the river. We have yet to learn of the arrest or attempt by the Government officials, to arrest the parties, concerned in this violation of the law. The Federal laws brand it, as piracy, and yet the violators of the law escape with impunity.

VISIT OF THE PRINCE OF WALES.—The Prince of Wales has concluded to pay a visit to Canada in the course of which he will pay a flying visit to the principal cities of the United States. New York & Co., going as far west as Cincinnati. During his visit he will exchange his title for that of Lord Renfrew and studiously avoid all public receptions and display on his behalf.

LINCOLN IN DELAWARE.—The Republicans of little Delaware are in high spirits over the prospect of carrying that State for Lincoln and Hamlin. All the opposition papers except the *Wilmington Commonwealth* are vigorously supporting the Republican nominees.

HON. JOHN SHERMAN.—Hon. John Sherman has been unanimously nominated for reelection to Congress by his constituents.

LETTER FROM WASHINGTON. The Department of the Interior has temporarily kept at Key West by the Government, are likely to make the General Government considerably trouble. The authorities at Washington have been discussing the propriety of returning them to Africa. In the meanwhile numbers of the unfortunate negroes have been kidnapped and sold into slavery in the Southern States, doubtless with the connivance of the Federal officers. To account for the loss reports have been circulated of mortality among the negroes. Coffins have been taken to the bench and sunk in the surf, which it is pretended, contained the bodies of Africans, who had died, whilst it is hinted, that they contained no "Dead Negroes" at all.

THE POLITICAL PAPERS OF NEW JERSEY.—The New York Tribune of Monday gives a statement of the politics of the different political newspapers in New Jersey in 1850 and 1860. From this statement it appears that in 1850 fourteen newspapers supported Fremont and Dayton, six Fillmore and Donelson, and fourteen Buchanan and Breckenridge. In 1860 twenty-two have already declared for Lincoln and Hamlin, two for Bell and Everett, ten for Douglas and Johnson, and four for Breckenridge and Lane. Of the six newspapers which supported Fillmore, four have already declared for Lincoln, one is neutral and one supports Bell and Everett. The indications are that Lincoln in the divisions of the Democratic party will carry New Jersey with ease.

POPULATION OF HARRISBURG.—The census of the city of Harrisburg has been completed, and shows the following result: Population of the First, Second and Third Wards, 7,772 Population of the Fourth, Fifth and Sixth Wards, 7,090 Total, 14,862 Population in 1850, 7,996 Increase, 6,866

This shows a gratifying and healthy growth of nearly 100 per cent. A portion of this increase, however, has been gained by the enlargement of the boundaries of the town, when it was incorporated into a city.

LINCOLN AMONG THE GERMANS WEST.—The Germans, in the western States, in 1856, pretty generally supported Fremont. Since then from the same ranks, strong reinforcements have been made to the Republican cause. We judge from the stand, which leading German papers have taken in the present political conflict, in 1856, the Republicans had but one German paper, in Indiana, but now the tables are turned, and the Democrats have but one, while six are doing service for the Republican cause. The Illinois State Journal gives a list of sixty-nine German papers in the country, that have raised the Lincoln and Hamlin flag.

WESTERN PENNSYLVANIA ASTIRING.—A large Republican meeting, was held in Allegheny city, on Friday evening last. The meeting is said to have been one of the largest political gatherings, ever assembled in that section of the Commonwealth. More than 7,000 persons were supposed to be present. The Wide-Awakes turned out in full force. The names of Lincoln and Hamlin were mentioned in unbounded enthusiasm. Addresses were delivered by Representative McKnight and others. We may expect a good account from beyond the Alleghenies for Lincoln, Hamlin and Curtin, in the fall.

THE DEMOCRACY OF NEW JERSEY.—The plan of fusion of the friends of Breckenridge and Douglas, upon a single electoral ticket, in the Northern States, proposed by some of the politicians of the Party, is destined to prove a grand failure. Col. Forney openly states, in the Philadelphia Press, that all such attempts are disapproved of by Judge Douglas himself. At a meeting of a Douglas club, in Newark, N. J., it was resolved, that a straight Douglas electoral ticket be run in the fall. The Democracy, of New Jersey, will follow the example of their brethren of other States, and divide.

U. S. PATENT OFFICE.—Among the patents issued to Pennsylvanians, for the week, ending July 3d, 1860, we notice the following: Charles S. Allen, of Allentown, Pa., for improved device for straining scroll saws.

SCHWEITZER CHEESE.—Mr. Nathan German of No. 41 West Hamilton Street, sent to our office on Monday last, the best piece of Schweitzer cheese, we have ever tasted. The cake from which it was cut weighed over one hundred pounds. All lovers of Schweitzer will do well to give him a call.

THE COMET.—The new Comet begins to present quite a luminous train, and is now clearly visible by the naked eye a few degrees above the Northwestern horizon. About 9 o'clock P. SAD ACCIDENT.—On Saturday last, a young daughter of Mr. Josiah Guth, of Gateshead, two years of age, with a sad accident, which is likely to result in the loss of one of her eyes. In the course of play the child of a neighbor threw lime into the eyes of the little sufferer. The lime is likely to prove fatal to the eye.

The tickets will be issued at two-thirds the usual rate, and will be good for return the same day or the following Thursday.

MR. H. M. LEH, with Leisenring, Blumer & Co., one day last week, presented us with a photographic likeness of Hon. Abraham Lincoln. They have them for sale at their book store, No. 19 East Hamilton street. We would advise all our friends who have not yet purchased their copies, to do so for the small sum of twenty-five cents.

HOW TO GET RID OF MOSQUITOES IN THE NIGHT.—Mosquitoes, says somebody, will bite you in the night, and you will find them in the veins of human kind. Just put a couple of generous pieces on plates near your bed at night, and you will sleep undisturbed by their pest. In the morning you will find them full and stupid with beef blood, and the meat soaked dry.

AN UNGRATEFUL MOTHER.—A young girl employed in the family of Mr. Isaac Hiller near Weaversville, gave birth to an illegitimate child on the first inst., and carried it out to Fatzinger's woods, where it remained exposed for a week before discovered by its neighbors. The unnatural mother and her child were subsequently conveyed to the Lehigh County Almshouse.

COAL AND IRON.—The Lehigh Valley Railroad Company sent down, for the week ending Saturday, the 7th inst., 8547 tons of coal against 5307 tons for the corresponding week last year, making for the season 430,573 tons, against 341,018 tons to corresponding time last year, being an increase of 119,225 tons of coal to date. 1030 tons of pig iron were also transported over the road during the week ending on the 7th inst.

CHILD LOST.—A young girl, a child of Mr. Leopold Kern, of our Borough, aged about ten years, strayed from home on Sunday last. It was supposed that the child had gone to Sabbath School. The child was first missed in the afternoon and the whereabouts were not ascertained until on Monday morning. Mr. Kern learned by telegraph, that the child was in Easton. The child took passage in a train of cars, that passed down the Lehigh Valley road on Sunday.

THE BIG ROCK.—The annual visit to the "Big Rock" took place on Sabbath last. In times gone by Clergymen preached harvest sermons to those, gathered at their Rock, on the Sabbath following harvest. This custom has passed away. The custom is possibly more honored in the breach, than observance; not that the preaching was wrong, but that the place and circumstances were not such, as were calculated to render the sermons of a devotional of God. The annual gatherings of the clergy years have degenerated into scenes of revelry and riot. On Sunday last, we understand, that there were several exhibitions on the grounds; one of rope-walking, and another an exhibition of a three-legged horse, by some ingenious Yankee, who found out that the gathering would be likely to bring large profits to his pockets. The exhibition was attended with a miscellaneous fight, between certain of the town folks, on the one hand, and certain of the country folks, on the other, from Salisbury and Sacon townships. Quite a number of persons were bruised, but none seriously hurt. A difficulty of a similar character occurred three years ago. We hope, that for the credit of the county, the annual visit to the Rock will be abandoned, unless similar scenes can be avoided in the future.

BEWARE OF UNRIPE FRUIT.—The warm weather may now be said to have fairly set in and with the summery days comes the usual supply of unripe fruit, and another source of sickness generally prevails about this time, we have a few words of caution and advice to offer our readers. Just now our town is full of unripe fruit, such as peaches, plums and vegetables, some ripe and quite fit for use, but a large quantity, it must be added, quite unripe to the digestive powers of animals usually supplied with Christian stomachs. Unripe fruit is not only unwholesome, but it has a tendency to produce even cholera, one of the most malignant and summary epidemics known to the disciples of Esculapius. It would be well, therefore, for people to examine carefully their fruit before eating it, and for parents especially should keep a close watch over their children. The destructive effects of unripe fruit among young folks is immense, as shown by the mortality list of this and other cities.

ENCOURAGE OUR OWN STORES AND MECHANICS.—An exchange says that it is a very good mistake for a citizen desiring to be in a place, to suppose that doing his own business will save a dollar in purchasing, a given article in Philadelphia or New York, that he is a beginner of that dollar. When right is just what he needs, he is a loser, for his money, which should have been kept in circulation here, is now gone from us, the community impoverished to just the amount he has unnecessarily sent abroad, the ability of his customer to pay him that much less, and his prospect of business also to that extent curtailed. It is undoubtedly a suicidal course to pursue, and the man of liberal and enlarged views will be careful to spend a dollar here, when he can get it here, and to pay for a trifling more for any given article here is better for all concerned than to send away the money out of circulation. If all our people took this thing in the proper manner, we would never experience hard times.

ALMOST AN ACCIDENT.—As the 3.20 P. M. Express train, on the Lehigh Valley Railroad, was going down on Saturday week it came very near running over a woman. The train was approaching Lehigh, and was going at full speed, when the Engineer, Mr. Simon Smith, discovered the woman on the track. He immediately sounded the alarm, reversed the steam, and succeeded in stopping the train in an incredible short distance. The Engineer was very much annoyed by the prompt and effective action of the Engineer, the poor creature would certainly have been crushed beneath the ponderous engine. She was partially intoxicated and had fallen asleep upon the track.

CENSUS OF LEHIGH COUNTY.—Census of 1850.—Male inhabitants, 1077; Females, 893; Whole population 1970. Deaths during the year, 35. Births, 57. Houses, 340. Farms, 365.

The night of the same day a complimentary ball was given by the citizens of Bethlehem to the Black Hussars, which was attended by quite a number of ladies.

On Friday night there was a grand display of fireworks in the encampment. At about 11 o'clock on Saturday morning the company struck tents, and came into Bethlehem, where the officers were invited to a reception at the residence of Dr. Wilson.

The company was then escorted to the cars by the Washington Greys and Bethlehem Artillery, and started for the city at one o'clock. During their stay, the health of the officers and men has much improved, and they speak of it as the highest terms of the kind that they received at the hands of the people of Bethlehem.—*Philadelphia Press*.
