AN ITEM FOR HOUSEKEEPERS.-The liquid glue made as a speciality, and extensive his wish whereupon he made another will, ly advertised as a secret preparation, is very leaving his negroes free, and leaving most of ly advertised as a secret preparation, is very simply made, and costs very little. Eight ounces of glue, dissolved in half a pint of water, in a wide-mouthed bottle, costs but a few cents. Having dissolved it by immersing the bottle in a vessel of water until the desired result takes place, pour into the mixture two-and-a-half ounces of nitric acid, soiring until all is incorporated. Glue should be used that costs forty cents a pound. The cost of the acid is merely nominal. For a few cents, therefore, any housekeeper may prepare as much of the article as would cost a dollar and a half or two dollars when purchased in little bottles. 'The Celebrated Prepared Glue,' advertised in the papers, is nothing more than this. It is, however, a valuable composition, as it never fer-ments, and will even mend porcelain permanently, provided it does not come in contact

some of your readers might fall into the grievous error that we have "pleasant rides" in our row boats "around the island," I will mention that such is not the case. Some philanthropic gentleman, imbued both with a taste for fish"—and thinking, probably, that we only needed a second "Niegara" to make the island and surroundings a perfect Eden—the island and surroundi for fish"—and thinking, probably, that we only needed a second "Niagara" to make the island and surroundings a perfect Eden—have kindly heaped up a pile of big stones in the stream on both sides of the island, stretching from shore to shore; thus supplying by art what nature omitted in creating this lovely spot. And would you believe it, as the water sy god, however, is no respecter of persons, and she rushed into the burning cabin, the flames rushes across these falls, the roar of the element is heard in the distance, and the spray sconced on a chair on the guard. At Oap-authing around and making her way to the Capment is heard in the distance, and the spray as it rises from the foaming waters and reaching almost to the clouds, reminds one of Niagara and St. Anthony. But if these gentlemen are naturalists they are at the same time epicures, for in the center of these "falls" they sconced on a chair on the guard. At Oap-au-thing around and making her way to the Cap Gris, when the Di Verton was met, the money tain's room, burst in the door, gathered up sev of "a thing" they call a "basket", formed him that the sack containing the \$15,liberately picked up an axe, that had been put liberately picked up an axe, that had ventures into said basket, he is fairly, or rather unfairly, "caught." A FEW TRUTHS FOR SICK PROPER.-It is a facself-evident, whereever tried, that Dr. O. PHELPS Brown's Acadian Balsan possesses more merit than any remedy heretfore known, in curing al cases of Consumption, Bronchitis, Asthma, Coughs, Colds, and General Debility. It is deservedly popular and people put faith in it, as indeed they should, when the opportunity is afforded all to make trial of its virtues. The peculiar properties of the ACACIAN BALBAN, are varied and astonishing. It has a par ticular action of its own. It does not purge and weaken; it does not sicken and disgust; it does not operate as a violent emetic; nor yet enfeeble the patient with profuse perspiration. Quite the contrary! It is pleasant and palatable. It soothes and gently stimulates. It gives vigor and strength to every weakened part. It imparts, to be brief, an electric influence to the system, already assimilated to its nature, and by this means vivifies, not only the lungs, apparently full of vigor having started on its mission of death without any visible impelling the liver. It supplies them directly with that vital force, which is necessary to throw off diseases, and the patient, with delight, soon finds himself growing strong, hearty, ruddy and thoroughly well. The ACACIAN BALSAM is sold at \$2 per large bottle. It may be obtained of Lowis Schmidt & Co., Sole Agents, who have also a small number of specimer bottles, price 25 cents, that all may have the opportunity of trial.
