VITRIFIED CHIMNEY TOPS.

THIS is an article to which every Builder's attention should be particularly directed. At this moment, from any roof in our large cities you can sount thousands of brick chimneys so completely BATEN BY THE COAL GAS AND WEATHER AS to demand immediate removal—to do which seldom costs less than \$5, at once showing the necessity of some arti-cle that will not decay or be eaten by gas, &c This we now offer in our Ornamental and Plain Chimney Tops. They are burnt harder than stone; in fact, perfectly vitrified, are impervious to the strong noid emitted by coal, (which ents up brick and mortar in less than three or four years.) We are now making, and have on hand, large quantities of several different styles, and from 2 feet to 8 ft. 9 in. high, and from \$1.75 to \$20 each, (LESS IN THE FIRST PLACE THAN A BRICK CHIMNEY.)
