collection.
CHARLES ECKERT, Administrator. Allentown, August 8th, 1860.

Will Electricity CURE DISEASE?

WILL it cure after all other known medicines where proved unavailing? Facts are stubborn things, rad as evidence is required for the establishment of all facts admitting of doubt it may seem necessary in the present cases to adduce some proof in awaser to the double interrogatory. Such is the incredulity of man, and so prone is he to reject every new light and truth without investigation, with evidence piled on evidence mountain high, and cling to old exploded theories having nothing for their support but venerated precedence, that the evidence adduced shall be of the most indubitable character, not brought from afar off but of home origin and directly to that point.

directly to that point.

The following remarkable cures have all been porformed by Professor Bonder, in the Borough of Allentown, Pa., within the last week without any internal indication of vegetable or mineral, simples or compunds but upon strictly electrical principles in harmony with the electrical polarities of the brain and nervous system. The object of bringing such an array of facts before the public is not only to show that Professor Bender has learned an inportant discovery in the application of electricity as a theralirectly to that point. discovery in the application of electricity as a thera-poutic agent, but that diseases which have been con-sidered incurable in all ages of the world and are so considered at the present time by the most scientific considered at the present time by the most scientific medical men can be speedily and permanently cared by the subtle agent electricity then applied in harmony with the polarities of the brain and nervous system. The following is fron a well known citizen of Allentown who siter suffering for years with a complication of maladies, and failing to got relief from medical art was relieved by a few applications of electricity.

For the benefit of humanity I state that from several attacks of paraliysis I found myself in a very weak state; my left side almost totally uscless, and wonk state; my left side almost totally uscless, and my general health very bad; my uttorance poor and my lead much out of order; indeed I had despared of ever being restored to anything like good health I tried various remedies without relief. While in this situation I happily met Prof. Bender, now located at the Allen II use, in this town, who having perceived my disease recommended his system, the Eelectro Mugnetic, which I adopted, and after three applications I find myself very considerably improved, and free from the greater portion of my atlinents, and have no doubt a few more applications will entirely restore me to my usual health. I take pleasure in adding this humble testimonial to the many already in the possession of Prof. Bender. L. F. FRANK.

Allentown, August 27, 1890.

For the benefit of the diseased, I am led to make for the following statement. I have been a great suf-forer for the last three months from a violent attack of Rheumatism in the back, and could find no relief of Recumatism in the ones, and could not be only duy or night; with great difficulty I called at Dr. Bender's office, (unable to stand erect,) and a few touches of electricity, removed all my pains and brought me all straight so I was able to attend to business as usual.

LEVI KUHNS. Allentown, August 23, 1860.

This is to certify that I have been afflicted with Paraplegia for 4 years, (last winter was the worst.) after having tried many physicians, but to no avail, was recommended to try Electricity, from which I derived much benefit. I would therefore recommend all afflicted persons to give Dr. Bender a trial, at present he will be found at the Allon House.

J. H. SYKES, Teacher.

Allentown, August 18, 1860.

To those afflicied with Doup psia.—I have for the nat year sought for rollef, but sought in vain, till I called on Prof. Bonder and at once found ref ef. For called on Prof. Bonder and at once found ref of. For one year I have suffered severely from Paralysis of the bowels, during which time I have not had a natural ovacuation, and have gone as long as seven days without a passage. I have also suffered much from a deranged circulation, and also with other difficulties. For these diseases the best medical skill and remedial agencies have been employed, but all to no purpose, but rather made me worse, while a few passes of electricity administered by Prof. Beoder restored me to perfect health—a blessing which I have not enjoyed for one year. I would say to the diseased throw by your drugs and experiments, und go direct to Dr. Bender at the Allon House.

MARY MINICH,
Allen House, Allentown Penn.

diseased throw by your drugs and experiments, and go direct to Dr. Bender at the Allen House.

MARY MINICH,
Allen House, Allentown Penn.

For ten months I was severely troubled with Diabetis, and could find no relief until I applied to Prof. Bender and with great pleasure to me I was informed that he could care me. The application of electricity applied by him produced a perfect care. The important discovery learned by Prof. Bender is destined to work a complete reform in the medical radiction of our country, and I confinently recombined to the corner of Sixth street and a public alley, containing about 65 feet front on 6th street by about 90 the following articles:

Red and Oak: Sole Beathery Harness, Upper and Collen Leather Kiene, Calf Skine, Mo. readice of our country, and I confinently recom-tiond all medical men, and the diseased especially to become familiar with his mode of practico. JOHN H. NOLF.

Residence Allen House, Allentown Penn. After carefully examining the foregoing evidence and remarks, should any one-doubt the unparalleled power of Electricity as applied by Prof. Bender, in controling the most obstinate and alarming diseases; he is permitted to refer to other responsible persons in Allentown, who have been relieved of diseases of the brain, throat, luugs, liver, stomach, kidneys and other diseases to numerous to mention. Those After carefully examining the foregoing evidence other diseases to numerous to mention. These wishing to be relieved from their maladies should make immediate application as Prof. Bender, stay is limited in Allentown. Office at Allen House,

Allentown, August 29th, 1860.
