CAMP MEETING .- This being the sensor of holding camp meetings, it may not be un-interesting to know of the manner in which they originated in this country. The first one held in America was in Kentucky less than a an and the other a Methodist, met in a village on the Sabbath, where there was but one church The Presbyterian officiated in the forencon The Preebyterian on once and the subject was so great The interest upon the subject was so great that they continued the moetings for a day or two longer at the house. The attendance soon became so large that they adjourned to the woods, and continued the meeting a week: and this is the origin of the modern camp meeting. The Methodists have continued year-ly meetings of this kind ever since, and have Potatoes. adopted it as one of the peculiar methods of propagating their faith. Wheat Flour, per bbl. tivity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and ob-structs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, pro-ducing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayser's Fills, and see how directly they restore the natural section of the system, and with it the buoyant feeling of health again. What is true and see apparent in this trivial and common complaint, is also true in many of the despessated and dangerous distempers. The same purgative effect expels them. Caused by similar obstruc-tions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the vitues of these Fills, will neglect to employ them when suffering from the disories they cure. THE "NATIONAL."-A few weeks ago, whilst on a visit to the " city of Brotherly love," we had the pleasure of stopping at the Nation-al, Race street, above Third; and we must some fess, that the proprietor, besides being a "pood fellow," knows "how to keep a hotel." Much credit is also due to his gentlemanly clerk, Mr. T. Rhoads, for the splendid manner, in which sojourners are entertained at the Na-tional. Mr. R. seems to know the wants and inclinations of his patrons, without asking any questions; and his genial features and pol and affable deportment makes one feel quite at home at the National. May he live a thousand years, and "his shadow never grow less."

sor" The Life of the Flesh is in the Blood," was said by inspiration long before Harrey's discovery of its circulation had brought to light its purposes and uses. Now we know not only that "life is in the blood," but that disease inhabits it also. Many of the disor-ders that prevade the human frame, have their home in it, thrive and grow in it. The cele-brated De I.O. Aver of Lowall bes had rebrated Dr. J. C. Ayer, of Lowell, has had re-gard to this important fact in making a Reme-dy to cure these disorders. His Extract of Sereenerille

Sarsaparilla purges out the impurities of the blood and induces a healthy action in it that expels disease. This looks reasonable, and it before disease. Anis looks reasonable, and it is true, for we know by our own experience. Seldom as we take any medicine, we have hevertholess several times been under obliga-tions to the skill of Dr. Ayer for the relief which his remedies never fail to afford us when we are obliged to have recourse to them. -Catholic, Halifax, N. S.
