STURACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore anknown. A few facts upon this point will speak more poworfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is ovident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the litters, but a solid estimation of an invaluable medicine.

ation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints he counted their victims by hundreds. To able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like

diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, inwigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the eyidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are cortain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as

well as certain to give a permanent increase of bodily strength. All these persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

label.

Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1850.

J. C. Ayen & Co. Gents: 1: feel it my duty to acknowledge what your Sarsaparilla has done for melaving inherited a Scrodious infection, I have suffered from it fin various ways for years. Sometimes it burst out in Ulcers on any hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loatisouse beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew werge. At length I was rejoiced to read in the Gospel Mescanger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cinchnari and got if, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful overa month, and used almost three bottles. New and healthy skin soon began to form under the cash, which after a while foll off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apsettes of the age, and remain ever gratefully.

New Orleans, 28th August, 1859.

Dr. J. C. Ayen: Sir, I cheerfully comply with the request of your agent, and report to you seeme of the central I have realized with your Sarsaparilla.

I have realized with your Sarsaparilla, and have found its effects truly wonderful. In the cure of Vineral and Mercurial Disease. One of my patients had Syphillite ulcers in his throat, which were consuming, his palate and the top of his month. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had agender would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers lealed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, tee, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great ramedy; consequently, these truly remarkable results with it have not surprised me.

CEYERY PERSON can name one or more of his acquaintances who is subject to some form of lung or throat complaint, which, if not attended to in scasou, inevitably consigns the sufferer to a premature grave. To such, help is at hand if they will but avail themselves of it, and hope,—the har binger of brighter days,—may be awakened without fear of chilling disappointment. Br. O. Pinzes Brown's Acadam Baisan does just what is claimed for it, and may be relied upon by the sick as being the most successful in curing lung and throat disorders, of my remedy known at the present day. The many phases assumed by Consumption justifies the apprehension of those who have reason to fear its appreach, either from constitutional or hereditary tendency.

While the discoverer of this tenedy does not believe that people should be constantly dosing themselves with medicines.

TO PREVENT SICKNESS, there are many cases where disease is too long allowed to remain unchecked in the system; and a slight cough, to remain unchecked in the system; and a slight cough, regarded at first sa-simply an annoyance, ceases only with the life of the patient. An impure state of the blood, through debilitation of the lungs, fills the system with morbid humors, and pulsation becomes feeble or accelerated to a fever(s) intensity—the heart, liver, and kidneys, separately performing functions of vital necessity to our well being, are impeted in their regular action—the digestive organs failter in their rask, and refuse to perform the process of separating the matritions elements from food, and the whole mental being is well-nigh ready to wink under the burden of life. The patient so afflicted, accounts his case a complication of disorders, and often refuses to resort to medication, from his thorough disbeller in any prospect of cure. To such

Night-Sweats, Loss of Flesh, and Wasting away of the Muscles, Loss of Appetite, Soreness of the Throat, Chest, and Lungs, Liver Complaint, Palpitation of the Heart, Diffi-culty of Breatting—all these affections disappear in an incredibly short time after using Dr. O. It nourishes and strengthens the patient who is too much reduced to partake of ordinary food. It heals all internal sores, tubercles, and inflammation. It strengthens, braces, and revitalizes the brain, and is without rival as a tonic, supplying electricity or magnetic force to overy part of the enfeebled and prostrate body. We call the attention of the reader to the following letter from President Smith, of Wesleyan University: MIDDLETOWN, Conn., Feb. 28, 1859. SETH W. FOWLE & Co. - Gentlemen : - I first made use of the Oxygenated Bitters some seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a pervous headache, on an average of not less than one ommondation of Dr. Green, "to try one bottle, and if no benefit was received to disconti almost entire relief from the usual dyspeptic symptoms

The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspepsia as most persons. These Bitters have also been of service to other members of my family. Very respectfully yours, AUGUSTUS W. SMITH.

STODDARD, N. H., Sept. 30, 1859. Messis. Seth W. Fowle & Co., Gents : - I was, for many years, a great sufferer from Dyspepsia or Waterbrash, and tried almost everything within my reach, but to no benefit, until I was induced by the recommendation of my physician, Dr. Hazelton, to make use of the Oxygenated Bitters. The first bottle produced but a slight alteration in the disease, and had it not been for the urgent request of my physician, I should then have discontinued their use, thinking them to be of no avail ; but his confidence inspired me to persevere, and after using to the extent of half a dozen bot tles, I had entirely regained my health. I hope all Dyspeptic persons will be induced to give them a fair trial, being confident that the remedy is the most potent, for the various forms of Dyspepsia, that has been pro duced. Yours,

STEARNS FOSTER. OXYGENATED BITTERS. -- To such of our readers as are troubled with the debility incident to the approach of warm weather, we cordially recommend the use of the Oxygenated Bitters as an invigorating tonic, - containing no alcohol in its composition, and possessing more real merit than any preparation of the kind we have ever known. - Ogdensburg Republican.
