A Now Firm & New Goods!

A Now Firm & New Goods! in the small of my back, and at times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do nothing for me, and at that time I was nothing but skin and bones. It then was in the western part of Missouri. In June last we left there for the East, and in August last we came to Now York, and I was so reduced that I could only walk a little with my bushend's help. After y walk a little with my husband's help. After I ad been here a short time the salt water brosse usdo me feel much better for a time, and then I made me feel much better for a time, and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the langs, the doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In November last I grew worse, and the consumption diarrhea set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for

hing that I could grasp at like a dying person for discusses—consumption and liver complaint—out of no avail. but of no avail.

In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to dio. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Measure. last of the week, and brought the Sunday Mercury.
In it was an account of a great cure performed by
Dr. Schenck. She read it to me, and it was so much
like my disease that I asked my husband to go and
see him for me. At this time I had given up all
hoose of ever estime well again and made my neceshopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1863, my husband called on Dr. Schenck, 32 Bond street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the respiranceter. When he was about to go I asked him if he could cure me? I list reply was: "I consider the could cure me? I list reply was: "I consider the could cure me?" him if he could cure me? His reply was: "I can-not tell, both lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seem-ed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said i order to do this, he would have to give me Mandrak Pills in small doses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it which he did, but the constant coughing, night sweats, and diarrhea had prostrated me se that he was afraid my vital powers were too mucl that he was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration; there were lungs enough left to recover. He wished me to try the Pulmonic Syrup and Feaweed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me etrength, so that on Sunday after I sat up in hed and ate hearty for a sick woman; but the next week I lest all hopes and wished my husband not to give me any more medicine. But the doctor had, warned him of this, and when the medicine was clearing out the system it made them feel somewhat Our stock is much heavier and better assorted than earing out the system it made them feel somewhat
