Allentown, July 18, 1805-1y] Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu tions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which; although not scrofulous in their nature, are still rendered fatal by this taint in the are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

one quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must removate the black have all traiting and in vigorate it by healthy food and exercise. Such a medicine we supply in AYER'S

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this everyskill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have
been discovered for the expurgation of this foul
disorder from the blood, and the rescue of the
system from its destructive consequences.
Hence it should be employed for the cure of
not only Scrofula, but also those other affections which arise from it, such as Enurrive
and Swin Diseases St. Anthony's Furn and Skin Disbases, St. Anthony's Fire, Rose, or Enystremas, Pintles, Postules, Blotches, Blains and Boils, Tumons, Tetter and Salt Rheum, Scald Head, Ringworn, Rheumatism, Syphilitic and Mercurial Dis-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The

particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S Ague Cure,

YOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in billary derangement, caused by the Malaria of Miasmatic Countries. We are enabled here to offer the community

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is, still perfectly harmless in any quantity. Such a remedy is invaluable in Artists where these afflicting, disorders provail. This where these afflicting, disorders provail. This AND AGUE from the stiem, and prevents the development of the disease, if taken but the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Ever and Ague is not shone the consequence of the miasmaliq poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Paniful Affection of the Spienn, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occathem all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and ten will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

MANUFACTURED AT THE Allentown Bone Mill. ALLENTOWN, PA.

IN consequence of the increased demand for this the most valuable of all manures or fertilisers, we advise farmers to secure a supply before spring. We prepare Ground Bone or Bone Dust strictly pure, and will guarantee that not a particle of adultoration enters into its composition. As this can not be said of most of the propared fertilizers, we caution farmers to use an article prepared "at home and known to be pure. We have examined "Phos-phates," and can readily pronounce them largely adulterated, with Jorsey Marl, Coal Ashes, Plaster, Lime Stone, or same other substances, which have no fortilizing properties, or much less than pur bone.

For the information of those not acquainted with

the properties of Bone Dust, we append the follow-

Effects of Bone Dust. A Westbury, Vt., subscriber of the New England Farmer thus writes about the effect of bone dust:-I see a great deal in your paper about the use of pendent farmer, and planted about three-fourths of pendent farmer, and planted about three-lourins of an acre of corn on a pine plain. That farmer had been for many years gathering all the old bones he could find. That spring he carried thom to a planter mill and got them ground. He gave me a peck of the flour, which I put on one-half of my pices, of corn. It had a wonderful effect. The stalks grew a foot teller than on the other half, and were dark-received, and the cars were from two to four inhor colored, and the ears were from two to four inch such that the passers by often called upon me to know what made the difference, I could only tell them that dry bones did it.

The farmer experimented with it by putting bor

on two rows, plaster of Paris on the adjoining two house ashes on the next two, then two with nothir butthe menure, which was applied alike to the who dold. Thus contrasted the effect was wonderful leid. Thus contrasted the gifect was wonderful I am not able to give the exact, diddrenos in the yield in com when harvested, as it has been so long ago that I have forgotten; but I do remember very plainly how the corn looked when growing; and that there was every great difference in the appearance of the rows experimented with. If you think this somewhat vegue recollection will be of any benefit to the public, you may sublish it. o the public, you may publish it. Our Ground Sone is prepared expressly fine,

use in spring for top dressing on corn and pasturage, and for potatoes, oats, &c. As our supply is limited, secure your stock at Allentown Bone Mill.
