blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. A Westbury, Vt., subscriber of the New England Farmer thus writes about the effect of bone dust :--

Farmer thus writes about the effect of bone dust :-I see a great deal in your paper shout the use of bone dust or flour. I have thought a good many times I would give you a little of my experience in that matter. In 1844[I lived in a house of an inde-pendent farmer, and planted about three fourths of an are of corn on a pine plain. That farmer had been for many years gathering all the old bones he could find. That spring he carried them to a plas-ter milt and got them ground. He gave me a peak of the flour, which I put on one half of my piece of eorn. It had a wonderfut effect. The stalks grew a foot tall or than on the other half, and were dark-er colore', and the ears were from two to four inch-es longer. The difference though, the season was such that the passars by ofton cilled uppun me to Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly demised, and has become or any thing else.

sarsaparina which hood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

the bottle. PREPARED BY DR. J. C. AYER & CO.
