Cure of Dyspepsia,

J. LIETTE, C. E., Oct., 12, 1864.

DR. John Radway & Co., Montreal, C. E.—For four years I have suffered with Dyspepsia, Loss of Appetite, Sinking Pains at the Pit of the Stomach, Nervoueness, Bad Dreams, and very little Sleep; my appetite entirely gone and my stomach so work as to be unable to digest the most s mple food. During this time I lost forty-five pounds of flesh (or ing this time I lost forty-five pounds of flesh (or weight as you may on'l it.) I was induced to take your Regulating Pills as prescribed in your Almanae. I used only one box, and before I completed the box my appetite was restored to me, my stomach perfectly healthy, my dyspepsia, bad dreams, and other disagreeable symptoms cured and was restored to my original weight; so that one box of your Pills cured me of a disease that for four years had made me miserable, and gave me forty five pounds additional weight. I have taken many kinds of pills, but I believe Dr. Radway's Pills the best in use. JNO. DESCHAYS, Ville Joliette, C. E.

READ WHAT DR. SCHENCK IS DOING. DR. J. H. SCHENCK. Continued DEAR SIE :- I feel it a duty I owe to you, and to Dr. Schenck, I will now make my statement to
you as follows:—About eighteen mon he squilded with a strategy and the street with the street to the street with attacked with a severe cough, and it cettled on my lungs; I could not retain anything I are, and zuitered with evening fevers and might sweats. I yes very much reduced. The whice of my eyes were Vory yellow; likewise my skin; my spietite all gohe, and unable to digest what Luid cat; bowles swellen, irregular, and coative. I was very low spirited, and had such violent spells of coughing spirited, and had such violent spells of coughing when I laid down at hight and when I areas in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie on my left side. I enned testibe my wretched suffering as I would wish to do.

Every organ in my body was diseased or derapged;

Every organ in my body was diseased or deranged, Such was my situation at this time, and I was confined to my bed from the last of February, 1862, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood, and it, was generally accompanied by nanesa and a furred and thick coated tongule. At the time of coughing was generally accompanied by nauses and a furred and thick coated tonguis. At the time of coulding so badly I would have sharp, shooting pains in my left side and heart, night sweets, and soreness all through my whole cheet; had much inward lever, pain in my back and under my shoulder blades and in the small of my back, and at times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do nothing for me, and at that time I was nothing but skin and bones. I then was in the western part of Missori. In June last we left there for the East, and in August last we came to New York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time the salt water breeze made me feel much better for a time, and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, the doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In November last I grow worse, and the consumption diarrhea set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for my diseases—consumption and liver complaint—but of no avail. diseases -- consumption and liver complaint-

but of no avail.

In January, 1863. I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was at the tast with sparse and was decanged most of the tacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Mercury. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well sgain, and made my peace with God, to be rendy whenever he called for me. On the 27th of January, 1863, my husband called on Dr. Schenck, 32 Bond street, New York, and stat. ad to him my case, with a request for him to call and see me, which he did, and examined me with the respirometer. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, both lungs are diseased, and the broughing tabes are affected on both sides." And yet he seemed to think there w ro lungs enough left to effect a cure if the diarrhea could be stopped. He raid in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid matter, and then, with selvingents, he hoped to dheck it which he did, but the constant coughing, night sweats, and diarrhea had prostrated me so that he was afraid my vital powers were too much prestrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expecteration, there were lungs enough left to recover. He wished me to try the Pulmonic Syrup and Seaweed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me etrength, so that on Sunday sher I sat up in hed and ate hearty for a sick woman; but the next week I lost all hopes and wished my husband not to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the system it made them foolsomewhat that he was afraid my vital powers were too muq

varies in the system it made them feel somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the benefit of it. For aftaking it; and now I jeel the benefit of it. For alter eight days I began to gain my strength, and,
with the exception of a cold that took me back some,
I have been gaining strength of body, my cough is
going away, and all my pains are gone; no soreness of the body, my bowels are regular, and my
treath is sweet, and I thank G d that I am now going about, and sew and read as well as over I could.
I have taken sixteen bottles of the medicine, cichof coch. I now have a good specific and rest well I have been gaining strength of body, my cough is going away, and all my pains are gone; no soreness of the body, my bowels are regular, and my treath is sweet, and I thank G d that I am now going about, and sew and read as well as over I could. I have taken sixteen bottles of the medicine, cish of each. I now have a good appetite and rest well at night; my cough does not trouble me in getting up or lying down. I would now say to the silicted with consumption or liver complaint, that Dr. Echneck is no humber. You can, sely on what he says. Delay dot; it is dangerous to trifl with these diseases. This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timeblood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanso out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the sursparation which note the market, that the surspansion is self is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a renedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible eving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on
