READ WHAT DR. SCHENCK IS DOING. DR. J. H. SCHENCK. DEAR SIR: - I feel it a duty I owe to you, and to DEAR SIR: —I feel it a duty I owe to you, and to all who are suffering under the diseases known as Consumption and Liver Complaint; to let them know what great benefits I have rectived from your Pulmonic Syrup and Seaweed Tonic in so short a time. By the blessing of tiod it has cured me thus far. Dr. Schenck, I will now make my statement to you as follows:—About eighteen men he ago I was attacked with a severe cough, and it settled on my lungs; I could not retain anything I ate, and suffered with evening favors and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my apportic all very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; bowels swollen, irregular and costive. I was very low spirited, and had such violent spells of coughing when I laid down at night and when I area. In the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie on my left side. I cannot describe no wretched antifering as I would wish to do.

tirely unable to lie on my loft side. I cannot describe my wretched suff-ring as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was contined to my bed from the last of February, 1-62, to June. 1862, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood, and it was gone, rally accompanied by man as and 6 furred. was gon raily accompanied by nau ea and a furred and thick conted tougue. At the time of coughing so badly I would have sharp, shooting pains in my so badly I will have snarp, shooting pains it my left side and heart, night sweats, and soreness all through my whole chest; had much inward lever, pain in my back and under my shoulder blades and nighte small of my back, and at times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do nothing for me, at d at that time I was nothing but skip and bones. I then was nothing the spacers. in the western part of Missouri. In June last we off there for the East and in August last we came to New York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time the sait water breeze made me feel much better for a time, and then I nad again to call a physician for aid We had four of the best physicians of New York on the disease. of the best physicians of New York on the disease, the langs, the doctors of all kinds, but of no swall. They said I was past cure, and that my ungs were too far gone for any one to cure me. But at this time I was on my feet about the hone, not able to much of anything. In Nov. mber last I grow wore, and the consumption diarrhes set in and last adout eight weeks. We had tried all and everything that I could grap at like a dying person for the diagrams. distates-consumption and liver complaint-

In Junuary 1863 I was brought down again on my bed, and was not expected to live the night ou My husband stayed at my side, and other friends, and they all gave me up to die. At this time everyone who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with sparms, and was deranged most of the time. A friend. Mrs. Harris, came to see me the last of the week, and brough the Sunday M-reary. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much tike my disease that I neked my husband to go and see him for me. At this time I had given up all nopes of ever getting well again, an made my peace with God, to be ready whenever he called for n.c. On the 27th of January, 1863, my busband called on Dr. Schenck, 32 Bond effect, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the respirate acceptable was about to go I askled him if he could cure me? His reply was: "I can not tell, both lungs are diseased, and the bronchist tunes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He enid in order to do this, he would have to give me Mendrake Pills in small doses at lirst, to carry off the merbid anatter, and then, with sarringents, he hoped to check it which he did, but the constant coughing. night sweats, and diarrhea had prostrated mo en hight sweats, and diarrhea had prostrated no ebut he was a fraid my vital powers were too much

with the exception of a cold that took me back some,
I have been gaining strength of body, my cough 'ngoing away, and all my pains are gone; no soreoes of the body, my bowels are regular, and ny

I have taken sixten buttee of the medicine sixten. I have taken sixteen bottles of the medicine, cirl of each. I now have a good appetite and rest well-tright; my cough does not trouble me in gettin-up or lying down. The bones in my neck vere drawn out of place with the asthma, and my throat keeked like raw beef. After applying to various physicians and obtaining no relief, I finally applied to Mrs. M. Formerly the least exposure gave one cold; I could not go to the door with my bed propovered without an attack of the asthma. My arrh and . reat dizziness in my head, almost caus lovered without an attack of the aethina. asthma is now entirely gone. My catarrh has wholly disappeared. I folt weak and languid for many years, so that I was a burden to myself. The

trave promised or the afflicted applicant anticipated.
The Curative Priperties of the Great Western stomedy are truly wonderful. Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Savangarille.

Music! Music!! Music!!

A large supply on hand—if we have not got the piece you want, we can get it for you in a

a concentrated extract of Para Sarsaparilla a concentrated extract of Para Saranparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Saranparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense decompined their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

complaints: -SCROTULA AND SCROTULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALDIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE on Sr. Anthony's Fine, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tel whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug ie has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else.

During late years the public have been misburning late years the public nave been misseled by large bottles, pretending to give a quart of Extract of Sarsapavilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapavilly have also been from the sick of , but often no curative properties whatev-Hence, bitter and painful disappointment er. Hence, bitter and puntar the particle of has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests when it. Any we think we have ground for upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than throughout this section, we need not us more many assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
