REPUBLICAN STATE NOMINATION

FOR G VERNOR,

Major General John W. Gearv

OF CURBERLAND COUNTY

A meeting of the Union Executive Coun

ty Committee will be held on Saturday next

BUNCOME.-The copperhead members o'

Congress have issued an address to the faithtu

to elect delegates to the office-holders conven

tion, which is to meet at Philadelphia, Augus

14th. Saulsbury and Harris (who almost ever

day denounce Lincoln as a tyrant and exto

Jeff. Davis and the traitors), are for the presen

kept in the back-ground. It is not time to "tro-

'em out yet"-a few green ones must be drawi

on first. The call or address commences with

"Dangers threaten. The Constitution-the

citadel of our liberties-is directly assailed.-

The future is dark, unless the people will come

There was a time when these sneaking cop-

perheads might have issued such an address

in good faith-when dangers really threatened

the Constitution; when hundreds of thousands

of armed traitors stood arrayed against the Con-

stitution and the Union, and threatened to bury

all in ruins ;- the citadel of our liberties was

assailed then (alas I the widows and orphan:

and graves of our heroes too truly attest the

fact): and how often, during the stupendous

struggle, was the future dark-not to the cop-

perheads-but to the liberty-loving loyalists of

the country; and did these copperheads come

forward then-when the news came of a Union

reverse? Oh, no, they heard the news with

apparent stoical indifference, and then retired to

their retreats to chuckle over the (to them)

satisfactory result. And when our brave boy-

called for re-inforcements, they discouraged en-

listments and opposed the draft. And some o'

the men who sign this call vo ed against sup

rlying the army with provisions We repeat.

there was a time when such words as the above

would have sen: a thrill of joy to many a brave

heart-but not a word of encouragement wa

heard from this class. But n w when the trait

ors w o levied war against the liberties of the

people, have been defeated in the field, and are

to be deprived of the privilege, for a while, o

making laws for the loyal people, these sneak

ing copperheads send up a terrible" howl that

the Country, the Constitution, everything and

everybody, are in great danger unless the trait-

ors are admitted instanter, and without guaran

tees. The swindle is to apparent to decieve

THE NEW POLITICAL PARTY .- The Round

Table, in an article on the call for a conven-

tion to meet at Philadelphia, August 14th, says-

The names attached to it are respectable, but

represent no marked ability. The gentlemer

who signed the document are known to be suc

cessful politicians and partisans, but not as real

leaders of the people. They have managed to

keep abreast of public sentiment rather than

striven to be in advance of it; and however

to the Rehel army and attempted to take forceable possession of the Government, to return to heir positions and make laws for the country.

Soldiers and Union men how do you like the modérn democratic platform? that none but hose who have been engaged in the rebellion und their sympathizers are true Union men ser The members of the Union county

nd capable of managing the affairs of the nation, are you prepared to say that every batle that was fought by the Union soldiers, was or the purpose of compelling the leaders of the raitor army against which you battled to govrn the country. Do you, can you believe that hat was the object for which you suffered

ertisement the privations, toils and hardships, of the amp, and the dangers of the battle field, uness you do you certainly cannot vote for Cly ner, as all that vote for him or with his party

vill do so for the reason that they believed, and till believe the traitors were right and should e applauded and honored for their acts of reason and barbarity, and that the Union solliers were engaged in a wrong cause and on soma. he wrong side, and that they deser e no henor,

and they certainly will get no sympathy from he copperhead faction for their acts.

FOREIGN NEWS .- The steamship America, rom Southampton, July 4th, is at New York. The Miantonomah, after reaching Cherbourg. coes to London. The Queen had approved a new ministry submitted to her by Lord Derby. Gitschen had been taken by the Prussians. It s thought that the total loss of the Austrians p to the present time is forty thousand men. Ier troops have evacuated Oswiecsin. The lighting still continues. The Austrian army uas retired to a position between Josephstadt and Konigratz, and is represented as being in state of dissolution. Desertions from the talian army are increasing. The Nova Scotian bassed Father Point last evening. Her advices re two days later. It was thought that a Concress would shortly assemble, and that a general disarmament would be advised by the French Government. A great battle was ought on the 3d, near Lodowa, between the Justrians and Prussians, in which the latter vere victorious. The Emperor of Austria has leclared himself in favor of the armistice re-

commended by Napoleon, and has sent to the nostile powers for action on the matter. WESTERN VIRGINIA .- The official vote for he constitutional amendment disfranchising persons engaged in the late rebellion was count d on the 11th inst., and the amendment was leclared adopted by 6,922 majority. Where he wicked and intolerent spirit of those who nstigated, planned and conducted the rebellion re best known and their acts of barbarism und cruelty have been felt. The people have y a large majority decided that they have no ight to participate in the administration of a covernment they have tried to subvert and hat they must be contented to live peaceable

etired lives for the balance of their days. That they shall not again have an opportuity of plotting treason from high placeshat men who have once proved recreant to the rust which they assumed cannot with safety e again trusted with power.

THE WAY JOHNSON REWARDS SOLDIERS .the Nashville (Tena). I ress and Times says hat Andrew Johnson is proscribing and perecuting the Tennessee Union men in a maligant and revengeful spirit, because they refuse o support "his policy." The Times says that Judge Fowler, Governor Brownlow, Horace Maynard, and other prominent and steadfast Union men, have in some way, felt his wrath ; but the last "small affair" is his conduct toward Col. William B. Stokes, a gallant soldier. It ppears that when the name of this brave solier was sent to him by the Secretary of War, o be nominated for a brevet, in recognition of istinguished services in the field of battle, ohnson acted like an infuriated demon, snatchd up a pen, drew it across the paper, and threw t aside. Very pretty conduct for the Presient of a great nation ! TREASON TO BE "REWARDED."-The section f the proposed amendment to the Constitution asing representation on voters, is apparently ; just and projer that it scarcely needs com. ent, and yet the copperhead press attack it vith unparallelled ferocity. The reason is obvi. ous. 'They desire to give the rebels' a double represen ation in Congress, thus rewarding treason. L almen of the North, will you acknowledge yourselves inferior to the rebels of the South, and meekly concede them a double representation? Will you acknowledge that one rebel vote in the South shall count as much as wo loval votes in the North? CONVENTION OF SOUTHERN UNIONISTS .- We print in to-day's Register a call for a Convenion of Southern Unionists to meet at Indepenlence Hall, Philadelphia. on the first Monday n September next, intended as an off-set to the Rebel Convention which is to assemble at the ame place on the 14th of August. There is nanifestly a secret conspiracy at the South to xclude consistent Unionists from office and persecute them to the utmost. They are scatered, overawed, and must organize for mutual protection and to claim the protection of the Vation. This call is a sign of promise. We rust it will be fully responded to. 13 It is telegraphed from Washington that eneral Grant is warmly in favor of the terms f restoration off red by Congress to the Rebel states. He declares that the men who tried o destroy the Government should not be admited to power without sufficient Constitutional uarantees of future good behavior. This is what might be expected of the victoriou-leader f the Union armies. He knows the power nd the malice of treason, and will consent to rive it no share in national legislation until it. bility to renew the struggle has been destroyed. * A Year ago, such Copperhead Senators s W. A. Wallace, now the Chairman of the lopperhead State Central Commit ee, rans ck d the Constitution for proof that soldiers in he field had no right to the exercise of he lective franchise : to day the same set of men re overhauling the same instrument for power o prevent the disfranchisement of deserters. low friendly the sist to the soldier! VERY PLAUSIBLE .---- Wait," says the John on-copperhead-rebel-coalitionists. "until the states are all represented, then will be time to mend the Constitution." The loyal people now, as well as the cops., that the traitors will, prevent amendments to the Constitution, and add on to their double representation. THE FENIANS .- "President" Roberts has is med an address to the Fenians in which he deails the operations against the "blue noses, and denounces President Johnson for his conduct, and also charges inconsistency. We have no doubt of it. Andy has a way of saying one hing and doing another. It is a "little fuilng" he has. DARK .- The copperhead members of Congress say in their address that the "future is dark." We admit that as far as their prospects dark." We admit that as tar as their prospects taken in charge by High Constable Ruhe, who, eided that the Civil Righta Bill supered took him before E quire Wittman. The Jun the taws of Maryland so as to admit the test ingly dark; and, if the loyal people do their lice after hearing the case committed Ruerr duty at the polls next fall, it will remain "dark," to juil in default of \$1000 bell.

much their fidelity as officials may be extolled it must be owned that they are not among the men who mould public sentiment. What of influence they exert must be attributed less to their individuality than to their official position. The subject-matter of this call is more important than the language in which it is couched or the names appended to it. In a word, it is a paraphrase of President Johnson's views or re-construction-just this, and no more. Ques. tions of finance, of internal improvements, of tariff, of foreign relations, etc., are entirely in nored. * * * We make no account of of ficial patronage, upon which the daily press lavs so much stress; for those who are infienced by that, are not the men who give life and strength to a party. There must be some distinct principles-nov. more. convictions-at the bottom of a party, else it will fall to pieces for simple lack of cohesion.

The Southern Unionists declare that, if the patriotic measures of Congress are not sus tained, "there will be no safety for the lova" element of the South," and no guarantees for the "beneficent principles of free government." They have learned by bitter experience the inevitable tendency of the ultra State sovereig tr doctrines, which form the corner-stone of t] e Johnsonian platform, and have seen them carried out "until all authority in Congress was denied, the Union temporarily destroyed, the constitutional rights of the citizens of the South nearly annihilated, and the land desolated by civil war." If, in spite of the sacrifice of three hundred thousand lives and the expenditure o billions of dollars, Northern voters can become indifferent to the parils of an unconditional res toration of traitors to power, they cannot. For their sakes, for our own, and for the sake of Republican institutions every patriot should vigorously repel the combined attacks of the envenomed foes of freedom.

Post-Master General Dennison has made the first break in the Cabinet, by handing hi resignation to President Johnson. Mr. Denni son supports, as he has always done, the Unicr Republican party, its men and principles .-Considering the Philadelphia Convention move ment as only an attempt to destroy this grea organization, he feels unable to remain in the Cabinet, consenting to, and appearing to assis such a work. He deserves the highest eulogy for this nobility of conduct, and it is to be hoed that there are few of our people, in the m joyment of Governmental patronage, who, in their own particular time of trial, will prove sny less patriotic than Governor Dennis n .-He regards his duty to his party and his coun try. the endorsement of his conscience, and the rewards of the future, as far higher than an ap 18 ent temp many advantage to his pocket.

19. The Copperhead organs treat the demon stration at the flag reception in Philadelphic on, the 4th inst., gingerly. It must not be ex pected, however, that our opponents will enjoy proceedings calculated to destroy them. Every meeting of soldiers called to commem orate the glories of the war, has a tendency to revive the odium which attaches to those who conspired with traitors to overthrow the Gov ernment.

"GETTING ON THE ICHAR PLATFORM. -In the speech of President Roberts to the Fenians, a Buffalo, he is reported to have said :

"The dawn of Irish liberty is approaching, "The dawn of this liberty is approaching, and in a friendly spirit I ask you to extend your hand to every office proper who are string gling for therety is belp to evalues no max; and remember that God c rated us all in his own image i that he looks not so much at the color of the face as as the color of the heart." The great issue is upon us. The majority a Congress' and its supporters, firmly diclar hat "the rights of the citizen enumerated i he Constitution, and established by the su preme law, must be maintained inviolate." We have seen this doctrine of State soveeighty carried out in its practical results un authority in Congress was denied, the ng of large rain drops. This makes the flour Union temporarily dostroyed, the constitution-al rights of the citizens of the South nearly ark-colored and gritty Wetting and drying the grain several times, destroys the life of the flour. It never will be as white, nor make as good cakes, but will be sticky and the cakes innihilated, and the land desolated by civil var.

The time has come when the restricture of olammy like the flour of -prouted wheat, Southern State government must be laid on unstitutional principles or the despotism rown up under an atrocious leadership be formitted to remain.
