DF. CUMBERLAND COUNTY.

Union County Meeting! The Union citizene of Lehich county, will mec. George Bachman, in Lower Milford Evrathin, known as the Buckhorn, Tavora, i All who are in favor of the clugtion of

General John W. Geary,

The Union candidato for Governor. All who believe that the robellion was started be the Democratic party for the purp se of perpetu ting their hold on the power of the Government. All who are in favor of the power of the tovernament. All who are in favor of the frinciples embodied is the Constitution, the mainteinance of the laws, an adjusting them to the new order of things. All who believe that treason should be mad

odious. All who believe that loyal men only shall admir itter the affairs of state. All who believe in main aning the advantages

derived from the war; are invited to attend. By Order of the Standing Committee.

THE MOB SPIRIP.

The constant teaders of the Jeff Davies Democratic organ have been accustomed to read long articles detailing the outrages of the President and all subordinate officers upon the poor copporheads, in open violation of the Constitution and laws, while they profess to be the only Constitution loving and law abiding citizens in the country, and always submit to such outrages without retaliation. To believe their papers and orators, is to believe that the Democratic party is immaculate and their leaders perfect saints. But when we hear both sides of the story, as jurors are bound to do and weigh the evidence, it is not improbable but what a different opinion may be formed and no man is prepared to vote intelligently upon any measure until he hear both sides together with the arguments, and weighs the evidence taking into account the action of the witness on the stand, their prejudices and moral character.

Now we assert that the largest maks, the most violent resistance to the laws, and the most wicked, heartless murders have been got ten up by and in the interest of the Democratic party, for years the territory of Kansas was the scone of their exploits. They made the assistance of persons' desirons to emigrate to the western territories to seek new homes for themselves and families, the pretext for mobs, riots and murders in Missouri and Kansas. They District. instigated the riot and mob that fired upon the star of the nest at Charleston'S. C. They composed the mob that seized the forts, arsenals, dockyards, mints and other property of the United States in the Southern States. They compose the conventions that took the Southern States, out, of the Union. D moeratic traitors (confidsenthe linobarank and file of the ar-

my of the Southern Confederacy. Democratic traitors bid defiance to the Constitution and laws of the United States and attempted to trent the presidential lelection of 1860 he though it had never been held, and acquire power by force of their mob armed with, weapons, stolen from the Government. Democraticitraitors have composed every mob that has been gotten up for many years past. They, were it force at Antietam, Gettysburg, and on every battle field throughout the war. They were the leaflers of the New York riot in 863 got up when Lee was in Pennsylvania for the purpose of niding him in over-running the North and gaining his, cause. They were the men who resisted the enrolment laws, shot the officers while in the discharge of their duties. They formed the nest of traitors at Fishing Creek in Columbia county Pa. They compose the Order of the Knights of the Golden Circle all over the country, and every riot and unlawful assembly for the purpose of doing violence to person and property was composed of them. even the Berks county Heidelburg brigade that marched into Reading for the purpose of rescuing a prisoner, was composed of them, whether Clymon was the Brigadier of that brigade or not, we do not know, but certainly he was in sympathy with them sand approved of their course, rather it was through his advice they attempted what they did, certainly men who have not only studied how to get up riots and mobs for many years but participated in them should be able to deliver lengthy lectures upon the science of mob rule and mob law and in old Berks where the peculiar material for proselytes abound, is certainly a good locality to de liver them. So accustomed have the roughs of their party bacome to resisting the officers of the law, shooting them, abusing them in all ways that can be devised by their leaders, that when they gathered at Reading in large numbers and were filled with the spirit of Democracy from Lauers, that they could not forego the pleasure of showing their true colors, well knowing that their leaders as usual would do their best to lie them out of the scrape and put the blame on other shoulders, a dodge which they have heretofore been tolerably successful at in the opinion of the party, as for instance, the assertion that secession is right and justifiable, that Davis is a patriot and martyr to the cause of liberty, while Mr. Bincoln was a tyrant and usurper.

"Until the Democratic party can be brought to think more of vindicating great prin-ciples than of setting the spoils of office it will continue to be a maken a wretched timeserver, in most process that the spoil on the set of the commute to be a weakand wretched imeserver unworthy of the performance of the performance of the ing dolling into which through the performance of dod get into its lay it pulatforms of the performance of dod get into its lay it pulatforms of the performance of the of principles except those of Democracy, will keep the performance of the performance of the minority to the end of times. The Democracy care nothing for Presiden Johnson, they only hope by lip service to secure he control of the Government, for the purpose of handing it over to the leaders of the rebell on. Their willingness to sulfinit to any dictaion that will enable them to feed at the public | gets \$1,500 a year, and a parsonage to live in. rib, and give them a chance to pocket the tealings, is shown in their endorsement of evry new move made by political demagogues and adventurers like Cowan, Doolittle, John-

ion & Co. If the record of their party is clear and the biects for which they profess to labor, calculated to benefit the citizens of the United States, then why their anxiety to change their name, their platform, and their candidates The very move is an evidence that their leaders have become so corrupt, running after ante-Democratic gods, and their record so bad that hey have no hopes of success, except in some lodge, or the corruption of a weak-minded officer elected by the Republicans, willing to sell himself and party to the enemies of his country,

and of mankind, for gold stolen from the coffers of the nation. Why don't they go before the people on their platforms as made at their National Convention in 1860 and 1864, and reiterated at all their State conventions, are they ashamed of them? If their cause will bear investigation, why do they dodge every point and resort to ridicule, and when that fails, use their money, and a false name to get up a new convention tor the purpose of changing their platform, would it not be better for them to do it openly,

fairly and squarely, acknowledging their errors and professing to repent of them, of course their professions might be only pretense, they understand that very well. Acker of the Regra bounty of \$100. ister understands the true position of the party with which he affiliates and refused to endorse bounty can have their papers properly propared every whim that seizes their leaders and pur-

THE NEW ORLEANS MASSACRE .- As was to be expected, the copperhead presses are endeavoring to justify the murder of Union men at New Orleans. Their argument is, that the convention of Union men being illegal, the rebel mob, headed by the mayor, were justified in murdering the members of the convention Whether' illegal or not, it was - not, a 'question for a mob of infuriated rebels, or the mayor of the city; to decide... The Governor of Louisiand evidently did not suppose it to be an illegal gathering, for in his despatch to the President he says that he intended to issue a proclamation ordering an election to fill 'vacancies..... Gen. Baird justly remarked that He could not understand where the mayor of a city got authority to interfere with a State convention,

The Washington In alligencer, (Presi dont Johnson's organ,) calls the idea of holding a convention of Southern loyalists "extremely farcical," and adds:

"It is called to assemble in Philadelphia, be-cause there is no place in any Southern State wh re such a convention would be tolerated."

What an admission or declaration is this, to be madelby President Johnson's organs which contend that the South'is loyally reconstructed -that the rebels fully and honestly accept the result of the war mand that those States can be safely and properly permitted to take part in our government again without piv further conditions or guaraptees!

"NO PLACE IN THE REBEL STATES WHERE LOYALMEN WOULD BE AL-LOWED TO HOLD A CONVENTION !"

And this is asserted by the central Johnson organ of this country ! Is the significance of this statement (understood by men who go: for the unconditional admission of members of Con gress from rebel 'States ? Give these rebels, unrestrained, their former political power, and what would be the fate of loyal men and women in the South ? What would be the fat.

of the argument. . . . EUROPEAN NEWS .-- It is expected that a def nite treaty of peace will soon be signed by the Anstrian and Prossian Plenipotentiaries at Prague. The Italian and Austrian Generalnet at Cormono, in Austria, to negotiate. Napoleon has asked for his share of the spoils of war, by proposing to Prussia the extension of the eastern frontiers of France. Austria and Italy have agreed upon an ar-

mistice, upon the basis of the cession of Venetia to the latter-power. Prussia has not as yet made any reply to the request of the French Emperor for the Rhine provinces.

The military and naval preparations of France point to a hostile intention on the part of Napoleon, if his demands for the extension of France to the Rhine are not peacefully complied with.

A HOPELESS TASE .- The copperhead and rebal presses are so busy defending the President from the odium which attaches to his participation in the New Orleans massacre that there is danger of the Philadelphia confederate copperhead-convention being neglected. Better devote all your energy and attention to that convention, gentlemen. You may be able to deceive some people as to what you propose doing, but it is a hopeless task to try and obliterate what you have already done.

CHEURING .--- The news from all parts of the great West is cheering. The Chicago Tribune estimates the Union Republican majorities next fall as follows : Ohio, 40,000 ; Indiana 35,000 ; Illinois, 45,000 ; Michigan, 17,000 Wisconsin, 15,000; Jowa, 25,000; Missour 10,000 Minnesota, 6,000 ; Kansas, 10,000. Can't we beat this in Pennsylvania? Let us

try to give Geary 50,000. Work will do it .-What say the "boys in blue." To The POINT .- They have a way of "put ing things" out West that to say the least of it, is very expressive. Among the resolutions of a late Republican Union convention in Illingis

we find the following :---Resolved, That "treason must be made odd ous." but that it cannot be made odious by giv ng rebels scats in Congress, nor by feeding lefferson Davies on poached eggs and fried wsters.

23- It is said that the "bread and butter" Republicans who go into the Philadelphia convention will insist upon a resolution solemnly. leclaring that they are not actuated by mer enary motives but are solely moved by princiile. It is thought that if the convention fail to dopt such a resolution, the people may sus all the Muthematics and Languages of a full pact that they are merely office holders and ex. College Course may here be pursued. The past success of the Institution warrants the pectants.

A RUSE .- It is said, that the managers of end measures are even now heing initiated for the Philadelphia convention have bit upon the scheduler of excluding Valandingham; It is to be done for effect. But that will deceive no-body, for at the same time they will probably admit Fernando and Ben. Wood, Pendleton Savmour, and man of the same string. engenes fight datas

ANOTHER NEW CHUROH .- The members of the Allentown Methodist Episcopal Church inve resolved, on account of the insufficient and uncomfortable accommodations afforded by the old building, in which they now wor ship, to tear it down next spring and erect a asw church on the same ground. They worked hard to get a respectable number of the faithful together, sent out bunds of music aired for the purpose, furnished free omnibuses . **2**6 and carriages, and notified all that did not at-1,21 tend, that their absence would be evidence of their opposition to Clymer and Johnson. Yet and in this county for many years. A Demo-grat says there were not 300 there, and one-ualf of them were from town. Mr. Boyer, the present Member of Congress, made a speech sonsisting of a culogy of the old name Demo-crat in the time of Jefferson and Jackson, and abuse of the present Congress. The latter was andoubtedly, a very pleasant task for him, after the simultaneous appearance in every se-vession organ of the State, of a long article condemning that body for the passage of the oill increasing their saleries from \$3000 to \$5000 per annum, commencing March 4, 1865, for which Mr. Boyer voted, and had his extra \$3.709 31 **1**37 1,75 20

Juy, nearly \$3000, in his pocket. Mr. Boyer voted against every proposition to increase the jounties for the soldiers, until the clause inreasing his own pay was attached, then he yoted for it. He cannot say with Mr. Hubhard of West Virginia, that he voted for it for he purpose of doing justice to the soldiers, without emulating his example, and returning the money to the Treasurer of the United States, but who ever heard of a Democrat, Jopperhead or rebel returning anything they 90 i.80 1 05 could lay their hands on, whether right or not The possession of the money must have had great power on the assembled conspirators, notwithstanding their head centre had rebuked 12 10!
