OUR TICKET.

The ticket formed on Saturday last by the Union men of the county consists of the best men in the county. The nomination of David Thomas, Esq., for Congress, is a tribute of respect due to a worthy man and good citizen.-Mr. Thomas was for many years the Superintendant of the Crane Iron Company's Works, at Catasaugua,, he is a practical man of uncommon energy and business tact. He has held the position of Superintendent of the Company's Works ever since 1839, when they commenced the erection of the furnaces, to try the experiment of making iron with anthracite coal. Through his skill and energy, the Company, all of whom resided outside of the county, have been able to make profits on the investments then made by them, and caused to be built a town now containing nearly 3000 inhabitants around their works, while the community in which they are located have seen the value of real estate greatly increased by old Democratic principle of equality before the reason of the location and successful management of these Works. A ready home market has been created for all kinds of produce which the land within many miles around is capable of producing, at remunerating prices. The ed and are still reaping large benefits from objects of our lives. there Iron Works, and the development of the mines of the county, thus started by him. He Is a man of integrity, and firmness, qualities very much needed in a representative.

A sense of honor and gratitude in the pe of the county, would secure his election. For the Legislature we present to the people of this county, Capt. T. S. Kline and Capt. served their country faithfully and one of whom, ence of the old flag, that will injure him for life. They are both honest, sober, industrious, confederate soldiers and their supporters are not expected to vote for them.

For Associate Judges we have Samuel J. Kistler and Capt. Charles Keek. Two better men cannot be found in the county, in either party, for those positions. They possess all the qualifications requisite to the protection of the rights and liberties of the people.

Prothonotary, Lieut. Phillip Flores has been a soldier, in addition to which he is capable and honest.

arm in defence of our liberties, and we owe him some recompense in return. To elect him to this office where he can carn his support by hard work is little enough. He writes better with his left hand than any man who has had the office for years has done with his right hand.

For Coroner, Dr. P. R. Palm, a practical physician, has also been a soldier and is the right kind of a man for the position. We will continue our remarks about the

candidates next week. FIRST GUN FROM VERMONT!

Union Gain, 5.000. Vermont held her State election on Tuesday

Dillingham, the Union candidate for Govern-

The Senate is unanimously Union! House of Representatives four fifths Union! Vermont appears to be slightly radical. How about "my policy?"

This is but the commencement of the series of wholesale slaughters, by which the Andrew Johnson doughface party will be completely ar. nihilated.

Republican Triumph in San

Franciaco. A dispatch from San Francisco, California announces that a brilliant triumph was achiev ed by the Republicans of that city at the muni pal election held on the 5th inst.

THE main issue before the American people for their decision at the ballot-box is not, as the copperheads aver, the indefinite exclusion of the late rebellious States from representation, but simply whether they shall have gained power in the councils of the nation by the conduct of the people, or whether to be shorn of the power to do evil in the future. If the President's policy of immediate admission of representatives without guarantees, is rejected by the people and disapproved by the policy of Congress, requiring guarantees before admission, is endorsed in the elections, then the President must abandon his policy; and the States not yet represented, will. like Tennessee, "accept the situation," and be admitted, shorn of their power to do harm.

PATRIOTS IN COUNCIL!

The Southern Union men met at Philadelphia, on the 3rd inst., according to announce ment. Their reception by the brave and true sons of freedom was grand and imposing, and as creditable to the citizens of the great city that has grown around the sacred temple of Liberty, as it was well deserved by the fire-tried patriots of the South, whom no persecutions could swerve from their fidelity to the Union. Amid

the darkness and perversity of rebel communities, which, in politics, are worse than proscriptive paganism in religion, they have faithfully worshipped at a patriot altar, and planted the germs of an indestructible faith that must eventually triumph in the most benighted regions of our country.

Their individual histories and sufferings warn us not only of the infamics of rebellion, but of the resolute efforts now being made to brand every man who stood true to his obligations to the Constitution and the Union, with ignominy, and to demoralize public sentiment and corrupt the minds and hearts of the people by practically asserting that treason is honorable, and that the sure mode of gaining control of this great nation is to encompass its ruin before the pcople pass upon the questions of reconstructing the State Governments lately in rebellion, and the admission into Congress of men who have been fighting to destroy the country. They will hearken attentively to those who, surrounded by traitors, with every opportunity to know their objects and designs as well as their feelings and characters for truth, honesty and justice, remained firm and true to the principles of liberty embodied in the Declaration of Independence and the Constitution, when they will disdain to remand back to rebel rule the fair domain preserved by the heroic valor of our ar-

Large delegations from every Northern State were there to greet and confer with the South ern Union men, and their joint constitutions will invest their deliberations with momentous

importance. No suppression of sentiments were allowed there. Every delegate had the privilege of expressing sentiments upon the questions that arose, and exercised it too. The work was not to educate should send for catalogue. performed by a committee previously organized and put through under the gag rule for the express purpose of cutting off debate, as was done in the late Johnson-Clymer-Cowan cowardly conclave. No hope of Executive favor or reward prompted those men to action, and no fear of persecution deterred them from uttering the great truths which must prevail and pervade the minds and hearts of the people of this country before they are prepared to govern and be governed aright, as decreed by the Ruler of the

Universe Their actions have been guided solely by their desires to see the people again united, not on the old dogma of Democracy which required the labor of a class to support the governing party in idleness and crime, but on the good

law, and equal justice for all. The speeches made by the delegates from the South and the leading men from the Northern States, who visited the city on that occasion, breathed the true spirit of republican liberty and people of this county, of all classes, have reap- justice which, all will admit, should be the rul-

PRESIDENT ON A RAMPAGE.

President and party have started on the long comtemplated visit to Chicago, to participate in in the dedication of the monument erected to the memory of the great and good Douglassoh, that he could rise from his grave and re view the acts and sayings of President John Michael M. Kistler, both soldiers, who have son for the past year; that his voice could again be heard expressing the sentiments of an Capt. Kistler has received wounds in battle, in honest, fearless, independent man, upon the haracter and conduct of the most degraded executive officer this country ever had. -Mr. A. J. upright men, possessed of good talents, and would turn upon his heels and flee to the moun well fitted for the positions. They should red tains and call for the rocks to hide him from ceive the support of all persons who believe from the faces of those he has already betrayed that rebellion is a crime, and patriotism a vir- and those he contemplates betraying. Every tue to be honored and respected. Rebel or manawho was a friend of that good man, Douglass, and contributed toward the expenses of the monument must feel the insult and disgrace of having such a man participate in those ceremonies, because he occupies the highest office in

the gift of the people. The President has improved every opportunity to enforce his policy upon the people, and inflict upon them a political harangue couched in the most vulgar and indecent language of the clan to which he belongs, filled with laudations of himself, and abuse of the representatives of Register, Lewis H. Roth, has lost his right the people, whose firmness and honor have say ed this country from anorchy and ruin.

Not one word has he uttered on any oceasio about the ostensible object of his journey, and whenever the name of Douglas has been men tioned in his presence, he has always replied without referring to it, but pressed upon his hearers a statement of his own troubles with Congress.

He appears to be particularly anxious to con vince the people that what the professed Democracy said of him at the time of his inauguration as Vice President, was well founded and that the same old drunk still continues.

CLYMER'S ELECTION GIVEN UP .- The Har risburg Telegraph reports a conversation held between ex-governor Bigler and a citizen of Harrisburg, as the former was on his way to the Philadelphia convention. Bigler supposed that the Harrisburger was a copperhead, and at the close of the conversation he wispered in to his ear, "Clymer is personally a very weak man, and politically vulnerable to the mos damning attacks! He is a heavy load, sir.

don't think we can elect him." Here is a truth divulged which the copperhead leaders are careful to keep from the rank and file. It is clear the high priests of copper headism give up the election of Clymer.

Johnson will remove the office-holders who are faithful to their principles and convictions rather than subservient to his "policy." The Courts may pronounce this unwarranted but meantime it will be done. Heads are falling by hundreds daily: let them fall! The quicker and cleaner he makes his sweep, the better for the Radical cause. Each kicked out office-holder is worth to the Good Cause any two that are kept in. Let the headsman sharpen his axe, then, lay about him to his heart's content! "For the devil hath come among you having great wrath," says the Apocalypse, "because he knoweth his time is short.

THE REBEL DEBT-The proceedings of the Philadelphia (14th August) Johnson Convention were received by rebel bond-holders in England with great joy. Confederate bonds advanced rapidly in value. These men know very well, that the success of Johnson's policy and the Northern Copperheads, in the elections, would give the rebels again complete control of the Government. Let the American people take a lesson from this fact. The joy exhibited by these English holders of rebel bonds should open the eyes of the people to the impending danger.

The splendid Union League House, on Broad street, Phila, which was the central point of interest and attraction during the sittings of the great Union Convention was parbed in Europe by every court she attended as tially destroyed by fire between I and 2 o'clock a beggar; and now Max himself is making last Friday morning. The origin of the fire is forced loans in the various cities of Mexico, to not stated—but there are strong suspicions of incendiarism

Elective Oprices .- It is said that one of he first efforts of Congress, upon re-assembling

next winter, will be to make postmasters in the principal towns and cities elective by the people. This measure has been agitated for many years by prominent men. The American people have seen the danger of placing too much lower in the hands of one man, and we believe that they will agitate for a thorough reform, so as to strip demagogues of the power to do evil.

WHY NOT ?-- If the cops, are sincere in desiring the payment of the National Debt and the repudiation of that of the Rebels, why not two old cows, one pen each of the ep and hogs, favor the amendment to the Constitution, now time to come?

Can anybody tell? This is the way candidates for office in Rich nond, Va., announce themselves: "Judge Crump, it is said, gave three thousand dollar to the Confederacy. Mr. Gilmer gave four years of his life and risked the whole. Who gave most? Let the soldiers answer at the polls." There's reconstruction for you, pure and undefiled."

Our County Fair .- The annual Agicultural Exhibition for Lehigh county wi be held on the grounds of the society on the 18th, 19th 20th and 21st days of September We see no reason why this exhibition should not exceed that of last year, which as far as our knowledge extends was not surpassed by that of any o her held in the State. The grain and vegetable productions this year are etter than those of last, with the exception of peaches, which may be considered a failure, while improvements have been made in various agricultural implements. More attention is also given to the improvement of preeds of stock. Upon the whole, we may ex occt this Fair to be in advance of all former ones, in respect to variety, quantity and ex-collence of articles exhibited. The ladies have always taken an active part and contribated largely in making our Fairs attractive by heir beautiful and much admired contribu tions. We trust their ambitious spirits will not allow them to fall behind former years. Great improvements have been made on th Fair grounds, so that the accommodations will

be all that the public could desire. MEETING .- On Saturday evening last the people of our town had the pleasure of istening to two elequent addresses on the Publie Square, by Mr. Benedict, of Philadelphia and Dr. Doane, of Connecticut. The remarks of Mr. Benedict were argumentative and to the points in issue before the people in the present contest. Mr. Donne entered more in o detail, and showed clearly from their own nistory that the Copperheads were and still are the secret, trencherous fees of civil and eligious liberty, that on all occasions since he commenoment of the rebellion, they have hosen for their lenders, men who were either engaged in the rebellion with the rebels, or whose words and acts indicated the greatest amount of sympathy and willingness to assist hem, provided they were not placed in dan-

ger of balls and bayonets.

A. J.Bheirig.—Sir: In answer to your inquiries I present the following statement, in reference to the merits of your Bone Dust.

Last Fall I purchased a tract ofland below Allentown. I was informed by neighbors that the land was so poor that I would not be able to raise on it any crop of value I used your Bone Dust, and in consequence my crop of rye is so excellent that the farmers in the vicinity have made special inquiries

onsequence as a strictly have made as to what I put on the land.

My experience enables me to recommend your Bone Dust as a strictly fine and pure article.

Yours Respectfully,
