GREAT

UNION MASS MEETING. There will be a mass meeting of the Union cit

ams of Lohigh county, at Allontown, October 3rd,
in the evening, on the square.
Addresses will be delivered by
His Excellency A. G. Curtin, ...
General John W. Geary,
Honorable Wm. D. Kelly, Honorable Wayne McVeagh. ...

Let this grand rally of the campaign show that the great loyal heart of Little Lehigh still responds the call of Liberty and the Union.

Let the brave defenders of our country, who have upheld the honor of her flag on many a blood-stained flold, show that they rote as they fought,"and give to our gallant standard-bearer a reception worthy of his eminent services.

To the Voters of Lehigh County.

When you vote for a representative Congress, don't forget to vote for David Thomas, Esq., of Catasaugua, remember that he is the right man, capable, honest and persevering, that his election will not only be a tribute of respect to his talents and energy, but an honor to the District. The iron interest with which he is identified has made this county wealthy. There is not a man, woman or child, in this county, but what has been benefited by his method of doing business. A sense of justice should dictate a unanimous vote for him. He has succeeded in building up the iron manufacturing business when the whole weight of the Government, wielded by the pro slavery demoerats; opposed it. You need not fear his radicalism, none but radicals ever succeed with in business or politics. If you want your interests advanced, either at home or in Conzress, you will be compelled to choose radicals to do it. There is to be a national foundry built in a few years, and if any man can secure its location on the Lehigh, Mr. Thomas can. Such an institution in our midst would be worth -more to the people than all the political questions and offices of the country. His integrity cannot be questioned.

His opponent B. M. Boyer, according to Andy Johnson and the whole Democratic party, is the meanest, most contemptible scoundrel that ever lived, now if you believe them you cannot trust him, he was a member of the last Congress, and voted to increase his pay from \$3000 to \$5000 a year, he voted for that bill Congress by passing that law made themselves infamous, and calls them government robbers. If that applies to Congress as a body, certainly it applies to the members who voted for it, and B. M. Boyer was one of them. Trust him not | State will lose a good Auditor. Governor again, for if he gets the chance he will sell you out entirely.

Mr. Boyer is not identified with the business of the District. He has never done anything to carn the support of the people, but has always made his living from the quarrels, jars and disputes of the people. He ne ver engaged in any business or advocated any cause that increased the wealth of the District, except it was voting for the extra \$2000 and putting it in his pocket, and by your votes you should put him where he can not play the same game again.

OUR CANDIDATE FOR CONGRESS.—If the people of this congressional district study their own interests they will certainly elect David Thomas. There is not another district in the State whose welfare and destiny is so intimately interwoven with a judicious protective tariff system as our own, and no man would be more willing or more competent to take care of the interests of the people of this district than David Thomas. His whole life, we may say, has been devoted to mining and manufacturing, and our really nothing objectionable in the constitutionewn county owes much of the prosperity it enjoys to the energy and perseverance he has displayed in bringing into use the iron ore and limestone with which a beneficent Providence has blessed the earth.

A HAPPY FAMILY .- The copper johnsons of Maine, after their inglorious defeat, kept "mum' for a while, but having at last regained their speaking faculties, they are trying to find out what it was that hurt 'em so. The two factions are now accusing each other of treachery. The cops are pitching into the B. & B. Brigade, and the B. &. B's are pitching into the cops. Some of them are scolding the Fenjans by way of varisty. But as this is no quarrel of ours, we don't ears if they do pull each others noses.

Are the people of the North willing to give the Southern States from 12 to 15 more representatives than they had heretofore, and deprive themselves of the same number. If the South gain in representation of course the North must lose, because the Constitution limits the number of representative in Congress. If you are in favor of equalizing representation, as proposed by the constitutional amendment, then

vote for Geary and Thomas. The election of Hon. A. G. Cattell as United States Senator by the Legislature of New Jersey, is a very gratifying ovent. Republican strength in that important body will thus be increased by the accession of an able, peeful and reliable member.

THE DIFFERENCE.

Soon after the surrender of Lee and Johnson, the President removed the Governor of Georgia, elected according to the forms of the TO ADVERTISER. Constitution of that State, and appointed a he REGISTER has a larger circula- Military Governor without a warrant of law, tion, by several hunared, than any had a convention called to after the old Conother English paper in the county. stitution of the State in violation of the provisons of the cld Constitution, relating to amendments of the same, a Governor and Legislature elected, and started his own Government entire for the people of that State. The Democracy then said his acts were illegal and without authority of law, and so convincing were their arguments that no attempt was made to answer them. The highest Court in the State has pronounced the proceedings of the Convention unconstitutional, which restores the old slave constitution and all laws passed under it.

The President went so far as to dictate to the Convention that they must so frame the nev Constitution, as to wipe out the ordinances of secession, the institution of slavery, repudiate the rebel debt, guarantee the payment of the national debt, and other material changes .-These were his directions to all the Southern States, and the terms imposed by him upon them, before he would recommend the admission of their Repretentatives into Congress.

When Congress met, that body asked to have those very requisites placed in the Constitution of the Unifed States, in order to make them permanent, and place their repeal beyond the reach of the wire-pullers of a single State. If it was right and necessary for the States, severally to adopt Constitutions containing those provisions, and they were just and proper and required for the future safety of the country, is it not better that they be placed beyond repeal and beyond the control of the men who have once overriddeh, not only the Constitutions of their own States, but made very great efforts to destroy the Constitution and Government of he United States, and would have succeeded, had there not have been a power outside of those States sufficient to prevent them.

The question now is: Shall the very measures required by the President to be engrafted into the Constitutions of the several States lately in rebellion be made permanent by making them a part of the Constitution of the United States, or shall they be left in the care and protection of rebel officers, to be repealed or. Engleman. overridden whenever they can gain by doing so? Congress says yes: the President says no. That he is the sole judge, and Congress has nothing to do or say in the matter-which is right, which will be the most permanent and soonest end the whole controversy about reconstruction and rebel representation.

Copperhead Arithmetic.

When the proposed constitutional amendnent-now before the people for their adoption or rejection-was submitted by Congress, no intelligent man coold see anything objectionable in it; but no sooner was it ascertained that President Johnson had decided to oppose the amendment, than the cops made a furious onslaught upon this just and equitable measure. They knew very well that the proposed measurs was right and just, but took a partisan view of the field and reasoned thus: "Here is an op- slightly. portunity to defeat our old political opponentsthe Republican party.-Johnson has the offices to give out; he will give them to republicans who care more about office than principle; these republicans, combined with our own party, will constitute a majority, and thus we will defeat the Republican Union party."

In Maine, as elsewhere, the copperjohusons took a partisan view of the field, and forgot to take into consideration that portion of the people who are not partisans, and who look more to the real value and utility of a measure than to the bearing it may have on parties. The ons of Maine, reasoning from a partisan stand point, sent out-just before the election-congratulatory messages to their friends in different parts of the country, stating that they would elect Sweat, in the first Congressional district, certain, and probably two and perhaps three more in other districts. They based their calculation upon the fact that they had bought up half a dozen Republican presses, and had enlisted several thousand bread and butter Republicans in their ranks. But the sequel shows that the Republican gain over former majorities is at least 10,000; that the people are incorruptible, and are determined to demonstrate their disapproval of Mr. Johnson's insane and

impetuous course. PROMOTED.—We are glad to learn that Gen. and took the money, the President says that Hartranft, now Auditor General of the State, has received the compliment of a commission of Colonel in the Regular Afmy. This promotion was made at the request of General Grant. While the army will receive a good Colonel the Curtin will have to appoint an officer for the place thus made vacant. General Pennebecker, of Chester county, is mentioned as the probable choice of the Governor. He will make a good officer, and richly deserves this recogni-

tion from the "Soldier's Friend." Impartial Suffrage cannot be an issue n the Pennsylvania canvass. The address of the Union State Committee says: "The Constitution of Pennsylvania permits only white men to vote. By its terms it can be amended only once in five years. Having been amended in 1864, allowing soldiers the right to vote, it can not, in conformity with its own provisions, be amended again until 1869. It is hoped, therefore, our Democratic friends will resttain themselves, and not press negro suffrage upon us before authorized by the Constitution of the

A change seems to have come over the minds of some of the supporters of "my policy" since the Vermont and Maine elections. Many of them now frankly acknowledge that there is al amendment proposed by Congress. If they are honestly in favor of this amendment they will cast their votes for Geary and Thomas.

King Johnson is reported to have said that he does not care for the people or anything else-that he intends to carry out "his policy" at all hazards. Let the people give "the king" such a rebuke, on the 9th of October, as will make him tremble on his throne.

At Detroit, Mr. Seward put the question to vote in a multitude of men gathered in the street, "Do you want Andrew Johnson for President or King?" Do the Conservatives design bringing that question up in a different

Articles intended for exhibition will be car-

ried at regular freight rates and returned free. "HOURS AT HOME"- For October, is of more than usual interest. The leading arti-cle "Fulpit Talent," an address before the orter Rhetorical Society, at Andover, at their

late anniversary, is worth more than a whole year's subscription to the work. This is the most interesting number yet received. POLITICAL MEETINGS .- During the Fair last week, politicians took advantage of the crowd of strangers in town, by getting up ncetings on the square in the evenings. Wednesday and Thursday evenings the Republicans were ably addressed in front of the Engle Hotel by Judge Hunter of Tennessee, Col. Gibbon, Capt. Kilgore, Gen. McAllister, and by our own citizens, Dr. W. J. Romig and James S. Biery.
The Copper-Johnson Clymerites were ad-

dressed in trent of the Allen House by Hon. B. M. Boyer, O'Byrne, of Philadelphia, and by some of the newly fledged lawyers of our town. From the character of the speakers they put forward, we judge they are hard up for material, and judging from the character of the speeches and lack of enthusiasm, they are harder up for argument. Every prop ha been knocked from under them except the ocor negro, which is about the only string they have left to play on. Our reporter who was on hand presents the following as a synop sis of the speeches. "Mr. President-Constitution-Nigger-Andy Johnson-Nigger-Clymer-Nigger-Democracy-Nigger -Tax-es. Mr. President-I say Congress-Nigger -Southern Representatives - Nigger-States'
Rights-Radicals. Mr. President-Sir: I say nigger! Sir, allow me to say-nigger! And Mr. President, if I may be permitted to say—nigger! I would reiterate most emphatically—Nigger!! And in conclusion I take the liberty of saying once again-NIGGAH !!!"

MESSES. EDITORS: -On Monday night last, the locomotive, George Crane, belonging to the Crane Iron Co., ran off the track at Trexertown, on the C. & F. R. R., by reason of the switch being turned the wrong way. Nobody hurt.

On Saturday morning last, the locomotive, Cambria, exploded her boiler while standing on the track in front of the Crane Iron Company's works, raising steam. There were none of the hands belonging to her present, except the fireman, Mr. George Matchett, a brother of Capt. Matchett, who was oiling the engine at the time; he was scalded, cut and bruised badly, but is doing very well under the circumstances. His escape from instant death is a matter of astonishment. The ex plosion was caused by a defect in the boiler.

The Rolling Mill of this place has been stopped for a few days on account of some of the machinery giving out.

FAIR.—The Lebigh County Agricultural Society held their Annual Exhibition during last week. The display was equal to any ever made in this county and we believe hard to beat anywhere.

The cattle were very fine and the number entered for exhibition large, showing that though our farmers do not pay much attention to grazing, the stock they do raise and keep is of the best. All the live stock was most excellent, and the department allotted to that branch so full and so good as to give the Judges much trouble to tell which was the best. The display of poultry was very large and exceedingly fine, embracing nearly all the known kinds, The horses were fully equal in every class, to those of any other year.— In the House the display of Fruit and Veg-otables was very large and fine. Our country people must be very fond of good vegeta-bles and know how to cultivate them, judging from the quality of those on exhibition. The fruits cannot easily be beaten in any county

in the State. The Ladies Department was well filled with fancy work, exhibiting the ingenuity and taste of the fair sex as well as their love for display Tasto is necessary to render a home pleasant and happy-a trait the mothers and daughters of this county possess in a high dogree, and exhibitions of this kind tend to stimulate to greater exertions in preparing new patterns and styles, and perfecting them in the most beautiful manner. The specimens of Bread, Cakes, Pies, Jel ies, Preserves, &c., were nu

merous and looked very tempting.

The entries of machinery were numerous, many of them of new and improved patterns, weir adapted to the use of the farmer and mechanic; among others was a Steel Plow with a subsoil attachment, which our farmers will do well to examine and try.

The attendance on Tuesday was not very large as that was the day fixed for receiving and arranging the articles for display, but on Wednesday the grounds were well filled and all appeared to enjoy themselves. The new fountain was one of the attractions for a time, but soon lost its power among the numerous shows and curiosities on the ground. The snake charmer, flying coach, medicine man and other humbugs-did a thriving business.— Thursday the weather was cloudy and threatened rain which kept many away. The show-ery weather of Friday caused the attendance to be slim on that day. On account of the unfavorable weather the Directors resolved to continue the exhibition on Saturday, which day proved fair, and the attendance in the ifternoon was very large. The total receipts. of the fair were between thirty-six and thirty-seven hundred dollars. Our Agricultural Fair has become a great institution in Lehigh county.

Union MEETINGS .- The Union Repub. icans will hold public meetings as follows :-Saturday evening Sept , 29, 1866, at the house f Enos Shumaker, in the borough of Emaus. Friday evening October 5, at the public house of Horace Balliet, in Ironton, North White hall township. Saturday evening October 6, at the hotel of Alexander Guth, at Guth's Station, South Whitehall. To be addressed in the English and German languages.

REFUSED .- At the Union Republican County Convention, Lewis H. Roth, a one armed seldier was nominated for Register, and bis chino so announced. Last week, a letter was sent to this office, written doubt.ess with he consent of Mr. Roth, but not by him, nor signed by him, refusing to accept the nominaon. We have taken some pains to ascertain the reason, and find that certain Cops. had promised to secure him the appointment of Assistant Assessor, provided he would refuse and vote for Clymer. We feel sorry for him, he has served his country faithfully hour of need, and now to be cheated out of his reward is rather hard. His chances for elecion were as good as for the appointment. By his withdrawnl, he lost the first, and by the perfilly of the Copperheads he lost the latter. This should be a warning to soldiers and all others, not to place any confidence in the promises of men educated to falsehood and deception, and who never fail to apply that edu-cation in all the political relations of life.

(For the Register.) THE GOVERNMENT.

Your neighbor of the Allentown Democrat has much to say of late about "supporting the Government," and calls those traitors who do not support or denounce President Johnson's Policy. He argues that if it was treasonable to oppose President Lincolp, it must be treasonable to oppose Johnson, since it it were loyat to support one is certainly is disloyal not to support the other.

Now, who among the leyal ever did say that it was treason not to support President Lin-coln? or can the editor of the Democrat point to a line in any loyal paper during the war that reads thus: -

"Our Government is a Government of the people and the Congress is the popular branch or the people's voice, in the Government which is Legislative, Judicial and Executive, these three constitute the Government." During President Lincoln's time these three branches of the Government were harmonious

and a unit in a Policy, had a right to a policy, and the people in duty bound, supported the Government, doubly their duty then, because we were in a state of war. How is it now?-The Congress represent the people, and have a policy which they, being the Legislative branch of the Government, have a right to have, and it is the duty of the President and the cabinet to respect and not to disrespect the Congressional authority, and if the President has a policy to suggest, that he can consistently do, but he cannot as the Executive officer of the Government, dictate or enforce his policy. The President can veto the policy of Con cross, and that is why the Constitution gives im the veto power, for common sense teache that if it were Constitutional for the Presiden o enforce adverse measurer against the will o Congress, our Government is not a Republic but a Government of one man, and if so, a despotism. Nay, the President is not the Government, he is but the Executive officer of the Government, has placed himself antagonis tic to the people's branch of the Government and instead of his enforcing or pressing his policy, his province is to make suggestions re-lating to their policy, which if it does not suit him he can veto when necessary, and if he un-dertakes to set himself up against Congress, it becomes their duty to impeach him, they be ing clothed with that power, and not only are certain powers reserved to Congress, but constitutionally it is above the President, and hence can overcome even his veto, thus showing that the Congress and not the President is the branch of the Government to be supported when, as in the present case, the President sets himself against the Congress.

MONUMENT DEDICATION -The Solliers' Monument, erected by the citizens of Catasauqua and its vicinity, will be dedicated by appropriate ceremonies on Wednesday, Oct. , 1866, at 1 o'clock P, M. DISAPPOINTED.—The people generally were very much disappointed last week in consequence of the unpleasant weather during the days of our County Fair, but the disappointment was in a great measure counter-balanced by the satisfaction experienced in visiting the Cheap Cash store of Burdge & Jones and looking at the impense store of days goods and looking at the immense stock of dress goods they have just received, such as French Merinees, Scotch Plaids, etc., being the most magnificent stock ever exhibited this side of New York.

[From the Philadelphia Press.] Falsehood Corrected-Soldiers' Boun-

Sin: Every Copperhead orator, every Copporjoinson nowepaper in the State, persists in asserting that Congress has voted a larger bounty to the black soldier than the law gives to the white soldier. Now, let us look at the

facts of the case: Previous to the passage of the sets of Ju 15th 864 (section 2,) and July 4 1, 1854 (section 1,) but few, it any, of his colored troops were entitled to any bounty. These nots merely placed the colored soldier upon the same footing "as other soldiers of the reg-ular or volunteer forces of the United States of like arm of the service." L quote the exact words of the law.

The only discrimination that exists is in fa vor of the white soldier, who, by the act of July 28, 1866, is entitled to an extra Bunty of e hundred dollars, which the colored soldier does not get. These Copperjohnson orators and newspapers know, or ought to know, that these are the facts of the case. It is true that the colored man who served two years can get, and many of them have been paid, \$100 bounty; so has the white man; but the white man, by the act of July 28, 1866, is entitled to another \$100, which the colored soldier can-not get, as there were no colored troops in the service at the time for which this \$100 extra bounty is to be paid. This bill was signed by President Johnson, and it is rather strange to see the frierds of the President trying to bring liscredit upon Congress for passing a bill which he himself approved, and which would not have become a law without his eignature

Why is this ext a bounty of \$100 to the white troops not paid? The bill allowing it has passed both Houses of Congress, and been approved by the President. There is money enough in the treasury to pay it; and if it is not paid, it is the fault alone of the President
