Andrew Johnson, while priding himself upon his consistency, forgets that he telegraphed to the Provisional Governor of Mississippi, in July, 1865. that "the government of the State will be provisional only until the civil authorities shall be restored with the approval of Con

Keep it before the People !

The rebellion was begun and prosecuted by the owners and controllers of the Democratic party, with the sanction of Buchanan who furnished all the materials of war the Government then had control off, and all the money it could get for the purpose of destroying the Constitution and the Union, and setting up a monarchy with Jeff Davis at his head.

Secession meant the destruction of civil and religious liberty; the extension of human slavery, a strong centralized government founded on the compulsory labor of a part of the human race, and was participated in or sympathized with, by all men who had eaten of the bread earned by slaves. The organization of the Democratic party had for years been kept up by the labora of the negro, and so long as they ean keep him down they hope to compel him to feed as he has fed them.

Did Jeff Davis and his tribe carry on the war for the Union, if they did it has been destroyed for it has passed into history that they failed in their efforts in the field.

If democratic doctrine as announced by Senator Salisbury of Del., Representative Harris of Md., Valandingham of Ohio, and others, whose speeches have been published in the Norristown Register, the only authentic democratic paper in this District are right, then the Southern States were and still are out of the Union.

Leading Democrats don't believe that Jeff. Davis or any other man has committed treason, files of the Allentown Democrat will prove that.

How long since the Southern States were willing tolsend Bepresentatives to Congress ? How many of them have Governors elected in scordance with their own State constitutions so that they can sign certificates of election ? Negrosuffrageshould belong to the States and there is where the amendments recommended by Congress propose to put it so as to prevent negro representation and negro taxation without the sanction of the State.

Was not the war begun and carried on for the purpose of extending negro slavery by the Democracy?

Are not the Democratic presses and politicians owned, kept and maintained from the proceeds of pegro labor?

Democrats say that Southern States are entitled to immediate representation and should be given the control of the Government,

Was not that what the rebels fought for, and did they, not try to take possession of the national Capitol for the purpose of dictating laws for the Government of the people of the States? would they not have done so had not Gettys-

burg been on their road to Washington ? Did not the rebel army undertake to reach Washington with a full delegation of demoeratic representatives for the purpose of taking possession of the Government and running it as they please, and failed at Gettysburg?

If Sonthern men are the only proper persons to control the Government, why were they not so before the battles of Antietam, Gottysburg, the Wilderness, and many others ? What was the use-of those battles and the loss of life and expense incurred in fighting them if Democrats are right now ?

claimed that one traitor was equal to ten Uni-on men,-quite a coming down. He also dwelt at length on the appearance of Conven-tion of Sou hern Loyalists in Philadelphia; and the fact that Fred. Douglas, a negro, paraded the streets in the procession in open day light. It being daylight was the great offence. His party paraded with Negresses after dark, that is the difference. Fred. Douglass' father was a Democratic Governor of Maryland -Why should it be such a disgrace for the son to walk the streets of Philadelphia in a pro-cession by daylight. If the negro is degraded. the Democracy are responsible, for they have controlled them and mingled their own blood among them freely. Mr. B., followed the in. battle, on the side of his country. (For the Register.)

These two men were DAVID .THOMAS, the Republican nominee for Congress in this district, the other Mr. Crane, then a large iron manufacturer in Wales, by other materials.

It is a curious theme to speculate upon, what Lehigh county would be, were it not for the huge iron works. No railroads to intersec her-no busy population of mechanics and la borers employed at these works, who would consume all the farmers raise, paying good rices, because they get good wages, and they oring into existence stores, that vio with those of the large onties in extent. No Allentown or Catasauqua or Norristown, no newspaper, nor anything else but a plain farming country, where the farmer would have to haul his products to a market. Pleasant comtemplation s it not ? What do we see on the other hand before us ? By the genius of these two men, our county has a perfect webbing of railroads, the bowels of the earth have been penetrated in thousands of places by honest toil, to bring forth its riches, to ameliorate the condition man. Cities.towns and villages have sprung up.as

if by magic. Farmers have a market compar atively at their doors, for all they raise on their land, commerce is sustained by it, all mechan ical opperations thrive by it ; and honest toil reaps the greatest benefit of all. Oitizens of Lehigh and Montgomery coun-

ties! Do you not owe it to yourselves as men, to vote for David Thomas to represent you in

Congress? Look around you and see the thriving towns and villages that have sprung up through him more than any other man; Look upon your tertile fields, and contemplate what further toil would be required to make their products available, if it were not for the Iron Works around you? Contrast the claims of David Thomas and B. M. Boyer. What has the latter ever done for you? What will he He is a lawyer by profession, a man who has not added one cent to the real wealth of the country, and thrives best when others

In David Thomas you will have a man in whom you can safely trust. With an unsulli-ed name, spottess integrity and unflinching I think the District would utterly disgrace itself, by ignoring the many benefits conferred upon it by Mr. Thomas CATO.
