JACKSON'S WASHING COMPOUND!

THE undersigned wishes to announce to the public that he has taken the Agency of this valuable compound, and now offirs FAMILY RIGHTS for sale. This Compound has in many places almost universally come into use, resulting in a

Great Saving of Labor and Time, and proving far less destructive to wearing apparel than the old mode of washing. By this method the Finest Linens, Laces, Cambrics etc., can be readily and easily cleaned with very little trouble. No need of rubbing the skin off your hands and tearing the clothes to pieces. It will wash in hard and soft water. Clothes need boiling but a few minutes, and but very little if any rubbing with the hands; thus avoid their wear on the wash-board. It removes Paint, Grease, or stains of all kinds. It does not injure the color.

does not injure the color.
It is not only better than ordinary soap, but much cheaper. Give it a trial and you will use nothing che. It positively will- not injure the clothes, as many have given it a fair trial for several years, and it speaks for itself. The compound cannot be sharp when every pound of ingredients requires 50 gallons

Scrofula, or King's Evil, CONSUMPTIVES is a constitutional disease, a corruption of the blood, by which this fluid becomes vittated, weak, and poor. Being in the circulation, it pervales the whole body, and may hourt, out in disease on my part of it. No organ is from its attacks, nor is there one which it may not destroy. The scrotulous thint is variously consed by my margin disease, how living discoused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will wish the faithful the faithful

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sorces. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that serofulous consitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is lundermined by it.

ill visit the iniquities of the fathers

To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise.
Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everyskill of our times can devise for this every-where provailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enuprive and Skin Diseases, St. Anthony's Fire, Rose, or Envirence, Physics, Purples, Pustules, Right and Bolls, Tunons, Tetter BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATION, SYPHILITIC and MERCURIAL DIS-RASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

AYER'S Ague Cure,

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, Indeed for the whole class of diseases originating in billary derangement, caused by the Malaria of Miasmatic Countries. We are enabled here to offer the community a

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Curr" expels the miasmatic poison of Fryrh and Adult from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fruen and Adult prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the mlasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindiness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curn" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occa-

them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Prepared by Dr. J. C. AYER .: CO., Lowell, Mass. All our Remedies are for sale by all the Druggists in Allontown, and by Druggists and dealers everywhere. At Wholesale by J. M. MARIS & Co., Philadelphia.

Hay 22 1856:

DR. J. H. SOHENOR, SOUTO

DR. J. H. SOHENCK.

DRAB SIR: — I feel it a duty I owe to you, end to allegho ato suffering; under the diseases known as Ochsumption and Liver complaint, to let them know what great benefits I have received from your Palsionio Syrup and Seaweed Tonic in so short a time. By the blessing of God it has cured me thus far.

Dr. Schenck, I will now make my statement to you, as follows:—About eighteen more its and inches with a severe cough; and it at a year inched with a severe cough; and it at a year inched with a severe cough; and it at a year inched with a severe cough; and it at a year inched with a severe cough; and it at a year inched with a severe cough; and anything I at year inched with evening fevers and night seems. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did est; bowels awollen, irregular and coative. I was very low playing when I laid down at night and when I aros. in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was diseased or devanged. Such we's my situation at this time, and I was confined to my bed from the last of February, 1862, to June. 1802, not able to sit up. I had the best of medical attendance the whole of the time. My copph was so very bad that it racked me very much I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood, and it was generally accompanied by nausea and a furred and thick coated tongue. At the time of coughing so hadly I would have sharp, shooting pains in my left side and heart, night sweats, and soreness at through my whole ohest; had much inward ieverly pain in my back and under my shoulder blades and in the email of my back, and at times so severe that it would throw me into sparens. Now my physician gare me up to die. Others I had, and the best of in the small of my back, and at times so severe that it would throw me into sparms. Now my physician gave me up to dio. Others I had, and the best of them, that they could do nothing for me, and at that time I was nothing but skin and bones. I then was in the western part of Missouri. In June last we jeft there for the East, and in Angust last we came to Now York and I was so reduced that I could only wait'al little with my husband's help. After I had been here a short time the sait water breeze made une feel much better for a time, and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, the doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of snything. In November last I grew worse, and the consamption diarrhea set in and lasted about eight weeks. We had tried all and everything that I could gracp at like a dying person for my diseases—consumption and liver complaint—but of no avail.

my diseases—consumption and liver complaint—but of no avail.

In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the liast of the week, and brought the Sunday Mercury. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well gain, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1863, my husband called on Dr. Echenck, 32 Bond street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the require test. the respirouseter. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, both lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid Fills in small doses at least to carry on the mornia matter, and ten, with astringents, he hoped to check it wilch he did, but the constant coughing, night swen s, and diarrhea; had prostrated me so that he was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration, there were lungs enough left to recover. He wished me through my system to cause expectoration, there were lungs enough left to recover. He wished me to try the Pulmenic Syrup and Fesweed Tonic at once, saying it would do me and harm, if it did me or once the system of the first week it seemed to give me etrength, so that on Sunday after I sat up in hed and are hearly for a sick woman; but the next week I lost all hopes and wished my husband not to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the evetom it made them feels somewhat clearing out the system it made them feel somewhat restless, and to persovere; and he insisted on my taking it; and now I feel the benefit of it. For af-ter eight days I began to gain my strength, and, with the exception of a cold that took me back some, with the exception of a cold that took me bank some, I have been gaining strongth of body, my cough is going away, and all my pains are gone; no soreness of the body, my howels are regalar, and my creath is sweet, and I thank G d that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appotite and reat well at night; my cough does not trouble me in getting at night; my cough does not trouce the in Secting up or lying down. I would now say to the sflicted, with consumption or liver complaint, that Dr. Schneck is no humbur. You can rely on what he says. Delay not; it is dangerous to this with these diseases. If you would be cured, go at once; striet, Now York city.
MRS. MARY F. FARLOW.

We the undersigned, residents of New York, are acquainted with Mrs. Farlow, and know her statement to be true. We also know that she used Dr. Schenck's Pulmonic Syrup and Scaweed Tonic, and have reason to believe that to this medicine she ree her preservation from a premature grave. B. FARLOW, 117 West Houston st.
