An Assurance.-Some persons have ex pressed their bollef that THE REGISTER gives such an extraordinary amount of reading matter non only for the purpose of increasing its subscription list, and that after we run up our list a thousand more, it will be covered with pictures of huge stoves, cows, horses, boots, shoes, etc., and our reading matter will suffer in consequence. Of course we must have advertisements to make the establishment pay, and we will distigure the paper by flly executed engravings as little as possible, but our subscribers need not fear that we will not give them all the reading they require. If our reading matter is encroached upon by advertisements, we will not only raise our advertising rates, which will induce advertisers to contract for less space, but will increase the length and num ber of our columns. Now is the time for merchants to make advertising contracts for the year, while our rates are so law. If we have too heavy a rush upon us we will make The Register th argest paper in the Lehigh Valley. Since we have assumed the management of this paper the number of new subscribers booked by us has excceded our most sanguine expectations. We invite everybody to send in their names. We have

The object of the Association is to improve and elevate the German press, and to promote the cause of education among the German population of the State. SAD FIRE. -On last Friday night, the two story log house of John Frey, in Welsenberg township this county, was with all its contents, destroyed by fire, which it is thought originate from a stove pipe. The family had barely time to escape and lost their wearing apparel. Two of the children, who were sick with measles, were carried from the house in a half-clothed condition The loss falls heavily upon Mr. Fry as there was

no insurance.

THE BROADHEAD MURDER.-Judge Share ood, on the 9th, while sitting at chambers i Philadelphia, was applied to by the counsel in the case of Brooks and Orme, now under sentence of death for the murder of Thomas Broad icad, at Delaware Water Gap, for a writ of erro the application being based upon the point that the fact of Mr. Broadhead being a citizen and attempt ing to make an arrest reduced the crime to man slaughter. The Judge decided to hear the argument on March 1. There are some features in this case which promise to give rise to trouble. Thes men were sentenced on January, 2, and they were given from that time until February 2 to assign casons why the death warrant should not receive

the signature of the Governor. Governor Geary on Thursday morning received Melal information from the Supreme Court of the application for a writ of error and has accordingly ithdrawn his warrant, which fixed February 26 as the day of execution.

A LIBERAL OFFER FROM THE APPLETONS. -The establishment of libraries by charitable enlowment, or the co-operation of intelligent, public-spirited citizens, is a subject that should receive general attention. As a purifier of morals, n means of popular education, a relief of crowded risons and almshouses, a direct promoter of the eace, happiness, and wealth of communities, the school. It appears, from signs cropping out here nd there, especially in the West, as if the times were propitious for the furtherance of this great by D. Appleton & Co., who have received, recenty, many inquiries from different States, asking to e informed as to the best method of founding libraries, and selecting books. In response to the wide-spread feeling thus shown to exist upon the subject; and to give it powerful impulse, they have determined to offer a direct and substantial encouragement for the formation of public librarles in all parts of the United States. The plan which they propose is, in scope, liberality, and precise adaptation to the beneficent end sought to be accomplished, unparalleled in the history of

public enterprises. It is as follows: The Appletons offer to give free, what may be called the foundation for libraries everywhere. They will present to each club of persons desirous of forming a public library a complete set, in 16 volumes of their standard New American Cyclopædia. Is great national work, the only publication of the kind, is one which organizers of libraries usually buy first of all books, because it is the one most often consulted by persons of all classes and vocations, in search of reliable infor- and Dealer in Grain, Feed, Coal, Wood, etc., sells mation on all kinds of topics. In one sense, the Cyclopædia is in itself a library; so that from the start, the Clubs will have the better part of what they wanted for nothing. The only return usked by the donors for this munificent gift is, that the Club shall proceed to raise and expend not less than five hundred dollars to buy other books. In other words, that the Club shall build the superstructure on the foundation laid by the Appletons In the selection of suitable books by hands experienced for many years in the making of libraries,

The Cyclopaedia thus becomes literally a This extraordinary plan, so far as it has been ubmitted to the judgment of individuals, meets with unanimous approval. When it comes to be generally known, it cannot fail to elicit prompt cognition and thankful acceptance from the in abitants of hundreds of cities, towns and villages, in the United States. The Pottstown Ledger says, "The wise policy of our Commisdoners, during the war, it levying and arranging their taxes, can now fairl; be seen, and is generally acknowledged." It is with a grateful feeling that I feel able to make the following statement for the benefit of those who are suffering fron Scrofula and other Chronic Diseases." My wife and been suffering for several years from tumors of swellings on her neck which after a time would father and discharge matter, leaving a running tore. She had been treated for more than a year by most eminent physicians without receiving any permanent benefft, her disease becoming werse, until she had five of these running sores on hir neck, when I employed Dr. H. D. Longaker under whose treatment she commenced to improve very fast, the sores on her neck to heal, and all her unpleasant and disagreeable symptoms gradually to disappear, until her health was restored, which was in ut four months. I feel perfectly justified, after having tried the treatment of other physicians, in recommending all hose who are suffer-ing from Scrofula or Chrinic Diseases to Dr. Longaker for medical treatment, with a firm bellef that they will be satisfied, benefitted and cured

thereby, as my wife has been.
