THE CITY.

Enforced:-The orders of the new mayo instructing the police to prevent corner loafing and street lounging, are being enforced.

Telegraphic.—The Deleware River Tele graph company have put up their wires and opened an office on the southwest corner of Sixth and Hamilton streets, 1 116.

Resignation and Appointment,-Phaon E. Leimbach tendered his resignation as Police Officer Third Ward on Wednesday last. The Mayor has appointed Moses Schandt to fill the vacancy Lost His Money .- George Herbster,

He indulged rather freely, and during his stay with is either lost or was robbed of his pocket boo containing about seventy-six dollars. Banking .- The attention of persons having money to deposit on interest is called to the advertisement of the Allentown Saving Institution.

This is one of the most successful and best managed Savings Banks in the State. Removed .- The book and stationery store of E. Moss, has been removed from 31 to 35 West Hamilton St., three doors below Eighth. He is closing out his stock of wall papers at cost. Per-

sons who intend papering should call at his store and secure bargains. Holidays .- Good Friday and Easter Monday were both observed as holldays in Allentown and both were as stormy and disagreeable as any one could desire. On Monday the stores were closed in the afternoon, and the new lodge roo

of the Knights of Pythias was opened to the public. Police Items .- An intoxicated man named Michael Kenna, was arrested on Saturday night for disturbing the inmates of a house in the Fourth ward. He was fined four dollars and released Smith was arrested on the same evening for having conducted herself in an unbecoming

Notice to Subscribers .- Our subscribers are requested to remember that we have purchased the subscription books of THE REGISTER office and settlement of all back as well as advance subscription must be made at this office. We have authorized no one to collect for us. We give this notice, not as a dun, although money is always acceptable, but for the purpose of having our subscribers pay their indebtedness into the right hands when they are andy to settle up.

Larceny .- " The course of true love never did run smooth," so in the case of a young lady at the Pennsylvania Hotel. She had a "feller" on Saturday evening who relieved her of several finger rings, a pair of ear rings and breastpin. Thus the "lovyer" was amply repaid for the time lost whilst in company with the fair damsel. Maidens should be careful and not associate with the young bloods of this city, unless they be known to them.

Election of Officers .- At a stated meeting of Jordan Division, No. 380, Sons of Temperance, held Monday evening, March 20th, 1869, the following were elected officers to serve for the ensuing term :- W. Itemizing.-Allentown is brimful of news and if we published a Police Gazette we could rival New York publications of that character. But we don't and it requires the greatest caution to keep out all the items that might shock the feelings of the community. We might have pubed the elopement of a young married hotel clerk with a homely hotel waitress; the brave adventures of a demi-monde and her subsequent grief in limbo: the flight from virtuous indignation of remarks took his sent. arber; the downfall of virtue and the triumph of Satan, etc., etc. Or we might go into the country and take notes of the intrusion of the spirit inferno upon the sanctity of an old church, d chronicle the schism which is making it use less for the purpose for which it was creeted. But we believe the spreading of such news makes

blunted. Verily, the world is wicked and the millenium is far distant. Hotel Rumors. - We have it from good authority that a new hotel is to be opened town shortly, to be conducted on the European plan. That such an institution, if conducted properly, would pay handsomely there can be no It has been said that the European play was to pay so much for a room that the guest had nothing left to pay for anything to eat, but we are confident the gentlemen having this matter is harge will not only furnish comfortable rooms but the best fare the market affords at the

If the stel is constructed on the plan of the Continental, of Philadelphia, and other modern first-class houses with palatial stores on the first floor, it will prove

a success. First of April.-To-morrow is by cusin the country. Considerable anxiety is manifest ed to see it over and in a short time we shall be able to discover that briskness of trade and plenty of money which are expected to follow the great annual settlement. Immense sums will exchange hands but we hope those numberless little bills upon which newspaper publishers so largely depend will not be entirely overlooked. While our own business has increased manifold our expenses for labor, material, etc., have increased proportionutely, and the prevailing system of credit has thrown a large amount of money upon our books. We have run this establishment only three months, but through our purchase of the old subscription books from our predecessor, the amount due us for subscription, taken in the aggregate, is no inconsiderable item. Therefore, we say, do not look upon small bills with contempt, but rememb that money is always acceptable and required in

Allentown is not only a city in name, but it fact. Like its sisters of larger dimensions buildings in the business parts are occupied from garret to cellar by parties engaged in manufacturing and selling. Second stories reut for as much as firs floors do in many towns no larger than ours. A new building barely receives its roof before the owner is besleged by applicants for Store room Although on Hamilton street real estate is worth fifty dollars an inch. within the past year many cautiful store buildings have been creeted, and long the more recent a block of three double our story stores at the corner of Eighth and Hamilton streets. For size and beauty they will compare favorably with some of the largest business uses in the large cities. The corner store was built by Samuel Anewalt and is now used by hin to carry on the wholesale and retail hat, cap and fur business. The centre one was built by Charles Outer who receives an annual rent of twelve hunired dollars from Young & Co., who will stock it with an immense assortment of hardware. We understand they will soon erect a large warehouse Whitehall, came to Allentown to enjoy himself. at the rear. Richard Walker built and now oc cuples the third store, and the variety and quantity of his china and glass-ware will be in keeping with he store. No better assortment at more reason

able prices can be found anywhere. In the Supreme Court - An important case The Dimes Saving Institution against the Allentown Bank, has been in the Supreme Court three times and in each instance the decision of the Court below has been reversed and the case returned for

a new trial. We give below a brief abstract of its a now trial. We give below a brief abstruct of its history:—
This case, was brought in the Common Pleas' of Luigh County, August Term, 1801, No. 128. On the 10th of December, 1806, Mr. Bush, Cashler of The Dimes Baving Institution, left at the Allentowia Bank a bag of old columentaling #487. It was left here by agreement: It was agreed that it should be sent by Express Company and sold to Cronise & Co., Philadelphia. The proceeds were to be returned to Allentown. On the 18th of December, 1880, Mr. Cooper received from Cronise & Co. a statement of the coin shipped and credited the Dimes Baving Institution with \$492.75. The Dimes Saving Bank upon notice of credit, charged the Allentown Bank with said amount and drew checks thereon. Afterwards Mr. Cooper (Cashler of the Allentown Bank) directed the Express Company to leave the proceeds with Cronise & Co., and directed that firm to deposit them in the Manufacturers' and Mechanics' Bank, in Philadelphia, for the use of the Allentown Bank. It appears this action on the part of Mr. Cooper was unauthorized by Mr. Bush, and was without the knowledge of the Dimes Saving Institution.

Cronise & Co. omitted to make the deposit until the 22d of December, 1860, on which day the Manufacturers' and Mechanics' Bank credited the Allentown Bank with \$492.23, and informed Mr. Cooper of the credit. It seems that the credit was given on the betek of Cronise & Co. drawn on the

unacturers, and Mechanics, Bank credited the Allentown Bank with \$493.23, and informed Mr. Cooper of the credit. It seems that the credit was given on the check of Cronise & Co. drawn on the Farmers, and Mechanics, Bank, of Philadelphia. The check was received as cash and the credit given. The check was taken without endorsement or guarantee, and protested December 20th, 1800. The Allentown Bank by this suit sought to be released of the credit of \$492.72 given the Dimes Saving Institution December 13, 1800. On September 18th the case was called for trial, the jury finding in favor of the Dimes Saving Institution. November 9, 1805, the Court on its own motion directed a rule to show cause why a new trial should not be granted. April 13, 1807, verdict set aside and a new trial granted. November 5, 1807, ease again called for trial. The jury found in favor of the Dimes Saving Institution. P aintiffs sue out a writ of error. May 6, 1808, the Supreme Court reversed the judgment of the Common Pleas, and awarded a new trial. June 8, 1808, the Supreme Court of the part of the plantiff Allentowick Park Saving Carlett in favor of the plantiff Allentowick Park Saving 1810. he jury rendered a verdict in favor of the plaint wn Bank) for the sum of \$714.26 and costs

GAS COMPANY .- A special committee of the New York Legislature, appointed to examine into the exorbitant charges of the New York and Brooklyn Gas Companies, have prepared an claborate bill, regulating the illuminating strength, the pressure and the price at which gas is to be furnished by the companies to the public. In commenting upon this bill, the New York Post says 'if monopolies are to be sustained by the Legislature in this business, perhaps the Commission proposed, 'of three eminent chemists' at \$5000 a year each, may do something to secure us decent lights. But why not throw the business open to the world, and let those who want to make gas sell it freely? Why should profits, which the coulmittee represent at from fifteen to one hundred and thirty per cent. be secured against competition to a few privileged owners of stock ?"

Seven Months' Business .- The amount of business transacted by the National Life Insurance Company, during the first seven months of its operation—from August 1st, 1808, to February 28th, 1869-was astonishingly large, and speaks well for the estimation in which the Company is held by the public. In the time named, this Company issued 3;532 policies, representing insurance to the amount of \$10,605,550, and costing about \$400,000 in annual premiums. This was done de spite the manifest disadvantages of a period of organization of its agencies, and of the unusual financial stringency which has widely prevailed

within that time. The policy of the National Life, which has been thus strongly endorsed, is to put insurance upon a simple and positive business basis of low cash pay, ments for a specific return. It guarantees so much insurance for so much money, avoiding all the difficulties or uncertainties which may attend the ssuing of notes from those insured, or dividends to policy holders. By its low scale of cash rate it is claimed that a dividend is in effect paid in advance, and that this practice is more simple an satisfactory than can be those higher rates of pre nlum which are based upon the probability of re paying the insured, at some future time, a part of the amount first charged, in dividends upon their policies. Upon the "mutual" plan, the amoun f insurance which, as noted above, cost \$400,000, would have cost \$600,000; so that a dividend of 200,000 has really been made in seven months

time—a record unprecedentedly large.

The advertisement, in another column, of the local agent of this Company, is of interest to all contemplating insurance.

PRESERVATION OF WOOD .- At the annual neeting of the Bucks County Agricultural Society attention was called by Edward Williams to the necessity of ascertaining and using some method of increasing the durability of fencing timber, which is now growing scarce and dear in this region. It is indeed a subject which our farmer cannot consider too carefully, for the sake of their own interests. Since that meeting, our attention has been called to an invention lately brought for ward by L. S. Robbins, of New York, which may be found to meet the requirements stated by Mr. Williams. This new process, by which wood i treated so as to render it imperishable from ro or ordinary decay, is said to be exceedingly simple and economical, requiring no expensive apparatu for exhausting and compressing, as in other modes practiced for the same purposes. The greenes wood, whole or sawed into lumber, or shaped as desired, can be placed on a car, run into an iron chamber, shut up and subjected for a few hours to the hot vapors of common coal-tar issuing from retort or still placed over a furnace outside The heat of the vapor is such as to expel all the sap and moisture from the wood, and in this state its open pores become charged with carbonic acid (creosote) and sealed up by the oleaginus or bitu minous compounds, so as to render it ever after impervious to moisture. In this condition, charged against moisture, wood can never rot. Neither wil

and, as it were, tanned by the crossots and scaled t ever be attacked by mould, insects, or those marine animals so destructive to ships, wharves, or plers. Besides this grand object of preserving wood against decay, &c., others of great import ance are attained, namely: a perfect scasoning and additional strength, amounting in different kinds to 37 and 50 per cent. of supporting power. Wood, even when treated in its greenest condition never afterwards shrinks, or swells, or cracks, or warps-proving that it is perfectly impervious to noisture. Hubs of carriages made of green wood ssume the appearance of lignum vitie, and never shrink or crack. Panelled doors, window sush and bilnds, never show the least sign of shrinkage after being treated, though made of unseasoned wood. An old railroad freight car, or new one made of perfectly green wood, may be loaded with ties, shingles, posts, or other lumber, trundled into an iron chamber, subjected there to the hot vapors of coal tar, and, after six or eight hour's treatment, be drawn out perfectly seasoned, primed for painting, and protected from shrinking and decay. We have seen no statement of the actual expense of treating wood in this manner, but to be made generally available the cost should be made made as low as possible. As is mostly the case, the invention is in the hands of several companies,

the public at large, even should it prove to be as valuable as is represented .— Bucks Co. Intelligencer PREVENTION OF CRUELTY TO ANIMALS .-Our State Legislature has done a good thing in passing a bill forbidding the abuse of animals either by beating or overloading in the case of beasts of burden, or by fighting dogs or fowls under severe penalties. The bill originally applied only to Philadelphia, but was extended over tha whole State. Its provisions are as follows :-

AN ACT FOR THE PURISHMENT OF CRUELTY TO ANIMALE IN THIS COMMONWEALTH. SECTION 1. Be it enacted, That any porson who shall within this Commonwealth wantonly or cruelly Ill-treat. verload, beat or otherwise abuse any animal, whet belonging to himself or otherwise, or shall keep or use, or in any way be connected with or interested in the manage-ment of, or shall receive money for the admission of any person to any place kept or used for the purpose of fighting or baiting any buil, dog, cock or other creature, and overy person who shall encourage, ald or assist therein, or who shall permit or suffer any place to be kept or used, shall be deemed quilty of a misdomeanor, and on being couvieted thereof before any alderman or magistrate shall be fined by the said alderman or magistrate for the first offence in a sum not less than ten deliars nor more than twenty deliars, and for the second and every subsequent offence in a sum not less than twenty deliars nor more than flry deliars, to be paid one-half to the informer (who shall be a competent witness notwithstanding) and the other half to the county continued for want of support. The editor in his valedictory says:—

"We saw Hamburg rapidly increasing, and thought that that magnanimous public spirit which is the pride of all intelligent communities, and the support of newspapers, and general literature, would proportionately manifest itself in our midst.

But instead of this, we found to our cost, that the large majority remained wholly destitute of that magnanimous spirit. The fact is, a very large portion of the people are not sufficiently educated in English to render an English paper that support which it requires. MISCELLANEOUS. -An aged lady named servedly good objects should have to be bolstered tried to get one up and has postponed the drawing from time to time with the hope that the lickets, would be taken. Are the people getting sensible and refusing to patronize or will the 1st of April develop more fools?

-The Odd Fellows and society men sent in uch a long array of names to a petition to the M. E. Conference to return Rev. J. S. Cook as Pastor of the Church here, that the prayer was granted and he is with us another year. He is greatly respected and beloved not only by his own church people, but by all classes of people hereabouts.

-In the absence of the editor of the Free Press in Washington, we get very little news and very poor selections, and long "musical war" munications in that (generally) spicy paper. We hope he will be back shortly with the Post Office in his pocket, although rumor by telepraph has it that Mingle is the fortunate man.

MONTGOMERY COUNTY.

-The Democrats elected Joseph E. Yeager lurgess of Pottstown by the small majority of twenty-four. The whole vote polled was the largest ever cast at any municipal election in Potts town, being 710, though it was about 150 less than the poll at the last Presidential election.

> The time was when Life Insurance was looked upon as a matter of interest only to the rich. That day is gone by; and while it is certainly one of the very best investments a capitalist can make, it concerns men in humbler circumstances even more than it does those who are able to make provision for their families independent of any such contrivances of mutual risk and help. The man who can save only twenty or thirty dollars a year, out of his earnings, has little hope of having anything to leave to his family, though he should live many years. But if he were to invest that small sum in a policy in "The American Life Insurance Company of Philadelphia," he would have a little fortune to bequeath at his death, whether he dies to-morrow or twenty years hence.

Consumption Can Hs Gursch,—An Eastern medical periodical gives an interesting account of the complete cure of, Mrs. Amos Stauffer, of Manor, Lancaster country, Pa., of hereditary Consumption. Her parients and swerzel brothers and sisters died of this terrible disease. Mrs. Stauffer was herself reduced to a mere skeleton; the pulse at 140; her breathing painfully difficult; expectorations very excessive, diarrhea worse than chronic, and her condition so hopeless that at scotforestoe of the 543 and skillful physicians she was pronounced incurable. At this stage of the disease, Dr. S. B. Hartman, of Millers ville, Lancaster country, Pa., a physician of furticen years standing, prescribed Mishlers HEBB BITTERS. The patient soon experienced a pleasing invitorating sensation Consumption Can Be Cured,-An Eastern medistanding, prescribed MISHLER'S HEAD STITUTE. And patient soon experienced a pleasing invikorating sensation throughout her system, and encouraged by her friends to continue under Dr. Hartman's treatment, she did so, gradually improving under increased doses according to her strength, until she entirely recovered. Mrs. Stauffer is still living, in the full enjoyment of perfect health. C. II. HERF, Eag., President of the Lancaster County (Pa.) National Bank, substantiates the particulars of this most

My wife had been suffering for warmattings on hornock which after a time would gather and discharge matter, leaving a running sore. She had been physicians without receiving any permanent ben cfit, her disease becoming worse, until she had five of these running sores on her neck, when I cm ployed Dr. H. D. Longaker, under whose treatment she commenced to improve very fast, the sores on her neck to heal, and all her unpleasant and disagreeable symptoms gradually to disap pear, until her health was restored, which was in about four mouths. I feel perfectly justified, after having tried the treatment of other physi cians, in recommending all those who are suffer ing from Scrofula or Chronic Diseases to Dr. oncaker for medical treatment, with a firm be-
