his course of lectures on Anthropology within a few weeks, at the Court House. Tickets for course of five lectures \$1.00; single tickets 25 cents. No Excuse. - Even if Republicans do steal, or did steal, one hundred millions a year, that is a very lame justification for the stealing of fifteen

hundred by Democrats. Moving Accident .- Mrs. William Honsberger was thrown from a loaded wagon, on Thursday last, by the horse making a sudden jump. She received a concussion of the brain and was in-

We have found a good barber in Allentown, and it is a pleasure to it under the careful handling he bestows upon his customers. If our readers wish a good shave, a shampooing, or their hair cut in style we advise them to secure the perfection of the Tonsorial Art by calling on Wm. W. Able, No. 32 West Hamil-

The Twenty-fourth of May .- This day will e an important one to the City of Allentown The Legislature has not declared it a legal holiday and we suppose the banks will not be closed, nor business of any kind suspended, especially as storekeepers will expect to reap a big harvest from the large number of strangers who will be in town. The occasion of all this influx of people will be th long-expected drawing of the Columbia Gift Enterprise. The auxiety to know who are the luck ones will be intense, and lest the opportunity to draw a great prize should be lost we advise the reader of this to step up to the desk of the Columbla at once and buy one or more tickets.

Important Decision of Court. - Judge Longaker on Monday morning delivered an opinion in the matter of the report of viewers assessing the damages occasioned by the opening and widening of Second street in this city.

The City Councils passed an ordinance some time since directing the opening of Second street

between Hamilton and Union. Viewers were duly appointed by the Court who assessed the damages, but for some slight legal informality the report was set aside. Another set of Viewers were appointed who reported damages to William Berkemoyer, Josiah German, Mrs. W. F. Scholl, and others. To this report exceptions were filed by nearly all the parties interested. The parties also presented petitions for Review. The Court overruled all the exceptions except those filed by Berkemoyer, and as to his damages another

view was ordered. The Court further decided that a Review could not be allowed. A great number of legal questions were involved in the case, and the opinion of Judge Longaker was able, giving a clear review of the law upon them When the damages are assessed to Berkemoyer by a new jury we suppose the case will be

Just now the slate business is rather dull in this part of he country, very little was done in the slate quarries during the wister.

new factory in a short time. The quarry is in first rate condition.

There was an assignce sale at the Colebach State Quarry, near Steinsville, last week, but it appears that the highest bid was not high enough, and the sale is postponed until some time in April. C. Faust's quarry, near the same place, stands still since last summer. Why such a good quarry, in splendid condition, with all the machinery complete, is not worked, is a strange thing.

It is reported that the White Hall Slate Company, in the upper part of the Township, intended to start their quarry again as soon as the weather permits.

Corn-colored kids are the style. The most popular man in Easton is Rev. J. S. Cook. The conference returned him the third time to Easton and his friends were ready for him They caned him-a gold headed one-and suited him exactly with an order on the tailor for the best suit of clothes that Easton can develope Who wouldn't be a Domine? It is hinted that the legitimate drama is to be

slightly improved. In future Mazeppa, or the Wild Horse of Tartary, is to be performed with a Wild Velocipede and Mazeppa is to be bound hand and foot and started down the hill, on the back of two-wheeled horse. To convenience the velocipede mania our old proverbs have to be slightly altered as thusly: 49.Set a beggar on a velocipede and he's likely to

break his neck." A committee are at work at tempting the revision of the proverbs. A fire-safe man says it won't do, that the "Fire-proof of pudding is in the heating of it." DELAWARE. MONTGOMERY COUNTY. -The Colebrookdale Railroad is progress-

sided in Bucks county. -The work of building the Edge Hill Furnace is being pushed rapidly forward under the Bogus.-So many people are fooled into superintendence of Isaiah B. Houpt, of Norrisending a dollar or two to some stranger with the town. The engine house is completed and con senaing a dount of two works which the expectation that he will be philanthropic enough tains an engine of 850 horse power. One stack, 16 feet at the base and 110 feet in height is also finished. Another of 120 feet height is partly done. The building to be used for lifting is up to the the United States. We hope its warning may be height of 40 feet. A portion of the walls of the moulding house is also up. The foundation for the bollers is ready and the machinery in part is eing delivered. The main feature is the furnace which it will be recollected fell in last fall. The oundation is 17 feet and the walls are now up to the height of 30 feet. When finished it will be 75 feet from the surface. A portable engine is used to hoist the material in putting up the walls, which greatly facilitates the work. The works cover an area of perhaps nearly an acre of ground, and when completed will be the largest in the State. In addition to this 16 substantial three story stone houses have been built, and 14 more will be put up during the season. These are intended for dwellings, to accommodate the workmen employ ed. About one hundred hands are now engage at work. Mr. Hount personally superintends the vork, which when completed will be a living mon ument to his mechanical skill. The ore is found car the surface in large quantities in this section of the best quality, and yields in some instances 90 per cent. The supply seems inexhaustible, and

the Company can procure it all around them. CITY NOTICES.

Scrafula, Salt Rhum, Skin and Female Diseases,

Warranted cured .- See testimonial :-Salisbury Township, Lehigh Co., Cot. 31st, 1868. It is with a grateful feeling that I feel able to make the following statement for the benefit of those who are suffering from Scrofula and other Chronic Diseases. My wife had been suffering for several years from tumors or swellings on her neck which after a time would gather and unamental matter, leaving a running sore. She had been matter, leaving a roar by most eminent which after a time would gather and discharge treated for more than a year by most emine physicians without receiving any permanent benefit, her disease becoming worse, until she had five of these running sores on her neck, when I employed Dr. H. D. Longaker, under whose treatent she commenced to improve very fast, the sores on her neck to heal, and all her unpleasant and disagreeable symptoms gradually to disappear, until her health was restored, which was in about four months. I feel perfectly justified, after having tried the treatment of other physicians, in recommending all those who are s ing from Scrofula or Chronic Diseases to Dr. Longaker for medical treatment, with a firm belief that they will be satisfied, benefitted and cured

thereby, as my wife has been.

This was attended with the most intense pain in all parts of the body. Falling to obtain relief from any of the physicians whom she employed-from time to time, she was induced to try the PLANTATION BITTENS, and to the surprise and joy they have relieved her, and she is now in good health and goods as he attempted on that day to move.

BUSINESS NOTICES.

TO THE LADY OF THE HOUSE.

My DEAR MADAM :--Your husband is not insured. Some of these fine morn lugayou may wake up to find yourself a widow, with yourself and the children to take care of, and nothing to do it with. That would be hard. You ought to "get at" your husband about this matter at once, and give him no peace until, by the expenditure of a few dollars, he has put, you beyond the possibility of being left destitute. If I can help you at all in this good work,

" True Merit will always have its Reward."-It s certain that no truth has ever been more satisfactorily temonstrated in our midst than the above, as may be seen is certain that no truth has ever been more satisfactorily demonstrated in our midet than the above, as may be seen daily in the immense demand for that Invaluable and popular tonic and stimulous, MISHLER'S HERB BITTERS. It is the one thing needful for persons whose surroundings are unfavorable for good health, because it is a perfect protection against all morbid influences productive of disease. The present is the most fitting senson for reinforcing the organs of our hodies, and insuring our health during the "cold term." We are all more or less negligent, but there are many persons who are always behind in this matter, consequently each change in the senson comes along before they are prepared for it, and sickness selres upon them, followed by all its train of ills. Begin now to ward off disease by using MISHLER'S HERB BITTERS every day regularly, and all the characteristics of good health will spring up within and continue with you.

The Great Resort .- Last fall brought a marvel ons increase of business to the great Chilling House of Pennsylvania—tak Hall. There were days when the sales of the concern touched the lofty figures of treelec thousand dollars in one day. This of course was owing to the prodigious efforts put forth by Wanamaker & Brown to meet the wants and whelves of the people in the matter of low prices and desirable goods. But no small part of the credit is due to the country people who seem to go en nase; county after county supplying itself from the oundless and varied stock of the Largest Clothing House, bounders and varies store or the largest Coming trouse. Having made this good beginning, the proprietors, have no fears of not being able to continue in the favor and patronage of their friends from out of town; but have determined to please them so well this season that Oak Hall shall become the great "Resort" of the country trade.

Do not Tritle with Danger .- A single spark may kindle a fine that will consume a city, and small altiments neglected, may end in fatal disorders. Bearing this fact in mind, let the first symptoms of debitly or nervous pros-tration be met promptly with invigorating treatment. Foremost among the vegetable tonics of the age stands HOSTETTER'S STOMACH BITTERS, and whenever the vital powers seem to languish, or there is any reason to suspect that the animal functions essential to the sustentation and purification of the body are imperfectly performed, thi invaluable invigorant and antiseptic should at once be re-sorted to. Indigestion always produces weakness of the bodily powers. Sometimes it happens that the appetite demands more food than the stomach can digest; though not more, perhaps, than is required to keep up the ful-strength of the frame. The object, under such circumstan-ces, is to increase the digestive capacity of the assimilating organ, so as to make it equal to the duty imposed upon it by the appetite, and capable of supplying the building material of the system as fact as its required. This ob-iect is fully accomplished by the use of the Bitters. They tone and gently stimulate the cellular membrane which secretes the gastric juice, and the result is that the solvent is mingled with the food in smilletent quantity to convert all its nonthing particles into pure and wholesome eleinvaluable invigorant and antiseptic should at once be re If its nourishing particles, into pure and wholesome elect.
