THE ASSESSORS. In consequence of the great reduction in taxes collected by the United States Government, the offices of assistant assessors have afforded a very meagre remuneration and the labors have been very slight, in some sub-districts amounting to not more than a full week's work in a month. Orders were, therefore, ent to F. Z. Heebner, Esq., Assessor of this District, last Fall, instructing him to reduce the number of assistant assessors, and re-disthe counties. Accordingly, in March, of townships, boroughs, etc., composing the new sub-districts, with the names of his appointees for assistant assessors, and last week the Treasury Department sent on commissions and a confirmation of his actions. The new

The advantage of this reduction is not of so much importance in the expenses of the Government, as the saving will not amount to much, but by giving the officers more labor to perform and a consequent increase in remuneration, more competent men will seek the offices and the business will be managed more systematically. The sub districts are composed -: awollol en

The Legislature adjourned sine die on Friday last. The legislation of the session was tive engines. The experiment was made recently nimportant, if we except the ratification of on a passenger train with the most gratifying he XVth Amendment and the passage of the success. Registry Bill. These two important questions received due consideration at the hands of members, and the sanctioning them will go far toward excusing some of the bad bills that met with favor. Senator Stinson, of Montgomery, was elected Speaker ad interim. He

# TO SCHOOL DIRECTORS.

The School Directors of Lehigh must not forget that they will be required to meet in Convention on the 4th' day of May next to choose a County Superintendent to serve for three years. There are more than two hundred public schools in this county, and for visiting the same and giving them his attention the present Superintendent receives a salary of \$1000. This is a sum greater than is paid by some of our neighboring districts. For inyear, paid her Superintendent but \$1000, the ne as Lehigh. Bucks gives her's but \$860, with 252 schools. Chester, with 335 schools, paid only \$1200, and this county is considered ose that give the subject of Education great attention. That the Directors may know the opinion of State Superintendent Wickersham upon the subject of salaries, we quote the following from his report of last

used of the boards of directors convention composed of the boards on the country, at the time of electing the co each county, at the time of electing the county superistendent, fixes his salary. The aggregate amount of a salaries thus agreed upon is found at this office and detailed. ducted from the sum total of the annual State appropria ion, and the remainder is distributed to the severe tion, and the remainder is distributed to the several counties according to their respective number of taxable clitices. By this mode it matters very little to any one tonity how much or how little it pays its county superintendent, provided other counties are not influenced by it. For example, the difference to Cameron county between paying ber superintendent \$200 of \$1.00\$, is about \$5 cents; the difference to General between paying her's \$600 or \$120\$, is about \$61\$; the difference to Cumberland between paying her's \$700 or \$140\$, is about \$61\$; the difference to Cumberland between paying her's \$700 or \$140\$, is about \$61\$. ter between paying her's \$1700 or \$14,000, is about \$68; and so on with the rest. "

We do not mean to insinuate that it is the intention of our Directors to decrease the present salary, but merely to call attention to the fact that the faithful servant is worthy of

It is with a grateful feeling that I feel able to make the following statement for the benefit of those who are suffering from Scrofula and other Chronic Diseases. My wife had been suffering for several years from tumors or swellings on her neck which after a time would gather and discharge matter, leaving a running sore. She had be treated for more than a year by most emineu physicians without receiving any permanent ben efit, her disease becoming worse, until she had five of these running sores on her neck, when I employed Dr. H. D. Longaker, under whose treat nt she commenced to improve very fast, the sores on her neck to heal, and all her unpleasant and disagreeable symptoms gradually to disappear, until her health was restored, which was in about four months. I feel perfectly justified, after having tried the treatment of other clans, in recommending all those who are suffering from Scrofula or Chronic Diseases to Dr. Longaker for medical treatment, with a firm belief that they will be satisfied, benefitted and cured thereby, as my wife has been.
