## DEGRADATION.

The defeat of the bill to restore the 29th Judiciary District is a thorn in the Democratic side which festers continually and spits out such disgusting matter as the following, published in the Lock Haven Democrat :

HIGHER IN THE LOCK TRIVEN DEMOGRAFIE: ..., Oh, for a longue to curse the Slites 1'--Wo see by the proceedings of the hegislature of Pennsylvania, that a man by the name of Henry McMiller, one of the Repre-sentatives from Montgomery county, elected by the demo-rary, has basely betrayed his party, treacherously and assass-in-like stabiled bits friends, and like a poor, misera-hie, coventify, abandoned, God-forzaken, hell-deserving Judas, sold his amor, surendered his numbinod, forfeited his self-respect, seared his conscience, and danned his sout by voting for Herdie's greenbacks to negative the bill repealing the infances law which annihisted the 20th Judicial District. May his children hato and despise his -woman fear and tremblo at his approach-houset man keep their pocket-books as few hen he passes them-every-body condema and banke him-for has proven to be a charnal house of corruption-a sink of iniquity--an ulcer full of poison-a letch without a for of virtuous blood-a coss-pool full of unpleasant smells-a lar without brains -a villing without capacity-a traitor without canse-an uld withered upundersant, who belies hido to Pe-ter Herdie for a few dollars. Let him everywhere bo branded as a Judas, sconudred, lint, traitor and currup-tionst." It is a pity that the profession of journalism ... Oh, for a tongue to curse the State 1'-We see by

It is a pity that the profession of journalism has sunk so low as to allow such fellows as the writer of the above to step into it. The press always has been and is yet a mighty lever in a free government like ours. It contributes more largely to making self government a success than all other agencies combined. But if its influence is to be exerted through such vile trash as the above, as senscless as it is uncalled

for, the breathing of a low and corrupt mind, we pity the fate of future American genera-Time was when journalism was hon ored, but it must soon lose the respect of decent, thoughtful people if the newspapers of the country are controlled by men of such low calibre. We speak particularly of it because the degradation of our profession is growing daily. We have a paper of the same stamp in Allentown, one in Norristown, and hundreds

more we could name, all professing the Demperatic faith, and headed by that vile sheet, Brick Pomeroy's paper.

We don't intend to be Mr. McMiller's champion. Whether he is guilty of the charges preferred against him, we neither know nor care. His vote was cast as any honest man's should be, and whether his motive were one of conscience or of money, he will have his conscience to condemn or sustain him. The money professed to have been paid him was Peter Herdic's, not the people's, and the people are gainers by his vote to the amount of everal thousand dollars a year. If Lycoming county is entitled to constitute a judicial district, draw pay for a president judge and associates, Lehigh county is as justly entitled to be divided into two judicial districts and

draw pay for two president judges and their associates, and as one section has no more right to have its citizens provided with fat places by special legislation than another, especially when the cost is paid by the whole State, this system when applied to the whole State would involve an expenditure that would transform our light taxes into an unbearable burden and drive business and industrial enterprises into more favored States.

It is another example of the dishonesty of the Democratic cry for retraction and reform. So long as a Democrat is to be benefitted any increase of expenditure is right, and woe be to the Democrat who attempts to frustrate the corrupt designs of his party.

abuses' exist not only in Phila jury. Our Justices should exercise more judgment in such cases, and thus save the county costs and our courts much valuable time.
