THE CITY.

St. John's Church .- A congregational meet ing will be held this evening for the purpose of considering the subject of enlarging the building. Robbery .- The drinking saloon of Edward Blckel, on Hamilton street near Sixth, was entered late last Saturday night and robbed of about three

dollars in pennics. Fresh Groceries, at prices to suit the times, can be found in endless profusion at Wanamaker & Mohr's, Seventh street. Go to this new firm and secure bargains.

Every newspaper we see is emphatic in expressing the opinion that never, probably, in the history of this country, has the wheat crop pre sented, at this season of the year, such a pro ing appearance.

War Upon the Dogs .- Mayor Good has issued a proclamation requiring all dogs, when in the street, to go muzzled. Non-obedience to this law will subject the dogs as well as their owners to the penalties of the law.

Fatal Accident .- One day last week John Abele, while working at an awning in front of Kramer's dry goods store, corner of 7th and Hamilton, fell and received injuries from the effects of which he died on Friday morning. He was aged 62 years.

New Church Bell .- The new bell purchased by Rev. S. K. Brobst for the German Lutheran Church in the First Ward, was used for the first time on Sunday. A sermon was preached in the morning on the history and proper uses of church

Decoration Day .- The day set apart for the decoration of soldiers' graves has been changed from Sunday, the 30th, to Saturday, the 29th of May. The committee solicit contributions of rs, which should be left with Jacob Arnold at Weinsheimer & Newhard's store, at Ephraim Moss' Book Store, or at the Mayor's office.

A Big Day's Business. -The Columbia Fire Company sold over four hundred tickets for their Gift Enterprise at their office, on Saturday. The number on hand is growing beautifully less every day and by the time the 24th of May, the time se for the drawing, comes round, many persons whe have delayed purchasing will find themselves out

Why Don't they do it .- If the Passenger Railway Company would place a sprinkler on car wheels, and run it over their road several times a day during the dusty s ason, they would do service to themselves as well as to their patrons, an would increase their popularity. As it is, their cars when off Hamilton street are filled with dust and are not fit to ride in.

Whit-Monday was observed as a holiday, as is usual among the Germans. Several pic-nics re held in different localities around the city, and although the weather was very unpleasar they were well attended. Our streets were well filled all day, and merchants reaped a good has vest. At a pic-nic near Emaus, for the benefit of the Ringgold Band, several free fights were indulged in and the parties were badly bruised.

Notice to Subscribers .- Our subscribers are requested to remember that we have purchased the ubscription books of THE REGISTER office and settiement of all back as well as advance subscription must be made at this office. We have authorized no one to collect for us. We give this notice, not and dun, although money is always acceptable, but for the purpose of having our subscribers pay their indebtedness into the right hands when they are

ready to settle up. The Water Works. - The appraisers appointed by the Court to assess the value of the property of the Allentown Water Company have reported, setting the value at \$98,958. This amount appears to frighten Councils as they have instructed their committees to come to no final conclusion about the purchase. A conference with the committee of the Water Company will be held, and after ascertaining what proportion of the rents assessed and collected by the Company for 1869 will be turned over to the city, another report will be made

Change of Location .- M. S. Young & Co., the enterprising hardware men, have removed from 24 West Hamilton street, to their beautiful and capacious new building recently erected or Hamilton street one door below Eighth. They have increased facilities for supplying their heavy trade with iron, steel, glass, paints, carriage trim mings, saddlery, and every variety of goods in every department of hardware. Their establishment is one of the fluest in their trade in the country and their prices are made to suit everybody.

Their number is 42 West Hamilton Street. Building Associations have not so long to run which get their blank books, constitutions and by-laws bonds and mortgages printed at the Recis-TER office. We print a stock ledger, handsomely ruled and bound, which costs much less than the ordinary ones, and saves the Secretary an immense mount of labor. We charge the same rates to everybody, make no discrimination to any one, and as we are doing work for Philadelphia, we can supply everybodycles at Philadelphians rates A trial will convince. Job work printed in black, gold, brown, red, carmine, mauve, green, yellow blue, purple, or any other color, or in a combination of colors, at remarkably low rates.

The Fire Department .- The Chief Engineer of the Allentown Fire Department has issued the following orders to his subordinates, which we have taken the privilege to publish with our own

All persons, not members, are prohibited from loading in or about the engine houses of any of the companies. The use of liquor in the engine houses or at an engine during a fire is forbidden. 'This will never be strictly enforced.' Persons not authorized by law will not be allowed to sleep in the engine houses without permission from the Chief Engineer. Members of companies are requested not to obstruct the sidewalks in front of their respective houses. Any member discovered in th act of violating any of the above laws will be subject to punishment.

Rents are enormously high in Allentown Small houses are paying as much as twenty-five per cent. upon their original cost. Landlords are even unwilling, in many cases, to rent at that oxorbitant price and prefer, or are compelled, to let their houses remain idle awaiting a purchaser. This fact should induce our merchants, for they will be the heaviest gainers by the operation, to form an association for the purpose of buying or erecting, and keeping for rent enough small house to satisfy the demand of the laboring classes These people are well paid, but spend every cent they make, most of it in the stores of our mer-They have no money to purchase real estate and if they are not provided with houses to rent, they will be compelled, in self defense, to remove to some place where they can be accomm

Presentation .- Prof. D. B. Brunner, Superintendent of common schools of Berks county, visited our city last Saturday and prescuted Muh lenberg College with an air gun of his own construction. The air-chamber consists of a globe of gun metal, about 414 inches in diameter, just forward of the lock. The gun is loaded with an ordinary bullet, the size of a buckshot, pushed home by an iron rammer. The air-chamber will hold a sufficiency of air for about twenty-five charges. It is filled by means of a small irou force-pump action of the lock when the trigger is pulled. It carries a builet very accurately, and with considerable force—its range being about fifty yards. equal to that of a small cartridge pistol. It is a and blackened so that identification was impossi- cd. It is eminently right and proper that it should The concussion of the lock makes a report about very ingeniously constructed weapon.

Council Proceedings. - Select Council .tated meeting held Tuesday evening. Present—Messrs. Hoffman, Kauffman, Line, McLean. McNulty, Roth, Schuon, Scherer, Van Dyke Yeaver, and Dillinger, President

Weaver, and Dillinger, rresuces. Journal of last meeting read and approved. Mr. Schuon, from the committee on sprinkling, reported that they had seen the Commissioners, who had refused to assist in sprinkling Jordan bridge. Report accepted and committee discharged. The Committee on City Property in reference to the chimney of Mr. Orafin reported progress. Continued. The Committee on Sirveis and Alleys reported favoring the opening of Pine alley to the width of 20 feet.

The following was then offered: Anti-converse to the control of the A communication from the Mayor was received, appoint ng George Meitrier police Officer, vice Wm. Rube remov

ing George Meitzler police Officer, vice Wm. Rube removed. Confirmed.

Report from the City Treasurer was read, and on action of Common Council concurred in.

Report of Pinance Committee on expenditures for the current year was received recommending the High Constable to collect Blorough tax.

A petition of property owners on Tenth street remonstrating the paving of said street was received, read and on motion accepted.

A petition of property owners residing on north side of Fighth street, between Turner and Chew, remonstrating against change of curb, read and received.

against change of curb, read and received.

A petition remonstrating against change lde of Seventh street was received.

The following resolutions were offered:

Resolved, By Select Council, Common Council concurring, that the Mayor be directed to notify —— Keck to lay its payenent ou Tenth street near Turner, within thirty (30) days, and if not completed within that time the same to be done at the expense of the said Mr. Keck.

Resolved, By Select Council, Common Council concurring, that a regular descending grade be taken from the incent of Dennis W. Honts, on the east side of Seventh street, between Linden and Turner.

Resolved, By Select Council, Common Council concurring, that the Sanitary Committee be instructed to investigate the condition of Law Alley between Linden and Turner streets.

The Ordinance relating to the opening of Lawrence street was passed. A petition praying for a lamp post at the north west cor-

of Mr. Schuon it was

THE COUNTY.

INSTRUCTED FOR SELFRIDGE.—The North ampton county Republicans have instructed their delegates to the next State Convention to support Gen. James L. Selfridge, of Bethlehem, for Gov-

ernor.

RAILROAD ACCIDENT .- William Chapman, while coupling cars at Chapman's Station, on the Catasauqua and Fogelsville Railroad, on Friday, fall between the cars, the train passing over him and killing him instantly.

EXPLOSION OF A POWDER HOUSE,-On Monkegs of powder, near the Iron Bridge on the Cata-sauqua and Fogelsville Railroad, was blown up. It is filled by means of a small iron force-pump and kept closed by a valve, which is opened by the earthquake. The explosion is supposed to have heen caused by the application of a slow fuse by an unknown man, whose body was found some distance from the powder house, horribly burned lng organization will be as far as possible perfect-

Philadelphia.

THE COAL TRADE.—There has been a gen eral suspension of mining operations in the Lehigh and Schuylkill coal regions—the miners having all quit work with the full consent of their cmployers. It seems that there is a very large surdus of coal on hand, both at the mines awaiting shipment, and in the hands of dealers in our principal cities. A suspension was accordingly re-solved upon to reduce the stock and prevent a fall in prices. It is not likely to continue more than the Delaware and Lackawanna Coal Company, in the Luzerne region, have not joined in the strike. The Lehigh Valley railroad has withdrawn six trains of coal cars and discharged a number of employees, and the Lehigh and Susquehanna has also made a reduction in the number of cars.

ACCIDENT .- On Friday week William Pob, teamster in the employ of Mr. Stephen Miller, of Upper Macungle, while engaged in carting ore rom John H. Lichtenwalner's mines to Rupp's Station, met with a horrible accident at the latter place. His team was made up of five mules and a horse, the latter a fractious and high-spirited stallion, used under the saddle. While at the station. a locomotive came along and the stallion became unruly and refractory, and in an effort on the part of Poh to subdue him, the animal reared and made cut at his master with a fore foot, striking him on the abdomen, and tearing open the same breastbone down to below the naval, inflicting a wound from which the entrails protruded. The injured man was at once conveyed to his home. and at last accounts remained in a very precarious condition.—Catasaugua Journal.

EXCURSIONISTS .- A party consisting A roport from the City Engineer rolating to various grades was read and received.

Another report, relating to Pine alley, was read and laid upon the table.

Description of the Common Council, Select Council concurs.

A roport from the City Engineer rolating to various grades was read and received.

Another report, relating to Pine alley, was read and laid upon the table.

Excussion, the British and Austrian Ministers, E. B. Moore, Esq., of the West Chester of the Pine Respective and the Select Council concurs.

Hon. Simon Cameron, the British and Austrian Ministers, E. B. Moore, Esq., of the West Chester are not a series of the West Chester of the Pine Respective Milliman as agreed to by him, and the Ministers, E. B. Moore, Esq., of the West Chester Company, Hon. As a Packer doing the honors. On Friday afternoon one of the cars of the company was provisioned and the party took a special en gine to Bethlehem, where the Lehigh University was visited, and after inspecting other points of pterests in that locality, they returned over the

Lehigh Valley Road on their way to Wilksbarre. SHARPENING EDGED TOOLS .-- It has been coown that the simplest method of sharpening a razor is to put it for half an hour in water, to which has been added one-twentieth of its weight of muriatic or sulphuric acid, then lightly wipe it off and, after a few hours set it on a hone. The acid here supplies the place of a whetstone by corroding the whole surface evenly, so that nothing further then a smooth polish is necessary. The process never injures good blades, while badly erally improved by it, although the cause of improvement remains unex-

plained.
Of late this process has been applied to many other cutting implements. The workman, at the beginning of his noonspell, or when he leaves it in the evening, moistens the blades of his tools with water acidulated as above, the cost of which is ilmost nothing. This saves the consumption of time and labor in whetting.

MISCELLANEOUS.-On Friday evening an anknown man had his foot badly crushed while attempting to get off a car at Coplay.

Nearly every county increased the salary of its aperintendent of schools, at the late convention

of its directors. Albert Burghard Nimson, Register of wills, recorder of deeds and clerk of commissioners of Carbon county, died on Sunday week, after a

lingering illness.

The North Pennsylvania Railroad Company is rapidly pushing to completion the new track from Abington to Philadelphia. It is being laid with cavy rails, connecting joints and stone ballasted The turn table at Abington is nearly finished and the engine house will be completed in the course Jordan bridge is to be sprinkled, probably.

The number of sub-divisions in the VIth Collect ion District is to remain the same as at presen The Catasauqua School Board has increased the salaries of the teachers of that district 25 per

Five new passenger engines, for the use of the Pacific Railroad, passed over the East Pennsylvania Railroad on Wednezday, on their way to the FarWest.

THE FIRST COMPANIES .- We learn from he News that preliminary steps have been taken by the surviving members of the 25th Penusylva in Regiment, which had the honor of being the first regiment in Washington, in defence of the National Capital at the commencement of the rebellion, to form a social organization composed of the members who reside in Allentown, Pottsville, Reading, Lewistown or elsewhere. The officers of the companies in all the places mentioned have been communicated with and the probability is that the matter will soon assume definite shape.
A beautiful memorial medal for these companies was designed by the late lamented E. L. Hartz, U. 8. A. which may be described as follows: On the left a hill side with the opening of a coal mine; an iron furnace; a locomotive with cars bearing troops to the Capital; in the center the Capitol building; with a storm cloud bursting over it; on the right the Potomac and hill beyond crowned with a battery threatening the Capital; in the space, Sumter replying to the fire of the rebels day morning, a shanty containing about forty-five and the "Star of the West" putting to sea after an ineffectual effort to reinforce Sumter; under, the flag of the Union inscribed April 18, 1861. The shock was fearful and was felt for miles around the scene of disaster. The people of Althe defence of the Capital." In the space, "National In about a week a meeting of the surviving mem-ber will be called, at which we trust the interest-

and were the guests of the Lehigh Valley Railroad dealers in Berks county, according to the list re-
