The Lehigh Register. ROBT. IREDELL, JR., - Editor and Proprietor

ALLENTOWN, PA., JUNE 9, 1869.

THE question as to whether Military Combusiness has increased as rapidly within the missions are competent to try civilians for last ten years as to become a profitable investpenal offences in the unreconstructed States ment to all parties interested, whenever the has just been decided affirmatively by Attorney affairs of the company are managed correctly has just been declared animater of the sth General Hoar. The case occurred in the 5th military district, and was submitted by Gen. causes for loss are dishonest officials and the military district, and was submitted by Gen. Reynolds, who appears to know what he is thirst for speculation. In a majority of cases doing. It appears that a freedman who had where the insured suffer it will be found that either one or the other of the above reasons is been at work for a man named James Weaver, the immediate cause. To represent that a a citizen of Bastrop county in Texas, "having chosen to leave his employment to go to work for another man, went to him in a field near company has assets amounting to \$200,000 when a few claims and worthless bonds or oil his house on that morning to ask for the wages stocks constitute the available capital, is cerwhich were due him. Weaver seized an ox tianly obtaining money under false pretences, band, beat him severely with that, and then and shows the evil arising from this loose mansent his hired man to his house for a double ner of doing business. Every day the necesbarrelled gun, loaded with buckshot, and on sity for an Insurance department in our State, is made more manifest and we have no doubt his return with it he shot the freedman through that a bill would ere this have been passed to the head, killing him instantly. There apmeet all necessities had it not been for the depeared to have been neither provocation nor resistence; and this atrocious act was comsire of so many parties to have control of it. In other States the laws are very stringent and mitted in the sight of the wife of the man consequently there is more confidence. We murdered, who stood by her own door." want insurance companies of all kinds, to give These are the facts as found by the commisus the same assurance against loss that the sion and stated in the Attorney General's opin-National Banks give to note holders. The ion. They show cruel, unprovoked and policy should be represented by its equivalent wanton murder, for which Weaver should in money or available securities, else it were suffer the penalty of the law. Relying, howbetter to keep our money and run the risk of ever, upon the facility with which such mat ters are smothered in the civil courts of loss by fire or otherwise. Nine-tenths of the insurance taken in this State are in foreign Texas, Weaver gave himself no concern as to companies, because of the reasons we have given. Pennsylvania has many substantial the result. He was arrested and indicted for murder and by request of J. J. Thornton, District Judge of the 2d district of Texas, made to Gen. Reynolds, the commander of the 5th Military District, accompanied by a statement that a trial could not probably b

had in the State Courts, and asking that he might be tried by the military authorities, military commission was organized at Austin, Pexas, before which Weaver was tried, found guilty and sentenced to be hanged. The prisoner raised various objections to the authority of the commission and claimed a trial by jury. The case having been submitted, the Attorney General decides that as the State of Toxas had not in Sept., 1868, and has not since adopted a constitution in conformity with the provisions of the act of Congress and has not become entitled to representation in Congress, the act of March 9, 1807, was operative at the time Weaver was tried and

the proceeding of the commission was proper. That Texas was subject to military law when possession of her territory was regained by the military power of the United States and that the right to hold and govern the State by military power has not terminated. The sentence is approved and Weaver will be punished. We regard this as an importent proceeding and one that will tend to stop the indiscriminate butchery and blood letting which has so long disgraced Texas. Relying upon their courts and juries, a freedman's or a Union man's life was of no consequence in 'the hands of the rebels but in Judge Thornton and Gen. Reynolds they have caught Tartars who will teach them that law still means something. Whatever interest could have been manifested in the prisoner's case musthave arisen from the question of law arising, and certainly not from any justification under the facts,

Two feeling in trade circles is much more hopeful than it was a few months back. Dry they can be manufactured for. and unless cutcommit the same act. ton falls, which it is not likely to do, manu.

To CONSUMPTIVES.—The advertiser, having been restored to health in a few weeks, by a very imple remedy, after having suffered several years with a over o hung aftertion, and that dread disease, Consump-ion, is anxions to make known to bis fellow sufferer the nears of curve. To all who dedre it, ho will send a ropy if the prescription need (free of charge), with the dividi-iona for propering and which dedre it, ho will send a ropy of the prescription need (free of charge), with the dividi-tion for benefit the advertiser in sending the Prescrip-ion is to benefit the advertiser in sending the Prescrip-andferer will try his remedy, as it will cost them authing and may prove a blessing. "Farties wishing the prevention will please address, Williamsburg, Kings Co., N. Y.

factured goods must advance. Jobbers fee confident that a rise must take place, as skilled labor is scarce and demands its own prices, while the manufactured stock is light and the consumption still goes on. Money, notwithstanding the efforts of the

locking-up clique in New York to produce a stringency, is much more favorable for business operations, and the good crops of the succeeding Summer will aid materially in re viving business activity in the Fall. There are some classes, however, that must suffer. Speculators in grain have had their finger badly burned and they are touching the fire lightly. They have had things their own way for a long time and have coined money from the necessities of the consumers, and little sympathy will be felt for them if they lose a little of it. Flour, it is prophesied, will sell for five dollars a barrel when this Summer's crop comes into the market.

Secretary Boutwell's policy is working won ders and creates universal confidence in the future. It does much to check speculation but more to revive a healthy feeling in trade circles. Altogether we see everything to encourage and nothing to discourage.

THE LATEST.

A. Johnson has been making another speech and as usual he first sketched his early history (which probably by this time is familiar to averybody and is also his late history) and port the views of Mr. Sumner. then compared Grant with Washington and of course Mr. J. made Gen. Grant suffer tre-mendously. He thinks the Radical party is \$107,000,000, according to the report, of which of course Mr. J. made Gen. Grant suffer treis "opposed to making a soft bed for them to by coin certificates. Secretary Fish says the state recline on in death." This is positively cruel It is bad enough to be disintegrating, worse to be crumbling away, but then to refuse a soft bed is more than the Radicals can bear. He also says the offices are not enough for all, money is getting scarce and things lying around loose have all been picked up. "This refers to the condition of the White House when Johnson left. No one denies the statement, but about the money being scarce we have our doubts, if Mr. Boutwell's figures are reliable. Mr. J's. advice is summed up thus --- "our duty is to give it to them now, to press home upon them, and hasten their death by adherence, by bold manly courage ; adherence to the essential principles of true Republican Government." Thus saith Moses ! Repub

licans will at once take warning-disintegrate -crumble and die in a hard bed, for A. John son has spoken. The indictments against the election officers

in Montgomery county for refusing the votes of those offering Snowden papers were settled by entering a nolls prosequi on each bill. The question now arises who shall pay the costs of the commonwealth in subpending witnesses, milenge fees, &c. The defendants are not liable for they are acquitted. The prosecutors decline the honor and the county ommissioners positively refuse. To test the the question of liability suit has been brought against the county by the officers serving subenas. Heretofore the practice has been for the clerk to tax the bills and the commissioners paid them. The question is a curious one and may prove beneficial in preventing so . many trifling cases from being brought into court.

THE United States Attorney General has decided that a State cannot grant to a Foreign Company the privilege of landing a telegraph cable on our shores.

-Small nox is reported to be prevailing in New York to a limited extent.

-The public debt st Secretary Boutwell, in which no account is taken of the accrued interest on bonds, shows a decrease of the total debt during the month of May of \$13, 384,778. \$5,000,000 gold were sold during the month for \$7,000,000 currency, and \$3,070,000 in bonds were redeemed at a premium of about \$700,-000 in currency.

-Henry Bergh, Superintendent of the Society for the Prevention of Crucity to Auimals, has adiressed a letter to the Board of Health, of New York, energetically protesting against the bleeding of calves preparatory to slaughtering them, as practised by the butchers of that city. This practice, he contends, is not only a cruelty to animals, but is dangerous to the health of the comaunity, by corrupting the flesh of the animals so treated, and renders it unfit for human food.

-A heavy engagement is reported to have taken place between the Spaniards and revolutionists be tween the bays of Nipe and Banos, in which the spaniards claim to have captured four cannon and all the other munitions recently landed by the filiusters. Great excitement prevails in Havana, and serious riots are apprehended; Seventy thousand dollars worth of property has been con fiscated between the 19th of April and the 1st of June.

-The Washington correspondent of The Boston Advertiser says that the talk in that city among the politicians is to the effect that the Republican State Convention of Pennsylvania, which meets in Philadelphia on the 27th inst., will be asked to declare itself on the Alabama claims question The persons moving in the matter are said to sup

-The currency balance in the Treasury on Bat disintegrating and crumbling away" and he about twenty-four million dollars is represented ment to the effect that the Baring Brothers were authorized by the State Department to pay the \$60,000 Telegraph bill is untrue. No drafts' have been drawn upon the Barings for the payment of the bill referred to. Congress some time since that the Republicans have swept everything before appropriated \$60,000 to be applied to the payment of future telegraph expenses, but not a dollar of the money so appropriated has yet been expended.

If the men who most injured this State, destroyed its reputation, stained its name, lowered its credit, injured the value of its property, insulted its best citizens, spat upon its national itse, kteck dits Union sodilers, reintried its progress, and in general 'traduced' the name of Dol-aware, were to be whipped, there isn't a member of the Dover ring, or one of their brothers, brothers-la-law, 'un-cles, soos, hephews, grandsons, cousins or connections in the wouldn't be tide up by the sherif on every solutirday in they year; and if they had a lash for every dollar they bave squeezed from the people's senary carnings their backs would be as raw as their sense of propriety.''

BIOT IN[®]WASHINGTON.

DISTURBANCES AT THE POLLS-SEVERAL POLICEMEN AND COLORED MEN SHOT AND BEATEN-SUCCESS OF THE RE PUBLICAN TICKET. WASHINGTON, June 7 .- This afternoon a disturbance occurred at the election polls in one of wards of this city, during which a number of colored men and policemen were shot, beaten, and otherwise injured. The disturbance arose from an attempt of several negro rowdies to prevent a col-ored man voting the Democratic ticket. This col-

ored Democrat is a politician of some local noto riety,and had made himself offensive to his brethree at several of the Ward meetings previous to the election. The police, in protecting him in his right of franchise, were roughly handled and ompelled to use weapons in defense. There was a good deal of excitement in the neighborhood of the fight, and many rumors of a serious riot : but

with the exception of the beating of a few policemen, the sufferers were the rowdies who created the disorder. This evening the returns were received and read to the public at the various newspaper offices without the least disorder. The flicers voted for were a City Register, Collector, Surveyor, Board of Aldermen and a Board of Com mon Council. The returns up to midnight indicate them. They have carried six out of the seven wards, and will have a majority of about 2,000 on

the general ticket. 12 O'CLOCK.-The Republicans victorious in every Ward. Majority about 4,000.

Extract from a Letter from Santa Croiz...* * * We had waadered for many hours through tangled forests of Tropical alrubs and trees, some of them emitting a most delicious and invigorating odor, when we suddenly came upon a large and well cultivated plantation, in the centre of which were several buildings. Entering these we found them to be the "press houses," stills, &c., where the sugar cane is crushed for the manufacture of St. Croiz Rum. Over 100 Coolies were at work, and the smell from the fermenting vats was very ex-hilterating and pleasant. We were shown through the entire establishment, and learnod that all the Rum here produced was shipped to Messrs. P. H. Drake & Co., N. Y., to be made into their cele-brated PLANTATION BirTZERS. The peculiar good effects of this Rum—which is the purest and best in the world—are well-known. Not a single case of Dyspepsia, Fever and Ague, Consumption, or any such disease can be found on this Island, (except of invalids come here for their health, and they are almost always cured). Combined with Callenya Bark, Cascarilla, and other important ingredients, this Rum becomes PLANTATION Bir-TZERS; and surely no files Tonle and general Fam-ily Remedy was ever seen. The combination of these Bitters was first discovered here many years ango, and all the Natives swear by PLANTATION BirTZERS, and say "there is nothing like if." Judging by the robust health of the witnesses, I am certain their testimony is true, * * * R; B. T.
