GENERAL JOHN W. GEARY. FOR JUDGE OF THE SUPREME COURT, HON. HENRY W. WILLIAMS,

OF ALLEGHENY COUNTY.

It is true there is a kind of liberty this Registry
Law will destroy. It is that licentiousness, that
adulterous freedom which surrenders the polis to
hirelings and vagathouis, outcasts from home and
honest industry; men without clitzenship or stake
in the government; men who will commit perjury,
violence, and murder itself. To prevent this is
the purpose of this law, and it should have the aid
of fair men of all parties to give it a fair trial, and
secure its true cud.—Judge Agnew's Decision on the
Registry Law.

The Tree

And that is just the reason why the Democrats are so anxious to have the law set aside. The success of their ticket depends upon the employ to vote early and often. To them the "men without citizenship or stake in the government" are valuable assistants who, by the aid of Snowden's papers, were heretofore readily made voters. "Men who will commit developments in the Robinson vs. Shugart contested election case in 1867. "To provent up the cheating that has apparently been go this is the purpose of the law, and it should ing on for so long a time. have the aid of fair men of all parties to give it a fair trial, and secure its true end." If our opponents are honest they will unite with us in an effort to secure fair elections, but as we said before, that is just what they do not want, and therefore the Republican party will be simply doing its duty by making an honest effort to show that by enforcing the law none but those designated by Judge Agnew will be injured.

When the highest tribunal of the State has thus announced the above to be objects of the law, the Republican party may with pleasure boast that owing to its efforts the law has been action. Many of those who have been claimed as the Democratic vote, but that is only because it has heretofore been made up of those whom

THE following extracts from Judge Agnew's opinion in the Registry Law are respectfully ly recommended to our Democratic friends as choice Summer reading :

choice Summer reading:

"The friends and equality of the ballot-box must be protected from the local causes which mar and destroy a free and equal election."

"Then, that election is free and equal where all of the qualified electors of the precinct are carefully distinguished from the unqualified, and are protected in the right to deposit their ballots in safety, and unprejudiced by fraud. That election is not free and equal where the true electors are not separated from the fulse; where the ballot is not deposited in safety, or where it is supplanted by fraud. It is, therefore, the duty of the Legislature to secure freedom and equality by such regulations as will exclude the unqualified and allow the qualified only to vote."

"Is the Constitution of Pennsylvania so deformed and sterile that her lays cannot protect the ballot-box of a city from falsehood and fraud because they admit of but one unbroken system for the State? Such an interpretation of the Constitution is wanting in merit, and can only operate as an incentive to found.

tution is wanting in merit, and can only operate as an incentive to fraud. How, then, can the freedom and equality of elections be secured in a great city if from the force of local circumstances the places of the real electors are usurped, if the ballot-box can be stuffed with impunity, or if suffrage can be exercised only at the risk of violence or life?

hireling" and no words were too harsh to be used against him. Cause—he led a Union Army and whipped the rebels, which the Democracy did not like. Their only reason for dislike was that he wore the Union blue and was a good Union soldier. Now he is their candidate for Governor and all delight to do him honor. Cause—they want a soldier on the ticket to deceive the masses. The fate of McClellan, Blair and others ought to satisfy them that that dodge is played out. Gen. Rosecrans had the honor of furnishing an escort to conduct Vallandigham into the rebel lines in 1863. . We wonder whether Val. will reciprocate now? Gen. Rosecrans is a profound scholar, an accomplished gentleman and was until the fatal day at Chickamagua a successful General. He is in bad company, however, and will be defeated.

THE election in Virginia has resulted in a majority. The negroes in many counties voted the Walker ticket and one of their number was elected to Congress. If the Democrats can claim this as a triumph, let them, do | petroleum. so, but what then becomes of their cry of colored men were placed upon the conservative or Walker ticket for the very purpose of securing the colored vote and this accounts for the result. It is unfortunate that the Republicans could not argree amongst themselves but as the result will give Virginia a representation in Congress, the country my feel satisfied

Some of the Democratic papers are assailing Judge Williams for occupying his seat on the Supreme Bench during the argument of the Registry act. His Honor was there to represent the people of the State, and his being a candidate next fall could not affect his position. Besides, there are other officers to be elected whose interests demanded his presence, especially when so important a question was to be decided. His absence could not have affected the result, as then the Court would have stood two to two, which would have sustained the law. Disappointment, however, has made our opponents very bitter, and we must expect to hear harsh words from them before the election.

The Supreme Court has decided the act of Assembly of March 16, 1809, which abolished the 20th Judicial District, to be unconstitution as Judge of that Court.
