REPUBLICAN STATE NOMINATIONS.

FOR GOVERNORS GENERAL JOHN W. GEARY

FOR JUDGE OF THE SUPREME COURT,

HON. HENRY W. WILLIAMS, OF ALLEGHENY COUNTY.

A FALSE ALARM. The cry of Stop Thief" has been used many times by rogues who want to throw off suspicion from themselves. We fear it is so with the Democratic party on the subject of retrenchment and reform. That party undertook at their State Convention to administer a rebuke not only to the present administration of Gen. Grant but to all the States, as if only here in Pennsylvania could be found the real Simon pure Democratic virtue, without which everything must go to the dogs. In the fourth plank of their platform, it is resolved "That reform in the administration of the Federal and State Governments in the management of their financial affairs, is imperatively demanded." Other States will please take notice and govern themselves accordingly. Judge Packer must know all about a careful management of financial affairs, else how did he come by his twenty millions, but we have our serious doubts as to whether his party possess much knowledge on that subject or having it, whether they can put it into practice. It is generally conceded that when James Buchanan became President, our Treasury was in good condition and the country prosperous. When he vacated, the Treasury was depleted and the "management of financial affairs" had been so poorly attended to that the Government could not borrow money except at exorbitant rates. Floyd's acceptances, Toucey's wild goose chases with the Navy, and Cobb's stealings in the Treasury, had well nigh made bankrupt the Government. At such a time Mr. Lincoln became President and the Republican party came into power in the United States and in Pennsylvania. The war of course was expensive, the more so because of the "fire in the rear" from Northern copperheads, but the people still believed in the Union and had confidence in the Government, and money plenty was offered and taken at low rates. That a debt should be incurred is only natural. If ever any doubt was thrown upon the power or ability of the country to pay that debt it came from Democratic sources. They underrated the currency, ridiculed the onds and attempted to alarm the people by hints at repudiation. Since then that debt has been considerably reduced and is being paid

off in a manner to astonish even the most hopeful. United States securities are in demand. Taxes are lessened year after year without inconvenience and now we have the cheering news that for the month of July the reduction of the public debt amounts to over seven millions, a total decrease of \$45,000,000 since March 4th. It is believed that the debt will stand reduced \$50,000,000 at the end of thé year, March 4th, 1870. In addition we learn that the receipts from Internal Revenue Tipstaves in side rooms and on the stairs on Saturday, were over \$1,000,000 and for the swearing in parties as rapidly as oaths could month ending July, \$21,587,000, more than \$4,587,000 than for same month last year. be taken—Snowden signing his name to any-This is how the Republican party attends to its | thing that looked like a certificate, filled up or financial affairs. We owe them many thanks for assistance in our time of need but our honesty is only now reaping for us new benefits, for we have it now that Mr. Boutwell has been tendered for the use of the Government, a yielded to it-there were upwards of 6000 loan of \$300,000,000 at 5 per cent. from a German banking house in Frankfort, and to this City Solicitor and the white hatted roysterers offer the Secretary replies that it is quite prob- who shouted so lustily for Packer at Harrisable that we can borrow within a year all the money necessary at 4 to 41 per cent. Really it appears to us that our German friends believe in our management of financial affairs, if Mr. Packer and his party do not. In our own State the same condition of affairs exists. Pennsylvania had a large debt at the close of

After Asa Packer had succeeded in amass ing a colassal fortune out of the needs of the people and the Government, during the late var, the Borough of Mauch Chunk, the place of his residence, was, like many other localities in the State, heavily taxed. It was during his residence at Mauch Chunk that he had made all his money. Mauch Chunk was the scene and center of all his property. His interests should have been identical with those of his place of residence and to a man possessed of a grain of genuine public spiritedness would have been. But Asa Packer's "noble" nature could not see it in that light. In 1867, in order to avoid the payment of taxes upon his es tate to the locality which had nurtered him in his poverty and smiled upon him in his prosperity, he took rooms in Philadelphia and claimed his residence there, although his family still resided in his palatial residence at Mauch

By legal process in 1867 the Borough au thorites recovered from this "nature's own nobleman" their just and legal dues, but the "nobleman" still keeps up the residence in Philadelphia and pays his taxes there, although his family still resides in Manch Chunk and always has resided there.

Some persons may say that was smart others, and that a respectable portion, would say it was an evasion of the laws of the commonwenlth and evinced a meanness of spirit that would cast a stain upon the character of such a man that even \$20,000,000 would not wipe

After the transaction of considerable busi ness of importance the committee adjourned to meet at the call of the chairman. It is probable the next meeting will be held at Pittsburgh. The greatest unanimity of feeling prevailed, and every man seemed determined to enter the canvass with but one idea-to secure the success of the whole Republican ticket

HOW IT WAS DONE. Have none of the Democratic journals anything to say in defence of Mr. Snowden's manner of naturalization? Really it is shameful to desert him now that his deeds are being so ruthlessly exposed before the examiners in the Philadelphia contested election cases.

examination having been asked whether he under a contract with the Democratic commit tee at so much a head, replied "I didn't see gentlemen; Barger was one; they informed me that the Court of Quarter Sessions was doing it for fifty cents; I objected for a while to come down to that figure, but eventually naturalized during the campaign." Barger is burg, are the men who, for the small sum of 50 cents each, were made American citizens. For rejecting their votes many good and honest men were prosecuted since the last elections, and by such votes Packer expects to be made Governor. The villainy here exposed is bad enough, but is it not worse for a political party to take advantage of it without the war, but it has been reduced over \$6,000,-000 during Gen. Geary's term. No one has word of excuse? yet questioned the financial policy of the State

ASA PACKER'S MUNIFICENCE. When, several years ago, it was first bruited about that Asa Packer had determined to establish and endow an institution of learning at South Bethlehem, the impression was general that it was to be a beneficiary institution, at which young men in indigent circumstance ould acquire an education at little cost to themselves. Such an act would have been

generous, even munificent. While this impression was prevalent he purchased from the Moravian Society a mission chapel at a mere song. Once purchased it was added by Packer to the Lehigh University, at which institution any young man can be educated, provided he pays for it, and pays for it well, at that. Instead of its being an institution for the benefit of the poor lads, it is one of the most expensive and pretending aristocratic institutions of the kind in the

country. The endowment and establishment of it himself a name which he could not otherwise get, and enhance the value of his property in

the vicinage. His personal object has been attained, but lo not call it munificence.

MILLIE GAINES, a negro woman, was tried las MILLIE GAINES, a negro woman, was tried has week in Washington for the nurder of Janues C. Ingle, a white man. Her counsel set up the plea of insanity, which was successfully maintained, the jury, after an absence of only two minutes returning a verdict of not guilty. The jury was composed of six white men and six niggers. The counsel for the defence asked the negro jurymen to acquit the prisoner because the was of their own color! Of course they acquitted her, though the murder was clearly proven. "John Brown's heady," & Sing, Huddern, callud and plain! murder was clearly proven. "John Rrown body," &c. Sing, Bruddern, cullud and plain!

What did "counsel for the defence" ask the BIX WHITE jurymen to do? Try it again! Do.

ABA PACKER, in his letter of acceptance, promises to do "the handsome thing."

ALL Radicalism is throwing up its cap in an co-ALL Radicalism is throwing up its cap in ancestacy over the exhibit of the public debt, just published, which shows a reduction of fifteen or sixten millions of dollars during the year—all of which, of course, is credited to the amazing economy introduced by the new administration. This pretence is utterly untenable and absurd. The fact is, that the Internal Rovenue receipts for the year just closed amount to \$158,287,176, or twenty millions more than the estimate of ex-Secretary McCulloch, while the custom receipts for the time reach the enormous sum of \$183,000,000, or twelve millions more than the estimate of Mr. Wells. So that having thirty-two millions more of available funds than had been counted upon, the new Federal officers have modestly contented themselves

funds than had been counted upon, the new Federal officers have modestly contented themselves with stealing half of that sum, and applied the other half to the reduction of the debt. They were slightly green at the business, or they would unquestionably have found means to appropriate the whole. By this time next year we shall doubtless find them more skilled in the disposition of an unexpected surplus.—Allentoen Democrat.

The above is a pack of gross misrepresentations. The reduction of the United States debt is \$44,000,000, instead of fifteen or sixteen millions, a difference of only 28 millions, and not for the year, but during the FIVE months that Grant has been in office. This continued attack on the finances of the Gov ernment by the very men who desired and aided, as far as their cowardly hearts would permit them, the success of the rebel arms, is, we regret to say, doing a heap of mischief. To their doors may be laid the responsibility of the hard times we are now experiencing. Their threats of repudiation caused the depression last year, and the possibility that they may some day commit frauds sufficient to place them in power, continues the depression to-day. Gen. Grant is a patriot and no one but a fool or a black-hearted traitor would call him anything less. He is destined to be the most universally popular President that has

een in that office since the days of Washingion. He fought the rebels and conquered them, and is now fighting the other great battle against the repudiation of a debt contracted in a holy cause. Every economy that suggests itself is being practiced, the revenue is being carefully collected, none of it is subject to the tealings of Copperheads and it all goes to the payment of the debt and the expenses of the Government.

We will take the figures of the Democrat. Those twenty millions more from Internal Revenue than Secretary McCulloch estimated for, show the amount the COPPERHEAD officials who were in office last year STOLE from the Government. There is no way to lodge that fact. It stares them square in the face. The taxes since last year have been reduced. Everybody knows that. And if you say more has been paid this year, even with the reduction, you admit that business under Grant's administration has improved that much. But we believe the amount of tax paid by the people this year is less than that raid last year, but instead of a large portion going into the pockets of Copperhead Collectors of Internal Revenue, it all goes into the Treasury of the Government, and then instead of being hoarded up to aid gambling in Wall street, is used to buy up bonds at the rate of three millions a week, and reduce the debt and the amount of interest to be paid. The balance represents the increase of returns made by

ionest Collectors of Customs and the result of economizing in the expenses of the Govern-As to the estimates of the copperhead party, no one places much reliance upon them-they have proved wrong for many years. They annually estimate that they have nominated the most popular candidates that could be named. Then they have estimated that they would carry Pennsylvania by 30,000 majority, Lehigh by 3,000, and Montgomery by 2,000 Last year, according to their estimate, they had enough States sure, if they could get New York, to elect their President. So all their energies and abilities were centred on the Empire State. They polled 60,000 fraudulent votes there, and New York gave a handsome Democratic majority, but something was wrong with the voters in the other States they depended upón, Seymour failed

Last September, several prominent gentlemen of New York, every one of them a Democratic, and just as respectable as Asa Packer, estimated "that the Treasury was on the downhill road to speedy and certain bankruptey: that during the fiscal year its expen ditures were sure to outrun its receipts \$150. 000,000; that the deficit could only be met by taxation too burdensome for endurance by free people, or by further reckless loans, and that in any event a reduction of the debt was impossible, and its large increase very proba ble." We might excuse their bad prophesics if, when subsequent events proved their fore bodings to be without ground, they had the nanliness to acknowledge their mistake. Over a month has passed since the time allowed for all the evils which they prophesied to take place, and instead of an increase of our debt and the bankruptcy of the Treasury, up to that time the debt had been reduced \$36.000. No arrests have yet been made. Off The statement for the month of Jul hows an additional reduction of nearly

amount to the enormous sum of \$44.000, 000. We feel perfectly safe in saying that neither of the respectable gentlemen of New York nor Asa Packer, nor any other copperhead will be decent enough to correct the erroneou impressions that they sought to diffuse less than a year ago. The Allentown Democrat and the copperhead party of course does not throw up "its cap in ecstacy over the exhibit of the public debt." They regret that the prophecies of their leaders have been proved false. They are sorry the Treasury is not bankrupt. They groan over the fact that the Government is stronger than they supposed; that its credit is sounder and that it is rapidly and surely discharging its indebtedness. Their

cap-throwing is reserved till they can get into power and repudiate the whole thing. AFTER A CHAIRMAN.

Mr. Galbraith declines to serve Packer chairman of the State Committee. The position was tendered Frank Hughes, of Schuylkill county, who also refused, he being satis fied with his grand achievement of getting up as a praiseworthy act, but the primary object the resolution. The New York papers say of the founder and patron was to build for that Mr. Michler, of Easton, has accepted the charge, while the Pennsylvania papers don't know anything about it because Packer is a New York Candidate. There is no doubt, however, that there is a row in camp and that McMullin, Cassidy and Randall claim that, inasmuch as Philadelphia must supply the votes, she must also have the money and the chairman. In the meantime Mr. Covode is not idle as the Democracy will soon know.

WHERE DOES HE LIVE?

The Democracy of Ohio are trying to solve the difficult question of Gen. Rosecrans' residence. Some say he lives in California, while others insist that Ohio is his home. But how about His Honor Judge Packer? We know that having carpet-bagged from Connecticut he is now a Pennsylvanian, but where does Station, for the Kansas Pacific Railroad Company he live? Carbon claims the honor, but the

To which we answer, Yes and No. Yes, if the nomination is made without regard to Yes, if the nomination is made without regard to his wealth; No, if the nomination is made in consequence of his wealth. Now if our St. Louis cotemporary will lay his hand where his heart ought to be, and solemnly aver that, in his opinion, Judge Packer would lave been nominated if he had been a poor man, be will exhibit a confidence in the purity of human nature, to which a conditional way of his "Edwardthe" herbiren in dence in the purity of minam induce, to which a good many of his "Pemocratic" brethren in Pemisylvania make no pretension. For they are among the foremost of the growlers: they say sharper things of the Judge than we do; they are, or profess to be, disaffected, disgusted, and dissatisfied. Not that they may not become a great deal more harmonious, and a great deal loss amortitions before the decition; but at presess punctilious, before the election; but at pres ent, they are weeping inlignantly with one eye, while they keep the other steadily fixed upon the Judge's money-pots. Aswe don't expect to get anything out of these receptacies, we shall prob-

The sum total of the Republican's " Democra v" is that rich men are just the men for " Dem ocratic" candidates. The following is rather queet political philosophy to find in a "Demo-

BUILDING AND TOAN ASSOCIATIONS

CAMPTOWN, CHELTERIAN TOWNSHIP, 7th mouth, 23d, 182).

The month, 254, 1829.

Mr. Editor: :-In your last Isage you quote from the Germantown "Chronich" an article to show certain advantages in the "William Penn." Building Association over others in blading money. The argument of the Chronicle man is to prove, that in borrowing money on he "William Penn" system—which is not to deduct the reminim—Is Just us good for the Association and better the harmony of the list token. They think there is a charm connected with it which keeps, them out of power, and they ask the addition of the name of a "Connecticut curpet-bagger." The peopl have decided that only Pennsylvanians shall govern Pennsylvania and that our next Gvernor shall be a native of Westmoreland ounty.

ARE YOU RECISTERED? ofter they are, and that if by one system, it is found the sorrower has an advantage the premium goes up. It is Respectfully,

Mr. Davis is Freshlent, we believe, of a Long sociation conducted on the old plan: A stockinlder wishes \$1,000. He blds for this sum 20 pe ent. He gives security for the whole am (8,1090) and receives but \$500, the premium of 20 per cent. (\$200) being deducted.—The buyer then Space and test (\$200 being deducted. The bayer then continues to pay, monthly, dues \$5, interest (one-half of one per cent a month), \$5 or \$10 a month until the shares are worth \$100, that being the original value set on each share. But suppose the borrower cannot purchase at 20 per cent. He then cannot receive the required \$900, and can get no more because he owns but ten shares, and there is no more stock to be had, . he only rem-edy for him is not to bid above a certain percencrease his expense on premium. He is compelied to do without the amount if he cannot find a friend outside the association to loan. It to him. trient outside the association to one it to this if the borrower, moreover, desires to eigned his indebtedness at any time by payment of claims held aga ust him he must pay the full amount actually received by him and in many cases a

very large remium.

The shares in the "William Penn" are valued at \$200 per share. This association differs in manner of loaning money with the one Mr. Da-vis is connected with materially, as a short flus-tration will prove: Borrower wants \$1000. He owns five shares. The amount (\$1000) is put up for sale. It is knocked off to him at 50 cents a share, making his monthly payment amount to st250, being 55 dutes, 55 interest, and 50 cents per share, or 52.50 prendum—total \$1250. If will be seen that the purchaser here gets the whole amount bid for and has the time or years the association runs wherein to pay his premium, interest and dues, being obliged to give the same security in proportion to the amount of money received as he who buys on the old plan. The porrower can also cancel his indebtedness at any time by simply paying back the amount receiv

The practical operation of the new plan consists in loaning money from the funds of the association in the form of a certain number of cents per share each month, to be paid as pre-mium for priority in receiving the loan, the premium to be paid mouthly together with the interest and dues. The principal advantage over the old system appears to be in the fact that the borrower gets the whole amount of money bld for, with the privilege of paying his prendum, large or small, distributed through the number of years the association will run. If in this way the borrower should pay a greater prendum for the money has deep country to be proved. his money he shares equally the benefits the as-

ocintion derives. The organization of these co-operative loan asociations throughout the country properly con-tucted is a blessing, especially to persons of small means. It is plain to such that by paying 12,50 a month by this system at the end of a cer-

AN HARMONIOUS DEMOCRACY

AN HARMONIOUS DEMOCRACY(From the New York Post.)

If the Oracle, the great Panjandrum, does not soon speak, we do not know what will become of the faithful. They are ready enough to believe too little, but that they believe too much; in the rough language of Davy Crockett, "things is mixed," and a man who should undertake to swallow all the Democratic platforms which have been put forth within a few months for the guidance of the unterrified, he would make a long face before he got through.

If we can imagine a Democratic politician in these days making up his mind about the question what his party's policy is, we shall see him first consulting the World and the generous board of St. Tammany, who instruct him that the debt must be paid in gold; then turning to Pendleton and the Western leaders, who assure him that if resid at all it is to be paid in gold; then turning to Pendleton and the Western leaders, who assure him that if resid at all it is to be paid in gold; then turning to Pendleton and the Western leaders, who assure him that if resid at all it is to be paid in gords.

and the Western leaders, who assure him that if paid at all it is to be paid in greenbacks, though the Chehmant Englice will tell him "repulation is getting to be a very respectable sort of word, and every day makes it more and more a synonym for relief."

the Chechmat Emphire: will tell him "repudiation is getting to be a very respectable sort of word, and every day makes it more and more a synonym for religi."

Prazzled here, he turns to the question of taxation, and the Northwestern Democrats ery out to him with tolerable unanimity, that free trade is the true Democratice policy; but, as he looks down into Pennsylvania, he hears a counter-ery that a high protective tariff, the highest possible, is the true and only Democratic creed.

But about the Chinaman I the neophyte asks.

"He must be kept out," shout the California Democrats, "or murdered if he comes in." "He must be brought here at once, to save the country," cry the Southwestern Democrats, engerly bargaining with Koopmanschap for shiploads of coolies.

At least on the "Ingger" our inquiring Democrat imagines there will not be two voices among his leaders. But, alas! here, too, he hears wrangling and confusion. In Pennsylvania, where there are few negroes, he is assured that total exclusion of the blacks from the ballot is the only safe Democrate doctrine. In New York he is told that a property qualification for negro voters is the only safe, true, and defensible doctrine of the Democracy. In the Southern States, equal and impartial suffrage and the ratification of the fifteenth amendment, on the contrary, he will hear, is the only true, trustwortly, correct principle for the Democratic faithful.

Now, to extricate himself from the muddle, suppose our inquiring Democrat determines as a last resort to subscribe for the organ of the party, and accept whatever that tells him as sound Democratic doctrine. Where is the organ? "Here," eries the World, and shows Governor Hoffman's endorsement. "Don't take that sheet," cries the Albany Argus; "here is your true organ." "Here, or the principles."

More and more puzzled, the Democratic inquirer at last falls back upon a few general principles which his father used to tell him were Democratic He declarce economy. In administration sound Democratic doctrine; but in

York.

And so at last, in despair, he falls in with the advice of the World, which tells him: Belleve what you please, dear brother, or rather, believe what is fashlomable in your neighborhood:

"The opposition to negro voting is judicious and rational, so long as there is any chance of shutting out the negroes from the suffrage; but, when all such chances have finally vanished, no good margan as a seried by keeping out the agita-And that is Democracy! That is what the great Democratic party has fallen to! Special Notices ..
