The Nehigh Register. ROBT. IREDELL, JR., - Editor and Proprietor ALLENTOWN, PA., AUGUST 11, 1869. REPUBLICAN STATE NOMINATIONS FOR GOVERNOR,

GENERAL JOHN W. GEARY. FOR JUDGE OF THE SUPREME COURT,

HON. HENRY W. WILLIAMS, OF ALLEGHENY COUNTY.

A STRONG effort will undoubtedly be made at the next session of Congress to repeal the tariff on coal, and this movement is attributable directly to the operators themselves. By their bad management of affairs and their complicity with the miners to keep up the prices the country has become alarmed and even the Tribune joins in the cry for repeal. This is but the entering wedge to other repeals and it behooves us to take care of ourselves in time. We cannot rely upon assistance from other States. Pennsylvania must protect herself mon the question of the tariff, and she can only hope to do so through the influence of the great Republican party. We are naturally protectionists because we believe it to be for the best interests of our government and State, and while no national platform has touched upon the subject, the Republican party of Pennsylvania has not feared to affirm their adherence to the doctrine of protection. The Democratic party has failed to do so for fear of offending other interests, and while before the people politicians may endeavor to show how much would be done for the interests of themselves and the Common-

wealth by a change of administration, we find them unable to point to one word in their platform of principles which could hold them to such promises upon the subject of protec-But even if they had it emblazoned up on their banners one could not yet forget the on their banners one could not yet forget the course of that party upon every protective tariff bill ever agitated and the duplicity of their leaders in 1844, when Polk, Dallas and the tariff of 42 was the rallying cry, and how soon the word of promise therein contained was broken. Does any one doubt that if two political parties were to canvass the State, one having for its cry "Free Trade," and the other "Protection," that the latter would dark at high noo carry by an overwhelming majority? To doubt it is to doubt that our people know of the necessities of the Government. He acwhat interests or what benefits them most. It has been Pennsylvania's demand for years, Her large coal, iron, and other manufacturing are still burning brightly on every hillside in interests require it, just as it will be required by other States when they get to be manufac- the Union as it was at Wauhatchie. His thus gives the history of the contest in a nut the Republican party a distinct adherence to this important principle, while in the Democratic platform the subject, as usual, is passed over. Mr. Packer in his letter of acceptance has made many promises, but upon this sub-

ject he maintains silence in order not to emarrass his party. This man and his party want to govern Pennsylvania. To elect them to power will be suicide.

Should Pennsylvania once announce or encourage a policy on the subject foreign to her interests, the whole country will follow her lead. With the immense number of Chinese who will belikely to arrive within our States in the next four years, labor will be plenty and cheap, and we can illy afford, under such circumstances, to encourage anything which will have a tendency to keep wages still lower.

THE WORLD WRONG.

The New York World in commenting on the destruction of Patterson's warehouse by fire, takes occasion to say a few hard things against the administration and public officers, and attributes the fire to "careless or incompetent supervision, such as would not be tole rated by any private business firm, in the management of its own interests." "In this instance the deputy was a United States official, responsible only to a political administration, which puts its pets in office not for the interests of the people, but of the party, and thus" says this luminous World "it comes about that merchants' goods in bonded warehouse, like the people's rights and interests generally, are no safer in the careless clutch of this gov ernment, than if they were legally subject to confiscation," all of which is very sarcastic and very severe but Patterson's warchouse, ceased to be an Internal Revenue Bonded Warehouse, class B., on the 20th of June last, and therefore it is quite probable that the World is wrong,

A JUDGEI

What will Thompson, Sharswood, Read and Agnew think if Cyrus Pershing, a country Squire, should be elected to the Supreme bench ? Verily, there must be more in his profession than his practice to entitle him to That honor. To be a Judge requires a man to be "learned in the law." Pershing must take it in by intuition. This eminent lawyer does not live in a county town and never tried a half dozen cases unassisted. What a fit associate for the eminent jurists who now fill the bench. -During the celebration of a great festival in portunity of knowing the important events the Cathedral of Traul, Sicily, the drapery caught that have transpired and yet, comes before the fire. The church was crowded at the time. The public, to-day, for the purpose of arguing the congregation was selzed with a panle, and a rush negro question in terms so fallacious and sowas made for the doors. In the confusion 16 phistic that the wayfaring man, though a fool, persons were trampled to death, and a large number were badly bruised. The fire was easily ex-tinguished before any considerable daminge had been done to the Cathedral. The trouble of the matter is, the Democrat is out of his element when he addresses Re-

The entire block was supposed to be fire-proof, and would probably have been so if stored with anything fess explosive and combustible than whiskey. The fire origination of the wall on About 7 o'clock a large portion of the wall on the George is mel freind, un Lombard st. fell to the pavement with a loud crash, supposed to have been pushed out by the

ernsh, supposed to have been pushed out by the weight upon the floors. The whiskey stored went down with the ruins, and in a few moments ; a terrifle explosion took place, throwing down every wall of Section H, scattering bricks, tim-bers, de., in every direction, while the flames shot up in a solid body far above the surrounding building exerctions, convertion ouildings, creating a general consternation among the residents of the neighborhood, for it was soon runnored that a number of children had been killed, and several men badly if not fatally hort. Women were running around frantically to find children that had left their bonnes, but as hose who were missing began to return the ex-

sitement somewhat abated. The explosion of course set the entire contents of the warehouse course set the entire contents of the warehouse on fre, and soon huming whickey ran down the gutters into the sewer[leading to the river, and in a short time an explosion took place in the sewer, breaking a portion of it, but not deling any great damage; the flame continued, however, through the sewer to thoend of the wharf, which it set on fire, and came near firing a brig lying near the pler, but fortunately a steamtug hap pened to be close by, which towed the brig out of danger. When the wall on Lombard st. fell, the

as left hanging in position, but when the don took place, all the walls and the roof xplos fell to the ground, exposing the walls of the nex section, from the roof to the pavement. The bricks were piled eight or ten feet high in Lombard and other streets adjoining. The firemet were soon on the ground, and worked with great

were soon on the ground, and worked with great scal and energy, not only to check the fames pouring forth from the destroyed building, but to save the surrounding property, and at 8_{2} o'clock it was thought the fames were under control, and that the other sections of the ware-house would be saved. In a short thue, however, the damas braze out in section 6 one of the the flames broke out in section G, one of seven-storied buildings, and the contents of the warehouse were soon one mass of fire, the flames shooting up far above the roof of the building shooting up har above the root of the building, and lighting up the streets and buildings for squares around. Firemen and citizens who had not been apprised of the first fire now flocked to the seene, crowding the thorougfares in that vi-chity, so that it was almost impossible to get within several squares of the scene of conflagra-tion. About 9 o'clock the fire had made its way to section F, reaching this building by the iron heeting along the edge of the roof, and in a very hort time the side wall fell, and in a few moanoits there after war lea, war and even with noins thereafter the front wall came down with n loud crash, creating an intense excitement.— At 9:25 a general alarm was rung by order of Chief Engineer Downey, and at 9:10 this alarm was repeated by direction of Mayor Fox, who was upon the ground. The firemen from all sections

of the city came upon the ground, and as the light made by the configration could be dislight made by the confingration could be dis-tinctly seen for many miles, people flocked to the seene in large numbers. The crowd became very great, and all the poleenten held in reserven it the station-houses were sent for. Ropes were stretched across Lombard and Pine sts., to keep heart, the across Lombard and Pine sts., to keep back the spectators. The flames continued sprend through the entire block of stores, and to burn furiously, despite the most strenuous exer tions on the part of the firemen. Section after tions on the part of the hreinen. Section filter section took fire, and when the interfor had been consumed the wails fell in. About 'I o'clock this morning a very heavy shower of rain fell.— This alded the freemen materially, but the flames were not got under subjection until nearly day-light. The fire was very far from being extin-cution of the time that it was undersuch comuished by that time, but it was under such con rol that the greater part of the fire departmen ould be distuissed. At noon to-day the fire we son for a burglar. Mr. Gilmartin has been ar- still burning in the rulns of Section II, and in a portion of Section A which is still standing. that is left of this fine series of stores is the front wall of Section A on Front st., and the walls of Sections A and B on Penn st. The estimated value of the warchouses destroy-ed is from \$50,000 to \$80,000. The structures are fully covered by insurance. Every portion of the warchouses was filled with whiskey. The total quantity of whiskey stored upon the premises was \$5,000 barrels. It is believed that 100 or 550 barrels will be exped. The your of the Human barrels will be saved. The value of the liquors destroyed is estimated at \$2,500,000. The total nsurance upon the whiskey foots up \$2,209,000,
