SUPER PHOSPHATE OF LIME.

TRADE MARK

STANDARD WARRANTED.

We offer to farmers, the present fall season, BAUGH'S RAW BONE SUPER PHOSPHATE of LIME as being highly improved.

BAUGH'S RAW BONE SUPER PHOSPHATE is, as its name indicates, prepared by dissolving Raw Bones in Oil of Vitriol—that is, Bones that have not been deprived of their organic matter—the grease and glue by burning or baking. It, therefore, presents to the use of the farmer *all* the valuable properties of Raw Bones in a highly concentrated form—rendering it at once quick in action and very permanent.

This medical preparation is so offered to the public as a reliable substitute for the lay worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature and selected with the utmost care. It is not recommended as a cure all, but by direct and salutary influence upon the heart, liver, kidneys, lungs, stomach and bowels it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable family medicine and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for Diarrhœa, Dysentery, Bowel Complaint, Dyspepsia, Lassess of Spirits, Fainting, Sick Headache, &c. For Chills and Fevers of all kinds it is far better and safer than quinine without any of its pernicious effects. It creates appetite, proves a powerful digester of food and will counteract the effects of liquor in a few minutes. Prepared by

**THE LATEST DISCOVERY IN** MEDICATION.

The great difficulty which physicians have to labor, for centuries to overcome, has finally been obviated. A Vegetable Cathartic and alterative medicine that can be safely administered to the most delicate female, infant or aged person, without any restraint from business or change of diet, is now offered to the sick in the form of a Lozenge. DR. ERASMUS WINSLOW'S LIVER AND STOMACH LOZENGES is the most important medicinal entity that modern chemistry has produced. It gleans two botanical extractives, perfectly harmless when taken by man, embodying all the remedial properties in every, and dissolved in this pleasant form is speedily and briefly freed from general use, the nauseous pills and doses of which that dangerous agent is the main product. After more than SEVENTEEN YEARS EXPERIMENTS made by the inventor of this peerless remedy he has at length brought it to its present state of perfection. The lozenge is harmless in its operation, and although the most powerful of purifiers have components in their composition, yet by special art their virtues remain as active and efficacious. In *Dyspepsia, Biliousness, Constipation, Sick or Nervous Headache, Piles, Jaundice, Fever and Ague*, and in fact where the febrile secretions are inherent, the Lozenge will be found infinitely more effective than any other medicine ever administered in such cases. As an anti-bilious specific and purifier of the blood, they have created a furor unparalleled in the history of the preparations of the regular pharmacopœia.

It is not to be wondered at that those who have used Dr. ERASMUS WINSLOW'S LIVER AND STOMACH LOZENGES will *recommend them to their friends*, and that druggists who have once sold them will *sell no others*.

CHAS. S. MOSEY'S,

NO. 23 EAST HAMILTON STREET,

Having devoted a great deal of care and attention to the Spectacle business for these last few years, I find that my business in that line has increased so much that I have determined to make it a SPECIALTY. There is no article manufactured in which there is so much deception practised as there is in Spectacle glasses. Knowing that the public have been frequently humbugged by parties pretending to have a superior article of Glasses, and charging exorbitant prices for them, thereby trafficing upon the necessities and infirmities of age I have taken pains to select a large and complete assortment of the finest and best Glasses ever manufactured, so as affording all persons needing Spectacles an opportunity of purchasing at reasonable prices. Persons having any difficulty in being suited elsewhere will do well to give me a call, as I feel confident that no one will leave my store dissatisfied.

**STRATTON'S PORTABLE AIR GAS** MACHINE.

PATENTED MARCH 31ST, 1868.

*SAVE MONEY BY MAKING YOUR OWN GAS.*

**THE CHEAPEST LIGHT IN USE.**

Stratton's Gas Machine for Illuminating Hotels, Private Residences, Stores, Mills, etc., is simple in construction, consumes all the material used in the manufacture of gas, and is as cheap as to bring it within the reach of all. It is free from explosions, can be managed by any person, and produces a superior light to all others, at one-half the cost of ordinary burning gas. NO FIRE IS APPLIED TO THE APPARATUS. It can be attached to ordinary Gas pipes and fixtures, the only variation being in the enlargement of the burner jets. All parts of the apparatus are made in the most thorough and workmanlike manner. Superiority over all machines is claimed in the following particulars: First, Cost of Construction. Second, Illuminating Capacity. Third, Compactness and Simplicity, and consequent impossibility of its getting out of order. Fourth, Economy in use of material. A machine capable of supplying ten burners costs $75.

Any further information will be given and the workings of the machine explained by calling upon the agent for Lehigh county.

This Society is virtually a Life Insurance Company on a plan by which a person of the smallest means can procure the benefits of a life insurance for his family in case of his death.

It does not accumulate millions of dollars of the members' money, as do other Life Insurance Companies, but each member can retain his money until called for in the case of the death of any member.

There is no possibility of the Society failing as the funds are all in the hands of the members themselves, and the Society is purely mutual. Members have a right to vote at all elections for officers.

WHY BECOME A MEMBER.

It is no more the moral duty of a man to provide the daily bread for his family while he lives, than it is to provide against their being left penniless in the event of his death. A POLICY IN THIS SOCIETY is the CHEAPEST and SAFEST mode of making a certain provision for such a calamity.

YOUNG MEN are as liable to take leave of life as the old. Death is uncertain. We ask you, therefore, to consider the CHEAPNESS and SAFETY of insuring in this Company, and be assured that in case of death you will leave behind you a blessing to a widowed mother or dependent sister.

Give the subject your thought, send to the Secretary for our circular, consider its cheapness and we are sure you will at once take out a policy.
