THE ATTORNEY GENERAL. Rumor again has it that Gov. Geary will want a new Attorney General and that Mr. Brewster has been asked to resign. No one can say aught against the efficiency of the titled to 1500. We are strongly of the opinion incumbent. As a lawyer he stands that if the tally lists are examined it will be amongst the foremost in the State and we behis work during his term has not been light. Many suits have been prosecuted to a successful conclusion and a large amount of money recovered for the State. But if Mr. Brewster is not in accord with Gov. Geary, he ought not to fill the position. The executive should have the advice of those who give him not only advice when asked, but who will support | detach them from the Judiciary ticket. Why him and his measures before the people. If any officer cannot do that heartily his course thrown out for similar irregularities? is plain. Such we understand to be the Attorney General's position. It is said that he has not given Gov. Geary that hearty support which was expected of him and we believe many Republicans of influence demand a

## THE INCOME TAX.

This is understood by many to be the last year of the income tax. It will be the last, Bradford...... unless the law imposing it shall be re-enacted Bucks at the coming session of Congress, as we hope | Butter it may be. The opposers of the law argue that "it is not the amount of tax required which makes it objectionable, but they object to having their private business exposed to the public, and their private account books sub jected to examination whenever an insolent official chooses to demand it."

The law does not expose to the public a man's private business. It merely wants to Delaware know how much money that man makes a year above \$1000. What citizen of Allentown, or of Lehigh county, has bad an insident official to demand an examination of his selves, of royal blood or of 6 reign nationality, instead of being appointed from among the people, as they really are. The objection is a poor one. Isn't every individual's business upposed to be a private buliness? Doesn't the assessment of Tax for State and county purposes expose the value of a tax-payer's real estate, personal property, and Lis income, and therefore his private business, as much as his return for Income Tax? The only difference is the former is made upon the very poor jorgment of the control of the official—while in the latter case each indicate the official of the official of the official of the control of the official of the case of the control of the official of the case of the control of the official of the case of the purposes expose the value of a tax-payer's real. vidual is responsible upon his oath for his own return and if it is not correct it is his fault. We contend that those who make over tulon structures. If the Income Tax is taken off them we warren..... \$1000 a year are the men best able to pay taxes. There are several ways of treating our calling, and we must not be surprised that it is sometimes made to play a part which does it little honor. But we have now waited until the indictment against the President is exhausted, and what is the result of a close scrutny into it I that the President has a brother-in-law who sometimes speculated in Wall street; that James Fisk, Jr., tried to make a tool of the brother-in-law, and that the Government took a course which inevitably frustrated the schemes of both, and consequently is above all suspicion of being prompted by corrupt motives. Upon the original accusation, pitful as it was, the people are still invited to, relinquish their confidence in the President. Probably there are few men who would like to be made responsible for all the acts of all their relatives. It is a moral accountability which most of as would be sincerely sorry to undertake, and in private life it is happily not usual to hound a man down for the faults of his connections by marriage.
