Much better that John Jones, having \$1000 to invest, should loan it to his neighbor on plain note, than entrust it to his banker, knowing that it will be sent to other places for investment for private advantage. The Secretary, in urging this reform, says :- " As the banks in the city may be called upon at any moment to respond to the drafts of their depositors, they decline to make loans, representing such funds upon commercial paper payable upon time, but insist upon making call loans, as they are termed, with Governand a Legislature largely Republican. ment bonds or other obligations pledged as collateral security. If he succeeds, then members of Congress are a much abused set of men, for it is now generally believed and often charged, that in the matter of appointments, their relatives and political hangers on are proferred and that not much respect is paid to the wishes will be magnanimous. Mr. Trumbull prothe plea of relieving Congressmen from importunity, and to preserve the independence of a bill in the Senate, which provides "that any rember of Congress or delegate from a Territory, who shall directly or indirectly solicit, or commend the appointment to office by the President or the heads of departments, of any except such recommendation be in writing in response to a written request of the head of the department asking information, or by a Senator in giving his advice and consent in the manner provided by the constitution, shall be guilty of a misdemeanor, and on conviction thereof shall be fined not exceeding \$1000 for each offence." We doubt very much whether any member of Congress who can control appointments, is desirous of being relieved from importunity in this manner. The Senators and Representatives, as a general rule, dictate the appointments in their respective districts and in this way their particular friends are rewarded without regard to fitness for position. Every voter in the district may recommend a worthy applicant and yet if the member does not favor him, his chances for success are small. We do not believe for a moment that Gen. Grant, his Cabinet or the head of departments desire to have the matter of appointments thrown into their hands with out consultation with the members of Coninjustice is often done. Claims of good men are passed over and the wishes of the people disregarded. Anything that will give the people a voice in suggesting names for appointive offices will be a reform, but we doubt whether Mr. Trumbull has taken the true course to meet the question. To take away this power from the members, robs them of their best political card, for on these appointments often depends an election. Bargains are made and rings formed, until every office from tax collector up is farmed out prior to the election, A reform is desirable and if it will relieve the members of Congress from importunity by prohibiting any action on their part, we can easily excuse them, and at the same time get just as good men for office as they now give

are unable to supply the demand upon them for discounts, it is exasperating to know that although the National Banks of this county have deposited at Washington a sufficient amount of bonds to secure the whole amount of their circulation, they have also a contingent fund in New York and Philadelphia for the same purpose which amounts to at least two hundred thousand dollars. This is not the fault of the Banks, but of the National Banking Law, and we hope Congress will examine into the justice or injustice of the provision and set the matter right. We can't see that a Philadelphia or New York Bank can be nore closely watched than a country bank, and a casual glance at the subject, makes it appear very unjust, unless our Banks shall be usted with a similar fund belonging to Banks of other districts.

Merchants generally will not borrow money in large sums payable upon demand. The consequence is that the moneys thus accumulated in the city banks are loaned to persons engaged in speculative pursuits. The result is seen in the fact that parties borrowing money upon commercial paper for legitimate commercial purposes pay from three to six per cent. additional interest per annum, as compared with persons who borrow money for speculation. We cannot see, however, why men who have large amounts on deposit regularly should not be benefited in some way by the banks for the use of such funds. The bank uses it, or a certain portion of it, for discounting. The profits are large, and the stookholders get the benefit. Now, why should not the depositors receive part of this profit? If, however, it is a condition that when he receives interest, the money must be sent to other places, for a higher interest and not be used in the community, then it is far better that no interest whatever should be allowed on deposits.

BUFFALOBILL

THE KING OF BORDER MEN!

An oasis of green wood on a Kansas prairie —a bright stream shining like liquid silver in the moonlight—a log house built under the limbs of great trees—within this humble home a happy group. This is my first picture. Look well on the leading figure in that group. You will see him but this once, yet on his sad fate hinges all the wild and fearful reallities which are to follow, drawn to a very great extent, not from imagination, but from life itself.

A noble looking, white haired man sits by rough table, reading the Bible aloud. On tools by his feet sit two beautiful little girls, his twin daughters, not more than ten years of age, while a noble boy of twelve or thirteen, stands by the back of the chair where sits the handsome, yet matronly looking mother. It is the hour for family prayer before retir-ing for the night, and Mr. Cody, the christian, always remembers it in the heart of his dear

home.

He closes the holy book and is about to kneel and ask Heaven to bless and protect him and his dear ones.

Is it possible there is another Indian alarm?" he says, inquiringly.

Alas, worse than the red savages are riding in hot haste toward that door.

"Hallo—the house!" is shouted loudly, as have a cardenda of horsement hely together.

"What is wanted, and who are ye?" asked "What is wanted, and who are ye?" asked the good man, as he three wide oper the door and stood upon its threshold.
"You are wanted, you black-hearted nigger-worshiper, and I—Colonel M'Kandlas—have come to fetch you! And there's the warrant?"

As the ruffian leader of the band shouted

His long brown hair fell in wavy masses over his shoulders, but it was fine, soft and glossy as silk.

The same picture will do for Buffalo Bill, only this difference noted. The eyes of the latter were nearer a blue in color, his height one meh less, and his hair a little more wavy and a shade lighter.

"To be sure it is, and he will be here. Our William is wild, but he never tells a falsehood. He is too proud for that! Heaven bless him!" said the mother, in a low, earnest tone.

"He is not coming alone," said Lillie, "he brings two friends with him."

His eyes were black as jet and deeply set, though his features were perfect, and, when he chose, his expression soft and winning. His hair, curling slightly, was black and glossy. But with all his beauty, there was a sensual expression about his mouth, so utterly different from that in the other two, and a fierce, passionate longing in his eyes, which made the two girls, instinctive in their purity, shrink from him hrink from him.

"The window—he was there!" she gasped, "The window—he was there!" she gasped, and then she swooned away.

As he did so, a bullet whistled past his ear

Meanwhile the twins had succeeded in restoring the mother to consciousness, and to the hurried inquiry of her son as to whom she had seen at the window, replied that she had recognized the face of Jake M'Kandlas, the nurrierry of her husband delaying in with murderer of her husband, glaring in with a look so full of hate and vindictive cruelty that look so full of hate and vindictive cruelty that she was completely horror stricken.

"There's too many reds out there, or I'd make a rush and settle his hash!" said her son.

"If he'll only stay 'till we thin 'em down a few, I'll accommodate him with a private entertainment. Look out for yourselves, girls—the boys are giving 'em Jessie, and it's about time my hand was in!"

A rapid firing had been going on from the moment Wild Bill got to the door, the Indians shooting at random, for all in the house was dark except the flash of the guns, but every now and then a yell of agony told that the attacking party were not going unpunished.

They could only be seen as they sprang from tree to tree for cover, but their terrible yells ringing through the air told that in numbers they were at least ten to one of the defending party.

"If them gals wore a little older—but never mind, boys, this will be a lesson for the sneaks that come upon the Border—let's be off, for there's plenty more work to do before daylight!" continued the wretch, turning the head of his horse to ride away.

"Stop!"

It was but a single word—spoken, too, by a boy whose blue eyes shone wildly in a face as white as new-fallen snow and full as cold—spoken as he stood erect over the body of his dead father, weaponless and alone.

Yet that rufflan, aye, and all of his mad, reckless crew, stopped as if a mighty spell was laid upon them.

"You, Jake M Kandlas, have murdered my father! You, base cowards, who saw him do this dark deed, spoke no word to restrain him. I am only Little Bill, his son, but as God in Heaven hears me now, I will kill every father's son of you before the beard grows on my

Buffalo Bill, for it was he, had learned to be shown they could be shown the stranger with the state of the stranger eyes now looking on them, they show the thought struck them that it was better not to go far from the house lest some lurking behind would coutinue the

The search for a white man among the bodies of the slain was unsuccessful, so Bill decided in his mind that if M Kandlas had diy,

There are more days and nights than one, and plenty of pale faces are scattered about the plains. The Hawk of the Hills knows other settlements which we can reach in two or three days' journey.
