PROTECTION. We could not have believed that Hon. John D. Stiles would have directly voted against the vital interests of his District. We had little faith in his tariff principles, but knowing that his own home owes its life to a protectiv policy and that it would be exceedingly un popular to oppose her interests, we had a faint hope that he would sustain the principles of a protective tariff for the sake of his future standing in the community. If he is honest in opposing protection, we can admire his honesty, but in the name of all the people of the District and especially of Lehigh county, we ask him to resign his seat in Congress, so that we can be represented by a man whose demonstration of the Free Traders, Mr. Marshall, of Illinois, leading by offering the folwhich came up in the regular order of busi-

ness in the session of Monday last : "Resolved, That the power granted in the Federal Constitution to levy and collect taxes, duties on imports and excises to pay the debts and to provide for the common defense and general welfare of the United States, does not include or embrace any power to levy duties for any purpose other than the collection of revenues for the uses therein indicated; that a tariff levied to foster and nrich one section of our country at the expense of the other, or to foster and enrich one class of citins at the expense of others, is unauthorized by the Constitution, unjust to the great body of the American people, and in its results injurious eventually to nearly every individual interest of

Resolved, That in the preparation of a bill for the modification of existing tariff laws, Congress should confine its action strictly to the preparation of a tariff for revenue exclusively, and that the duties on no article should be greater than that which would give the maximum of revenue on such article."

The question was to lay on the table, which was sustained by a vote of 89 yeas to 77 nays, Messrs, STILES, Getz, Reading, Woodward, Haldeman and Van Auken from Pennsylvania, all Democrate, voting in the negative We want no more Tariff speeches from John D. Stiles. He has shown the people whose interests he favors. The cause of Protection to American Industry will not suffer by not having such a friend as he, and when he again asks a favor at the hands of the electors of his District they will know their man and will vote accordingly. Remember '58 !

THE decision of the Supreme Court of the United States, on Monday, declared the Legal Tender act unconstitutional, in so far as that act regulated the payment of debts contracted previous to the war. Chief Justice Chase, though he does not say so in so many words, to all intents and purposes admits the intention of Congress to apply the provisions of the act to debts contracted before its passage but denies its right under the Constitution to do so. His position is that, comparing the act of Congress with the Constitution, he cannot reconcile such an application of the provisions of the former with the letter and spirit of the

In the midst of all the difficulties and dangers brought about by the sad catastrophe of long and expensive war, the people of the United States look to their representatives in Congress to devise a means by which their condition can be ameliorated. A collapse of credit seemed inevitable and it was imperatively necessary that faith in the ability of the government, which was wavering, should be seem, with a certain steady coolness at ms on future, and should plat for him, early as it

OFFICE OF THE ERIE RAILWAY COMPANY,
NEW YORK, JAN. 26, 1870.
DEAR SIR: Herewith I send you a printed circular, received by me this morning, requesting my signature to a memorial (upon the subject of the duty on Steel Rails) forwarded with the circular, reversely the the vicinity of the circular, ded the views expressed were concurred in by It seems to me that our policy should be to me. It seems to me that our policy should be to foster and encourage home products, rather than open our markets to such a formidable competition as would inevitably result from the reduction of duty so strongly urged in the memorial. By establishing extensively the manufacture of steel rails on our own soil, and protecting their production by a Tariff which would effectually prevent the importation of European rails to any groat extent, we would, in my opinion, be largely the gainers in the long run; for the capital invested would be all in the country; our operatives would find constant and lucrative employment, and the general effect upon our business could not fall to be beneficial. I am at a loss to perceive why we should contribute so large an amount annully to build up the trade and manufactures of foreign countries, while our own interests are sacrificed by Just so much.

Entertaining these views. I do not feel at liberty.

countries, while our own interests are sacranced by Just so much.

Entertaining these views, I do not feel at liberty to attach my signature to the memorial.

I should be pleased, however, to have your views on the subject; and, should you canclude with me in the opinion I have given, I shall feel strengthened in the conviction that the gentlemen whose names are attached to the circular have made a mistake. Respectfully yours,

JAY GOULD, President.

ABRAM S. HEWITT, Esq., No. 17 Burling-silp.

MR. HEWITT'S REPLY.

NEW YORK, Jun. 27, 1870.

find constant and herative employment, and the general effect upon our business could not fail to general effect. If an at a loss to perceive why we should contribute so large an amount annually to build up the trade and manufactures of foreign countries, while our own interests are sacrificed upon the same principle:

As Act to regulate the election of county commissiones as a country auditors.

Entertaining these views, I do not feel at liberty to stated my signature to the memorial.

I should be pleased, however, to have your views on the subject; and, should you cancilde with me in the opinion I have given, I shall feel strengthened in the conviction that the gentlemen whose names are attached to the circular have made a mistake. Respectfully yours,

Additionally yours,

Additionally yours,

Additionally yours,

New Youx, Jan. 27, 1870.

Dean Sin: I beg leave to acknowledge the receipt of your favor of 26th bust, and state that too only fully concur in the views which you express to regard to the duties on Sirel and Iron Rails, but am at a loss to add anything which will make them more foreible; and I venture to suggest that you will allow me to send a copy of your letter to the Committee of Ways and Means.

The fact is, trant Steel and Iron Rails can be made in subable localities in this county—an not sably on the line of the Erle Railway—with as fittle labor as in any part of the word; and the made in subable localities in this county—an not sably on the line of the Erle Railway—with as fittle labor as in any part of the word; and the county of the word in the cere of the labor which is required for their manufacture, but for which is required for their manufacture, but for which is required for their manufacture, but for their missioners at the nearest coloning the same behalf in arthous the coloning of the word; and the county of the word of the word of the word of the word of the same principles.

ADDAM SIR I BOY SI ST, OOO 175,000 175,000 175,000 175,000 175,000 175,000 175,000 175,000 175,000 175,000

-Great excitement prevails in Clark County Ill., in consequence of the discovery of gold on Big principles are those of our people. The Creek, about twenty miles from Terre Haute, Ind. test which made him show his colors was a A lately-returned Californian, a miner of eighteen years' experience, has been for some days prospect ing in the ravines along the creek, and has found lowing resolution on Monday week, and gold in paying quantitles. The people of that seetion are leaving their usual avocations to search for the precious metal.

### CONGRESS.

THURSDAY, Feb. 3-Senate-In the Senate, bill was reported to authorize the funding and consolidation of the Public Debt, and to establish specie payments; the Judiciary Committee were

specie payments; the Judiciary Committee were instructed to inquire into the expediency of establishing a national police force for the suppression of outlaws in the South; the bill for the relief of the naval employes was considered. The Senate refused to confirm the nomination of Attorney-General Hoar.

\*\*Jone\*\*—In the House a bill was reported to suppress Polygamy in Utah; a bill for the admission of Mississippi was passed; the Naval Deliciency bill was discussed.

\*\*FRIDAY, Feb. 4—Senate\*\*—The Senate refused to take up the House bill abolishing the Franking Privilege—22 to 34; a joint resolution was reported providing for taking meteorological observations with a view to give warning of approaching storms.

g storms.

House—In the House a resolution was adopted House—In the House a resolution was adopted authorizing an investigation as to whether any Congressmen have sold appointments to the Mili-tary or Naval Academies; bills were introduced providing for the payment of pensions, and regu-lating the sale of oils; the bill for the relief of the poor of Wushington was passed.

### THE LEGISLATURE.

FRIDAY, Feb. 4—Senats—A bill passed the senate on Friday allowing husband and wife to testify in their own behalf in any proceeding for a divorce in every case where the personal service of a subpent is made on the opposite party, or where the party appears and defends.

House—The most important Republican measure of the session thus far, the Philadelphia Metropolitan Police bill, passed the House to-day by a strict party yete. It was probably sizened by the Governor on Tuesday. A remonstrance, purporting to be signed by 40,000 citizens of Philadelphia, was presented shortly before the passage of the bill. It was charged upon the floor of the House that corrupt means had been used to secure its passage, and a resolution was passed, with but three negative votes, providing for the appointment of a committee of five to ascertain whether such means had been used, with the further provision that the investigation be carried on without additional expense to the State. A bill was introduced to creet a new county, to be called Lackawanna, out of a part of Luzerne. A general bill to allow wits of error in cases of nunder and voluntary manslaughter, known as the Paul Scheppe bill, has gone to the Governor. Both Houses then adjourned to Monday evening.

# While the newspapers gloat daily over the deals of the last case of murder or seduction, acc

While the newspapers gloat daily over the details of the last case of nurder or seduction, arets aention has been made of an incident which occurred last week at Seranton, and which seems to us to contain the elements of the most terrible tragedy. But the story is so oil and hackneyed—the tragedy almost as common as death itself. A young man goes wandering about the country the son of respectable and wealthy people; well-educated himself, a generous, affectionate, confellow, of whom no worse harm can be said that that has was "all the fast." Just at the action, that he was "all the fast." Just at the conjuers and the property of the strong brain and ready bond. Just to this age, this by stops short, looking, it would seem, with a certain steady coolness at his ownfuture, and finding that jon him, early as it is government, which was wavering, should be restored.

Under these circumstances the Legal Tender Act was passed. Its results cannot be denied. It prevented the triumph of rebellion, the division of States, and the impoverishment of a people. This and no other was the cause of the revivification of government credit and the resuscitation of trade, and by this means alone was the soldier in the field paid and the commissariat department replenished. It is well said by Mr. Justice Miller that "upon the "enactment of these Legal Tender Laws they "were received with almost universal acquis" "secence." As the application of restoratives to an apparently drawned person will bring back the banished color to the cheek. and restore the healthful circulation of the fluid of the second color to the cheek. The color of the property of the property

to an apparently drowned person will bring back the banished color to the cheek, and restore the healthful circulation of the fuild of life, so the exhausted nation breathed with renewed vigor and its great heart beat with a healthler impulse as the wise and beneficent measures for its restoration took effect.

To-day we are told by the highest judicia authority in the land to regard those measures as opposed to the spirit of our Constitution, and the reason given is that the indirect effect of them has been to depreciate the value of private property and to alter the nature of private contracts.

We had always thought that the spirit of the Constitution was probono publico; that its essence was the greatest good for the greatent number, and surely its provisions could never have been framed with the intention of thwarting the putriot and of binding with red tape the views of the statesman working for the salvation of his country.

THE TARIFF AND THE RAIL-ROADS.

So many efforts are being made by the Free Traders to induce the belief that the protection of Iron and Steel making is only for the benefit of Pennsylvania, that we are glad of the chance to publish the elters between the President of the Eric Railroad and the other potent in Tammany Hall, the latter of whom was relied on by Commissioner Wells as an authority in matters connected with Iron. Their letters, in a few words, demonstrate the general effect of a Protective Tariff upon the whole country and especially upon railroads. They are as follows:—

Opprice or the Eric Railroad and the other potent in Tammany Hall, the latter of whom was relied on by Commissioner Wells as an authority in matters connected with Iron. Their letters, in a few words, demonstrate the general effect of a Protective Tariff upon the whole country and especially upon railroads. They are as follows:—

Opprice for the Eric Railroad and the other potent in Tammany Hall, the latter of whom was relied on by Commissioner Wells as an authority and especially upon railroads. They are

stimulant, some counterfritant of the brains canotic. We only hint at the great reform needed in threatment of this growing evil. The day is, where the structure of this growing evil. The day is, where the substitution of the second of the

no greater quantity of labor. Free Trade will simply reduce the wages of labor to the foreign alls to sell our rails in competition with foreign rails; but, as a matter of course, the ability of the laborer to consume will be reduced, and a serious loss be inflicted on commerce, general industry, and the business of the railways especially. The only reason why a Tariff is necessary is to supply the laborer with such wages as will enable him to travel and consume un increly the necessaries but some of the luxuries of modern civilization.

Besides, if we hay Free Trade, we cannot as pean markets take from us all that they require, and no amount of purchases of goods from them will induce them to buy more food than they need and which they now take as a matter of necessity. Faitfully yours.

Analy S. ITEMS.

—Several hostile tribes in the Indian Territory are preparing for a Spring campaign against the white settlers.

—The thermometer last Friday morning was 50 above zero at Poughkeepsle, 24320 below zero at Bangor, Me., and 120 below at Lewiston, Me.

—Great excitement prevails in Clark County III., in consequence of the discovery of gold on Big Creek, about twenty miles from Terre Haute. Ind.

The next number of Old and Now, bearing the date of March, will have among its leading contributions a paper by President Steele of the Lawrence University, Wisconsin, on "What a Young Man needs at College;" a discussion of the question of religion in the schools, as developed by the controversy of Cincinnati, by the Rev. A. D. Mayo of that city; "She Writes," a story by Elisa Polko; "Tae School Men and their Bureau," by Sidney Andrews; and "Revelation," by Henry Lawrence Williamsbare, Kurs Co., X. Y.

way, capital fellows) just such prices as they may please to charge you. After March 15th or 20th, Paper Muslins may again be sold at 22 cents. That was the price when we opened here. We sell them for 10 cents. Prints may again be sold at 12 cents. Muslims at 18 cts., which we sell at 12 cts., &c. &c. &c. The beautiful credit system will be permitted to pursue the even tenor of its way, and people who pay their debits may continue to pay, in increased profits, for the goods of those who don't.

Before leaving we will do the merchants here the favor of publishing the names and addresses of some two or three persons who refuse to pay small bills that we have been foolish enough to trust them to. For the present we content ourselves with giving them this natice.

Messrs, Keck, Weller & Co., clothiers, will occupy our storeabout the middle of March next. They have bought our leaves and fixtures. We are compelled, therefore, if possible, to close out all our stock before that time. We will

lease and fixtures. We are compelled, therefore, if possible, to close out all our stock before that time. We will give a parting slap to high prices. We propose to self everything at almost any regroundle price. Many goods will be cleared out less than cost. We are now engaged in marking down our stock and shall continue to do so until all is sold. A rare chance will be thus given to accure great bargains. See that you take advantage of it. Sale will commence Thursday morning, January 12th. Yery truly yours,

A GREAT RESULT

We ask the attention of the public to the following brief Dr. Colton introduced the nitrous oxide or "!nughing the Colton Deutal Association. On the 4th of February ollowing (1864) we commenced to ask our patients to sign a scroll, certifying that the gas was pleasant to inhale and that we had drawn their teeth without pain. (Our scroll was opened in Philadelphia, October 12, 1865.) That we might know the exact number who should sign this paper, we numbered every name on the margin. When we had reached one thousand (1,000), and without an aceident, we thought it a great triumph. WE HAVE THIS DAY, DECEMBER 4, 1839, REACHED THE NUMBER OF PIFTY-FIVE THOUSAND (55,000) PATIENTS I AND WA HAVE HEVER YET HAD ONE ACCIDENT WITH THE GAS! CAR any stronger proof be presented that the gas is a safe ansthetic, and that we know how to use it? Here are FIFTY FIVE PULL REGIMENTS of patients, and if they were marching in single file, allowing three feet for each, the line would be MORE THAN 31% MILES LONG ! We make the gas every day, and, for the past two years, have used from two to three hundred gallons per day. A large part of our business comes from the leading dentists of the city (we do nothing but extract teeth), who know that by ong and constant practice we have acquired great skill in the business. Skill perfected by practice overcomes almost all difficulties. To most persons the gas produces very pleasant sensations, while to a FRW it is a pleasure o have teeth extracted by it. We prefer to give the gas o healthy people, but have given it to hundrede suffering from all sorts of disease and with no ill effects. We can rdinarily draw from ten to fifteen and sometimes twenty teeth or stumps with one dose of gas. THE SAFETY OF THE PATIENT is the first consideration, the next is to extract the teeth excefully, and not injure the gums or alveolar process. We strive to do the work in the very best manner. Price, \$2 for the first tooth, and \$1 for each subseuent tooth drawn at the same sitting. Office hours from

9 A. M. to 5 4 P. M. To avoid a crowd, come in the foremoon, or call and secure an appointment. N. B.-The great secret of success with us always have a PURR GAS. Dr. J. J. Colton, for years a professor of chemistry, and a graduate of medicine, makes and administers the gas; and it is thus perfectly harmless
