As long as joyed the reputation of protecting her citizens, majority of the people are in favor of the all bezords and under all circumstances from present state of the liquor law, in justice to injustice and oppression. That England has hem, it must be the law of the land, and, nover hesitated to demand the sternest justice whenever the time comes that they declare upon those who have wronged and murdered themselves against it, then, equally inevitable her subjects, living under the protection of forwill be its repeal. " The pursuit of happieign governments, is a fact patent to all the ness," an inalienable right of Americans, is When her remonstrances have failed certain to lead them, ere long, away from the to attain the desired end, her war record in rum shop and when a majority of them shall Abyssinia, and the course pursued toward the o declare it, the minority will have as good nissionary murderers in China, are evidences fight to be heard then as now, Whatever of the celerity and promptitude with which she has taken the matter in her own hands, and visited a swift and terrible vengeance upon

the wrong-doer. America has great occasion to be proud of her position among the nations of the earth, but, in this direction, she may learn a lesson from the past of Great Britain and ancient Rome who thus made the name of Roman and Briton to be respected throughout the world, and the surrounding nations to feel reading in the house, which certainly needs a that the mighty arm of their governicents was outstretched to protect, their citizens from lawlessness, cruelty, or murder.

AMERICAN SECURITIES. The declaration of our President and Congress, made over and over again, that our shall be paid in gold, has raised the price in London to 891. There can be no better criterion of the "credit" of the nation than the evidence of English capitalists, and that there is no shadow of doubt on their minds as to the faith and honor of our government, their investments prove. Yesterday gold went down as low as 1074, and it will be as cheap and as convenient, very soon, to pay in gold as in paper. There are a certain class of politicians and others who, to serve their selfish purposes, will adopt any means, though they injure the credit of the country abroad and cause difficulty and financial embarrass. ment at home. It is well for the American people that there are a strong party in their own country who have faith in her ability and resources, to meet all her obligations. there is only confidence in our own integrity as a nation, there can be no question of our ability to pay. And to keep alive this confid ence, there is needed the influence of the press. In any way to depreciate securities, for the purpose of subserving party ends, is at this time, of all others, in the highest degree unpatriotic. For Internal Revenue taxes from September the 1st, 1862, to June 30, 1869, we paid the enormous sum of \$1,297,286,491 ; and during o first year of President Grant's administration about \$90,000,000 of our gold interest bear-ing bonds. This does not look like inability to pay, and to pretend to doubt our solvency in the face of such evidence, is as senseless as i is traitorous.

THE STEAMER SMIDT. THE QUESTION OF TEMPERANCE. THE QUESTION OF TEMPERANCE. The New York papers of yesterday contain a long account of the Temperance discussion at Albany. Memorials were presented from all parts of the State, and, as soon as received, were handed over to committees by the Tam-many. faction, and smothered without cormony. They refused to have the bull need the account of the State in an increase of the small parts of the state in the function of the State in bill read by sections, and thus they cut off all happy arrival of the Smidt and we trust we hance of discussion and amendment.
