ALLENTOWN, PA., MARCH 30, 1870. THE DEMOCRAT ON GRANT'S

FIRST YEAR. THE Democrat of last week was circum stantially untruthful in its deductions from the facts, concerning the first year of President Grant's administration.

"You see," said Sammy, "I either clared President and Vice President of the am, or am nol, your father, is that not so ?' "Yaw," " was the answer," Well the

that "I am," This sounds ridiculous, but be said of him)-when the young Pretender less plausible argument frequently leads astray Prince Charles Edward was lately dead at those who are too ignorant or to lazy too think Rome,- when the Turks had just suffered for themselves.

The Democrat, with that kind of logic which millions of dollars, and, to give color to the asnot have dared to make such an assertion. Secretary Boutwell's own statement is as follows :

It thus appears that the liability of the United amount of \$10,520,820.

During the same period of eleven months, the direct debt of the United States has been diminished \$30,649,971 00 ; and, if the increas ed liability of the United States on account of the Pacific Railroads be added, there still re-

THE OTHER SIDE OF THE QUES-TION.

While the advocates of "Womens Rights" have been creating quite a stir in the community, it has been a matter of regret that though there was so much determined opposition to it in the "homes" of the nation, yet there was no public opposition to it of any moment. We are glad to say the other side are soon to be heard. Miss Edgarton speaks in opposi tion to the movement on Friday evening next at the Cooper Institute, New York, and Miss Catherine E. Beecher addressed a meeting at Steinway Hall, on Monday night.

The object of the meeting was to decide upor and adopt means "to elevate the honor of domestic employment, to train woman more highly for her distinctive profession as chief . educator of childhood and prime minister of " the family state ; and also to prepare her to gain honorable independence in various cmployments suited to her sex."

This is going in the right direction. We have heard from those who look for the exaltation of the female sex by the extension of the franchise and have been pestered with Amazonian notions till women and men begin to grow sick of the subject. It will be a good thing to hear from a

roman who desires the exaltation of her sex into "good women" and gets her ideas of a good woman from the last chapter of Proverbs rather than from the pages of the " Revolutiàn.'

SUDDEN DEATH.

No man can hear of the awful instances of udden death occurring in our midst, without a reflection on the uncertainty of life. How asily and suddenly the frail thread that holds us on to this world, may be severed ! How short is the distance between us and the great inknown? They who walked among us yeserday, to day are gone from this world forover and who can tell which of us may be near the presence of "Sudden Death" to-day. If the dispensation of Providence-bring no nich thoughts as these to men, it is strange in leed. The signification in the words, "No ann dieth to himself," is to be found in the elections these events naturally cause. On the road, in the workshop, amid the busy toils of the day, or in the silent watches of th night, the grim destroyer may come, and then world which now monopolizes all our houghts and cares is a thing of nought, and he great hereafter with all its tremendous insts can alone engross the soul. These are reflections that a man in health ay pretend fo disregard to-day, but let the cy finger of death touch him never so lightly nd they come to him with an absorbing significance that leaves no room for the cares of

One of the great arguments of the "strong minded" is contained in the assertion "negroes

The political right of all men is recognized by the Gov-ernment of the United States, and until it is proved that negroes are not men, they have an inalienable right to the ballot.
