THE NATIONAL PENANCES.

The newspapers published in the interests of the "lost cause," and relying upon the ignorance of their readers, publish and re-publish statements denying that the National Debt has been reduced under the present Ad ministration. We have published the statements showing the reductions from time to time, and it seems wasting space to reiterate the truths, but that this paper should by any chance fall into the hands of anybody who has been unwise enough to pin their faith to such organs, we will give some figures from the official records of the Treasury. They are as follows :

A SUSPECTED NATHAN MURDERER AR RESTED.—The man apprehended near Pottstown, on Saturday afternoon, by Detective Farley, of New York, on suspicion of being connected with the Nathan murder, is about 26 years of age, and gave the name of Francis Z. Kipling, and said his father resided in New Jersey, and did business at No. 24 Malden lane, New York. The prisoner came to Schuylkill Haven, near Pottsville, on August 13, and put up at Epting's hotel. Suspleion was excited by his talking a great deal about the murder, his restless demeanor, and by the fact that he had a pawnbroker's ticket for a set of diamonds.

He went so far as to admit that he was within a few feet of Mr. Nathan when he was murdered, and that he knew where the iron dog was purchased, and that he could put his finger on the sassin. When asked why he did not give information to the authorities, he said i a certain party in New York did not come down' with the stamps he would make a clean breast of it. He was in constant correspondence with parties in New York, and received enclosures of money .-He stated that he had been a bar-tender in a sasidering the propriety of taking the census loon at the corner of Broadway and Bleecket streets, where he had often waited on Wash. Na-

than whom he knew well.

It is also stated that spots resembling blood tains were observed on his clothing. Information having been sent to New York last week, the etective came to Schuylkill Haven on Friday night to make the arrest, but found that Kipling ad taken passage on a canal boat bound to Philadelphia. In company with Captain John B. Martz, the informer, the detective proceeded to Limerick Station on the Reading Railroad,walked up the canal and intercepted the beat, upon which the prisoner was working his passage as a boat-
