The man living ear a railroad, who will allow animals to run at arge, knowing that they are liable to get on the track, and throw a train off, by which many human cings may lose their lives, is guilty of man slaughter in the first degree, and deserves the everest penalty the law inflicts upon the perpetrator of that crime. - Belldehem Times. THE CHURCH OF THE UNITED BRETHERS

IN CHRIST. -The Church of the United Brethern a Christ has been on the whole opposed to cat chetleal instruction, but in a recent article the remarks :- The need for some form of catechetieal instruction in our times is each year becoming nore apparest. The permanent results of our evivals are constantly greatly curtailed because of the imperiest instruction many of the convert have received. A prophet said, "For lack of knowledge the people are destroyed." The fact s just the same now as of old, and receives a new illustration in each instance where a young con ert backslides. The Sabbath-school, upon which we have learned greatly to rely for the instruction of the children, excellent an institution as it is, can not supply the necessities of thorough instruction in doctrine. Many of the teachers in these schools have themselves attained but the most affair from that of the Equestrian department limited experience, and on the leading doctrines of God's word have but imperfectly conceived no tions. Thus meagerly equipped, and spending but a single hour in a week with their pupils, and that in many instances but six months in the rear, they are but ill-prepared to impart that thorough and systematic instruction which the grave importance of scripture doctrine justly de- tends extending his travels into the States of Mimands. So long as the teachings of the Holy Scriptures are communicated in so imperfect a manner as at present, we may expect this ebbing and flowing in our Church population. Young persons may be converted and brought into the Church in great numbers, as frequently happens,

but we may always calculate on heavy losses

from these new accessions to our ranks. We are persuaded that not very grave opposition would at this time be manifested to some well-arranged plan, having such instruction In view.
