JUSTICES .- Justices of the Peace chosen at the late election, who intend to receive pay for their commissions and assume the duties of their offices, should notify the Prothonotary of their acceptance forthwith, otherwise the Commissions will not be issued to them by the Governor. The law requires that this notice be forwarded to the Secretary of the Commonwealth within thirty days after the election.

THE Miners' Journal says among the passengers lost by the wreck of the "Cambria," were three men from Schuylkill county, named Robert W. Laren, H. M. Ginter, both married men, and Alexander Cummings, a single man, all Scotchmen, on their way to Scotland, for the purpose of oringing their families to this country. They were industrious men, and have for a long time been employed at New Mines, in that county.

THE match game of base ball at Rittersville, at the end of the seventh linning, stood 17 to 17. Each club was skunked three times. The Quick- he are some toasted cheese for dinner, and it dissteps gained eight runs on the last inning on ac count of the ball becoming wet and slippery, and the Umpire called game. The flelding of the City Muhlenberg to this nine would form a club capable of beating any other in the Valley, not excenting the Neptunes.

THE annual exportation of \$0,000,000 worth of cheese against \$500,000 worth of butter tells why butter is dear. The milk that goes into that cheese for export is taken away from the production of butter, and we feel it in the prices we hav to pay for butter. This cheese making increases rapidly because the foreign demand is large and steady. The factories cause such a demand for milk that the farmers discontinue making butter and make a larger profit on their milk.

Population.—The Luzerne Union, speaking of the population of Wilkesbarre, says-" Our borough limits do not embrace more than one-half of the town, proper, and is therefore unjust, making us a little hamlet instead of the city we really are. The exact dimensions of our place is as follows: Four miles in length, and two and a half n width, embracing a population-not mentioned in the returns—not one less than 10,000 souls which, added to the above, would make 20,982, about an honest figure for our beautiful town." Very lugenious, indeed. Can't some one suggest a method for making a big city out of Allentown?

A NEW : TEAMER FOR EASTON. - The Free Press, of Wednesday, says the new third class steam fire engine of the Keystone Hose Company, built by Cole Brothers, at Pawtucket, R. I., arrived in Phillipsburg this morning via Central Railroad of New Jersey. The Keystone boys proceeded in a body to the depot where, in a few minutes, they succeeded in unloading the beauty, when they set to work "with a will" and landed her at the Company's house on Bushkill street in a very short ime. She weighs 4700 pounds, fully equipped for fire service, and is painted in white and green

colors with gilded stripes. This atternoon the engine was taken by those whose "aim is the protection of our citizens" to the Lehigh river, just below Green & Gress' saw mill, where, in four and a half minutes steam was gotten up; in five minutes there was 5 pounds of steam; five and a half minutes 10 pounds; and in seven minutes water was forced through the hose to a considerable distance. At the hour of our going to press the engine, with 80 pounds of steam, threw water through 200 feet of hose to a distance of 180 feet, with the wind very unfavor-
