A CORRESIONDENT writing from London, says : "The most extraordinary machine it the exhibition is, beyond question, the one for inferoscope writing. This enables a person to write in the usual way, and to duplicate his writing a million times smaller, so small indeed, that it is invisible to the naked eye, yet with a powerful microscope become so plain that every line and dot can be seen The inventor claims that with this instrument he can copy the entire Bible twenty-two times in the space of an inch. The Astor Library, I presume, could be transferred to a sheet of note paper. Practically, it will be of great service in preventing forgerics. With one of these machines, a private mark can be put on bills so minute and partiet that the forger can neither perceive nor initiate it, but the bank clerk or broker, I nowing where to look, can at once detect to at the bill is genuine. The machine is the invention of a Mr. Peters," 

THE one thing we have heard against Pres. man of considerable note. I have a farm and ident Grant was his acceptance of gifts from stone quarry, but it would be hard to tell branch of this authorized work of humanity in friends. We don't know whether it is a had where the farm begins. The existence of sin, practice or not, we have never triad it but we have a distance working matter that an a distance working matter that an a distance working matter that here have been and the state of the sta practice or not, we have never tried it, but we leven at a distance, worries me, and to obtain do know that his Excellency has done a good knowledge Heft my home in search of the thing for the people by giving them a sound, man of sin. I hardly knew at first where to a call for contributions, and the Geneva Cenpractical, economical administration. We go. He that goes in search of sin purchases a tent Committee of International Relief telehave become so accustomed to talking about ticket for New York, that is if he desires to immense sums of money that we are liable to see the improved article in all its fierceness. Association that "the want of money is ceroverlook the great work that has been done. Desiring to see the largest specimens, I visited In the year that closed with June 50, 1870, the there, and found the railroad president, the new be torwarded, for, in whatever way this amount saved for each working day over that Wall street broker, the politician and the burof the priceding year was \$222,440; being glar, and was well satisfied. It may be added, too, that irritation of the stonach is almost invariably are onposed tion of the temper.

by irritation of the temper. The invigorating and tranquillizing operation of Hessi tenter's Bitters is most powerfully daveloped in cases of indigestion. The first effect of this agreeable toole is comforting and encouraging. A mild glow pervades the system, the chronic unwashness in the region of the ston-act is issened, and the nervour settlessues: which chars-actistics the disease is abated. This improvement is not transient. It is not succeeded by the return of the old symptoms with superadded force, as is always the case when numelicated stimulants are given for the complaint. headhful invigoration. But this is not all. The aportion and anti-billious properties of the proparation are scarredy secondary in importance to its isour virtues. If there is in averdiew of bille the secre is no isour out of the idd proper limits, and if the bileary organ is invertient with the toroid and the units. The fitters also pro-mote healthy ecoporation on the surface which is par-tientary described and the bileary organ is invertient is the contained by a secre is a base on bound the wheeled the toroid and the bileary organ is invertient of the other result grandmain and without pairs. The fitters also pro-mote healthy ecoporation from the surface which is par-tientary described at the secon break when such as is pro-mote healthy ecoporation from the surface which is secon-tion in the surface of purchange and is submersion of the strange of purchange and the secon break is builty of the result grandmain and without pairs. The fitters are pro-builty effort, and this the great Vegetable lestorative breaking regions and the the great Vegetable lestorative breaking regions and this the great Vegetable lestorative breaking remotes. Dr. H, D. Longaker offers his services to the The invigorating and tranquilizing operation of Hos A. R. WITTMAN, NOTARY PUBLIC AND CIVIL ENGINFER.
