### INDIAN NUMBER.

Just after the death of the flowers, and before they are buried in snow, there comes a dreary day, when a mistral wind sweeps across the snow-covered plain, and a heavy snow-storm comes, which is almost never followed by a bright day. This is the time when the Indian number is the most valuable. It is a powerful and effective medicine, which acts directly upon the system, and restores it to its normal state. It is a valuable and reliable remedy for all ailments of the winter season.

### THE FUGITIVE LIEUTENANT.

It was while the American army was freezing and starving at Valley Forge, and the British were marching on in triumph, that a young man, who had been a lieutenant in the British army, fled to the American lines. He was a brave and gallant soldier, and had distinguished himself in many battles. He was captured by the British, and taken to a prison in London. He was there for many months, and suffered many hardships. He was finally released, and returned to his native land. He was a man of great courage and fortitude, and his story is a most interesting and inspiring one.
