This mode of gearing is far superior to any yet invented for beauty, simplicity and durability, and cos not require a gonius to attach it to any kind of spring carriage or wagon, and will answer all the purposes that platform gearing will, with about one-fourth the labor.

ADVANTAGES OVER ANY OTHER GEARING.

The braces support the body so that it cannot move backward and forward. It prevents straining the spring-boits and ears of spring. It rides much steadier.
It answers for all kinds of carriages and spring wagons.
It is much lighter.
