Fogelsville Items. IMPROVEMENTS .- Change is continually going on. New buildings are being put up and old ones given the appearance of new ones. Mr. Henry Stine put an addition to his dwelling house and

gave the remainder a neat coat of paint, both on the inside and outside. Mr. A. W. Held is crecting a fine brick dwelling house for Lewis Smith. Judge W. pankers, also put up a room in Miller's store naking it front with Sol. Smith's hotel. This room has quite an attractive appearance, not only to those who like to deal with bankers, but to all the other classes. There is a safe manufactured by C. Hassenforder, Phila., and weighing twentysix hundred, and a beautiful counter suitably dapted for bankers' business, manufactured by J. M. Mullen, No. 503 North 11th Street, Phila. and made of the very best quality of walnut wood

Besides this, the room also contains such articles as cane seat chairs and floor covered with good substantial carpet. In this room these bankers intend to meet their old and new customers in the future and transact their business with them. Chors .- The grain fields in our vicinity and for

nlles around look very promising, giving us a fore-taste of a rich supply for the coming year of the cereals which constitute a most important part of our food. The hay crop is not quite so promising, giving, only about half as much comparison with last year's crop, which is doubtless owing to the fact of a scarcity of rain in the

quite a corps of teachers and forty-five pupils. If this school succeeds to draw in those children that do not 'attend the other school, the two schools may be a benefit to all concerned. At least no
