ACCIDENT -On the farm of Levi Buckman in Middleton township, is an old covered well in

front of the sitting-room door, and over which the path runs. One day last week as Elia, his daugher, and a daughter of Wm. Livezay, were standing and conversing over the well, the covering fell through, and both were precipitated to the bottom, a distance of twenty feet. They were rescue apininged, but coasiderably frightened. The well had been covered for a number of years, and the decaying of the timber was the cause of the accident. It had been walked over more or less every day.-Newtown Enterprise.

IN Philadelphia much dissatisfaction exists among the chizens against the Paid Fire Department on account of its alleged inefficiency. Among this class will be found all the roughs and runne who, in the days of the volunteer department, set fire to buildings without the least regard for the sufity of the citizens or their property, and these are the ones who are loudest in their denunciation of the new Department. Those who are at the head of this movement desire that practical miner shall form a large portion of the stockholder This will work to two advantages-the association will have the advantages of their skill and the niners will learn the troubles and vexations a endant upon preparing and getting coal to market Indging from the character on the men at its head, this movement, while an innovation of the old sys cm, must prove a success. If the miners will come forward and takestock liberally it will insur-

reater success, for it would be a perfect blending of capital and labor. By a provision in the byaws-any one can draw out his capital after on year, but we venture the prediction that in one car there will be no stock for sale. This is a operation of labor and capital, and one such mov s worth half a dozen strikes. The books, we un-
