THE SURRENDER TO THE MOB. The General Order of the Chief of Police, published in the Tribune this morning, is evidently written by a higher authority, and only signed by Mr. Kelso. The mob and its friends have ordered our amiable Mayor to put down the parade of the Orangemen, and he has consented in his roundabout way. He furnishes the rhetoric, and the Chief of Police has probably little to do but to sign his name. city of the Republic is on its knees to a few She afforded the gentleman every possible thousand disorderly foreigners. The lesson infinitely worse in its effects on the public been. Sooner or later the rist would have quelled and the authority of the law established, in spite of the ominous fact that our drilling, by open threats and swagger, the members of the riotous organizations have gained their point with no expenditure of

blood or muscle. The Mayor and the Chief We must not be misunderstood. We have Orangemen's parade. It seems to us not the part of wisdom nor propriety for natives of foreign countries who have come here to better their condition, and become patriotic citi zens of the Republic, to hang on so implacably to the old hates and jealousies and animothe privileges and duties of citizenship. What which side whipped in a day of civil war, two centuries ago, on the banks of the Irish

river? The whole quarrel is pitiful and it But that does not effect the question of the duty of the city authorities to preserve peace on the day of the parade. The Orange parade, unnecessary and ill-advised as it is, is not an exceptional occurrence. It is as much entitled to protection as the recent German parade, the French Fair, and is much more clearly a legal manifestation than the various Fenian dis-

plays we have so often witnessed. Every one of these demonstrations excited, of course, very bitter feelings and reflections among those who opposed the cause they celebrated. But who ever thought of preventing them lest some hot-headed objector should throw a brick at the banners? We can imagine the sort of countenance our Mayor would hav presented to a delegation of Frenchmen who should have proposed to him to prohibit the German parade, out of regard to their national susceptibilities. Yet he has done a meaner and more unlawful thing in this case. He has arbitrarily forced a body of citizens to give up a peaceable and lawful manifestation at the bidding of a handful of riotous brawlers, who threaten murder and disorder if their barbarous funcies are not complied with. The only reason which could have dictated this shameful action, is that the law breakers of Wednesday are a more numerous and valuable voting stock than those they propose to attack. The last, and not the least, of the evils we have suffered from that corrupt Ring, which is a nursery of crimes and shames, is this enforced surrender of the honor and fair name of the city to a brutal mob, which now has no check upon its ignorance and its greed. A humiliating contrast is presented by the tone adopted by the Irish priests and ceclesiastics, as compared with that which the organs of Tammany have been compelled to employ. While Archbishop McCloskey sternly commands his flock to abstain from

> policemen, the rhetoric being beyond compreshown the intended mobsmen being too humiliating to all good citizens to be even an agreeable subject of criticism to an enemy. We shall be fortunate if we escape mo ious consequences from this betrayal of trust apparently evaded. Nothing is settled by it. The Orangemen are of course made bitter and sullenly resentful. Their enemies are rendered insufferable with arrogant triumph. a blow, the very citadel of public order having been basely given up by the City Government without an effort made for its defense. so cringing to violence and so insolent to law abiding citizens-nothing but the fact that Tammany will extend its broad regis to any criminals or lawbreakers who can be of ser-
