REPUBLICANS, ATTENTION : We desire to impress upon the Republicans the County Convention to be held on next Saturday. The people are tired of the disgraceful rule of the Democratic Ring in this county. The Democratic PARTY has longer anything to do with it. The rank and file have a clear majority in favor of rotation in office, yet year after year they are choked off and the Ring continues to run the county government in its own interests and little are the people allowed to know of the way in which their money is

Now and then a small office is thrown out o appease the clamor of the rank and file, but the Ring takes care to manage so as to keep control of the principal offices. The people have become sick of this thing and prominent Democrats have declared they are in favor of possible; let us befog the public mind with orable discharge of the accused lady. Not rotating Democrats out and Republicans in. This is the only way to save the county treasary from bankruptcy. The honest Democrats have tried and tried in vain to correct the evils. to nominate good men in their own partymen who will take care of the interests of the tax-payers. They have failed to break the power of the Ring and they must not be blamed if they vote the Republican ticket or stay away from the polls altogether.

It behooves the Republicans to be widewake and active. Send a full delegation to the Convention. Place no candidates on the ticket but good, substantial, honest and popular men-men who will work for their election -and then go home and work until election night and a better result will reward us for our labors than we have had since 1860.

MISREPRESENTATIONS.

The readers of the CHRONICLE have no Last week we gave a full statement of the dealcations in the Internal Revenue Department, which for the past ten years summed up about wenty-seven hundred thousand, seventeer hundred thousand of which was taken by appointees of Andrew Johnson, and but about inely-four thousand by appointees of Presilent Grant. These facts were published, also, n the respectable Democratic papers, but that class which has no regard for decency or truth s circulating a false statement that the defalations have amounted to over twenty millions of dollars. That twenty millions included, not only taxes received, but taxes due and outstanding in the Districts of the respective Collectors. There are outstanding taxes always charged against the Collectors, and when one retires from office the charge is not canselled till some time afterwards, when the acceeding Collector has an opportunity to collect the taxes or ascertain whether the mounts can be recovered. If we were to use the same unfairness in reference to our County mmissioners' accounts we could produce a carful article which would startle the community, but we would do an act which would entitle us to the condemnation of every fair-

ninded citizen. We think there is crime enough, nowadays. high and low places to satisfy the cravings f the greatest sensationalist, without resorting falsehood and exaggeration to give his paper spicy reputation, and, as the more common ime is made to appear, the more weak per ns will be beguiled into committing unlawful acts, the journalist who gives up his colmns entirely to this class of reading, whether or political or other purposes, does the commity a positive injury. Although a species of crime takes the form of a contagion, which spread over the country through the press, ve do not believe that newspapers should not ecord the acts of criminals; but at the same ne, in justice to the right, it should not be ade to appear that there are no honest men the world. Let the people know that while leves have been detected and punished, that ere are still noble, honest men working for he good of the country and for the people's fare. Let them know that our monetary fairs are being so well managed that Euro cans have the most unbounded confidence in he integrity and perpetuity of our Governent. Let them know of our unprecedented vance in internal improvements and that, us nation, we stand see nd to none. Let them now some of the good with the bad, and the wapapers will not be the fruitful cause of ril, as too many of them are. the trouble from this source is so infinitesimal

THE question of Constitutional revision is to e passed upon by the people of this State at the ober election, but both parties seem to have est sight of this fact in their preparations for g a Constitutional Convention, and this hole State. his mind at all, and he apparently expects that he will be able to silence all opposition to him-While it is reported that from ill health General McCook, the Democratic candidate for Governor of Ohio, has withdrawn or soon will retire from the field, and that General Ewing will take his place, it is apparent that on their " new departure" the Ohio Democracy are anything but harmonious or enthusinstic. On the other hand, the Republicans have made all the needful preparations and appointments for a thorough stumping cam nign, and are to begin the work to-morrow at twenty different points, and with a force of forty speak is, more or less; and they intend o "keep the ball in motion" in every city, town and village, and at every railway station, steamboat landing and cross-road post office in the State, till the eve of the October election day. And so the odds are decidedly against the Democracy in Ohio.

> As a rule, confidence is undenbtedly a plant of slow growth. But all rules have their exceptions, and the confidence which the New York World now professes in the integrity of A. Oakey Hall is a plant of very rapid growth, a perfect mushroom in fact. During the young democratic rebellion, it used to call him such pet names as' 'shameless corruptionist," "servile tool of Tweed," etc., and go on about him very much as the Times is doing now. Its number for April 5, 1870, contained this first-class notice: "Mayor Hall is the creature, ally and tool of the corrupt Ring. Whatever power is placed in his hands will be wiclded by his creators, or in servile obedience to their dictation." The question for New Yorkers to settle is, which estimate of Oakev's character s correct—the one which the World entertained last year, or the one it professes to entertain now .- S ringfield Republican.
